GOA PUBLIC SERVICE COMMISSION | COMPUTER BASED RECRUITMENT TEST

Practice Set 5

English (Comprehension), English Grammar, General Knowledge and Current Affairs of India and Goa, Logical Reasoning, and Core. 60 questions, 60 marks, 75 minutes. Answer key and explanations at the end.

What this is. A practice paper in the pattern of the Homoeopathic Physician syllabus (Advt. 06/2026): Comprehension 10, Grammar 5, General Knowledge 10, Logical Reasoning 10 and Core 25. The questions in sections I, II and IV are taken from GPSC CBRT papers of 2023 to 2026, including the medical papers (Medical Officer 2024 and 2025, Pharmacology, Pharmaceutics, Pharmaceutical Chemist, Physiotherapy, Dentist, Ophthalmologist); each explanation names the paper. Section III (GK) is written for a CBRT on 1 November 2026, following the pattern of GPSC's GK papers from 2018 to September 2026: mostly current affairs of August to October 2026, with Goa, important days and some static GK. Where GPSC's printed key was wrong, the corrected answer is given. A few grammar items marked 'GPSC-style practice item' were written to fill the section. The core section is original, set to the ten core topics of the syllabus. In the real paper the core questions come first; here they come last, in syllabus order.

Section	Questions	Marks
English (Comprehension)	1 to 10	10
English Grammar	11 to 15	5
General Knowledge / Current Affairs of India and Goa	16 to 25	10
Logical Reasoning	26 to 35	10
Core: Obstetrics, Paediatrics, Surgery and First Aid	36 to 60	25
Total	**60**	**60**

Each question carries one mark and has five options; option E is always "None of the above", as in the real test. No marks are deducted for a wrong answer. The CBRT for the post of Homoeopathic Physician (Advt. 06 of 2026) is 60 marks in 75 minutes: these four sections plus a 25-mark core section. The qualifying marks are 30 of 60 for General, EWS and ex-servicemen, 27 for OBC, PwD and CFF, and 24 for SC and ST.

SECTION I | 10 MARKS

English (Comprehension)

Passage 1. Read the passage and answer questions 1 to 5.

The co-existence of high youth unemployment alongside widespread corporate talent shortages reveals a deep structural mismatch between formal educational curricula and the fast-evolving needs of the modern labor market. Academic institutions remain stubbornly tethered to legacy rote-learning systems that prioritize theoretical memorization over practical, dynamic problem-solving and technical fluency. As industrial sectors rapidly transform through automation, data analytics, and green engineering, graduates enter the workforce with obsolete skill sets, rendering them functionally unemployable despite holding formal degrees. Resolving this structural employment bottleneck requires a fundamental overhaul of vocational training, moving away from low-tier manual training toward high-value technical and cognitive skill development. This transformation requires deep institutional partnerships between universities and industries, ensuring that apprenticeships, real-world project learning, and adaptive digital skills are deeply integrated into curricula. Youth employment strategies must look beyond simply increasing graduation rates, focusing instead on building a highly agile, continuously upskilling workforce capable of navigating continuous industrial disruption.

1. The simultaneous existence of youth unemployment and corporate talent shortages is, according to the author, proof of:

A. A structural mismatch between curricula and market needs.
B. The failure of job portals to track vacancies.
C. A drop in the number of students taking degrees.
D. Companies refusing to pay fair wages.
E. None of the above

2. Traditional academic institutions are criticized for prioritizing:

A. Green engineering over business management.
B. Rote learning and theoretical memorization over practical problem-solving.
C. Continuous upskilling with industry.
D. Technical fluency and project-based learning.
E. None of the above

3. According to the passage, why are many degree holders "functionally unemployable"?

A. They lack capital to start businesses.
B. Universities have replaced theory with apprenticeships.
C. Automation has removed all human jobs.
D. They graduate with obsolete skills that do not match industry needs.
E. None of the above

4. To resolve the employment bottleneck, vocational training must:

A. Shift toward high-value technical and cognitive skills.
B. Focus only on low-tier manual skills.
C. Be cut off from industry input.
D. Spend more time on rote learning.
E. None of the above

5. The ultimate goal of youth employment strategies should be to:

A. Maximise graduation numbers without changing curricula.
B. Stop industries from automating.
C. Build an agile, continuously upskilling workforce.
D. Subsidise firms that hire untrained graduates.
E. None of the above

Passage 2. Read the passage and answer questions 6 to 10.

Human skin maintains its health and smoothness by means of a fatty substance called sebum, secreted by millions of glands located near the roots of hair. This oily substance oozes to the skin and forms a protective mixture with sweat, to keep our skin moist and pliable. In very cold weather the sebum congeals and does not come to the surface of the skin; as a result, the skin becomes dry and chapped. Over-production or under-production of sebum causes excessively oily skin or excessively dry skin. During adolescence there is a rapid increase in sebum production causing skin eruptions. But as we grow older, sebum production decreases, causing dry skin, wrinkles and lack of elasticity. Although all skins seem to look alike, our skin is particularly our own, so that our fingerprint patterns are unique and can never be found duplicated in any other skin pattern. Similarly, when there is a skin transplant, the skin is taken from another part of the same body, otherwise the body is liable to reject it.

6. The discussion of sebum in the passage is relevant because sebum is

A. an oily substance that oozes to the skin
B. mixed with sweat
C. secreted at the roots of hair
D. protective of the health of human skin
E. None of the above

7. Which of the following is an INACCURATE statement about human skin, according to the passage?

A. In a skin transplant the donor and recipient are usually the same person
B. All human skins are alike
C. Human fingerprints are unique
D. Excess sebum in adolescence causes skin eruptions
E. None of the above

8. Which word in the passage means moving tissue from one site to another?

A. adolescence
B. duplicated
C. transplant
D. congeals
E. None of the above

9. According to the passage, the cause of loss of elasticity of the skin in older people is

A. a decrease in sebum production
B. chapped skin
C. adolescence
D. cold weather
E. None of the above

10. In very cold weather the skin becomes dry and chapped because

A. sebum congeals and does not reach the surface
B. the glands near the hair roots are damaged
C. sebum production increases
D. sweat production stops
E. None of the above

SECTION II | 5 MARKS

English Grammar

11. Choose the correct option: “I wish I _____ the answer to your question.”

A. will know
B. knew
C. know
D. have known
E. None of the above

12. Find the error: “He has been living in Panaji for 2019.”

A. has been
B. living
C. in Panaji
D. for
E. None of the above

13. Select the correct indirect speech: He said, “I am tired.”

A. He said that he was tired.
B. He said that I was tired.
C. He said that he is tired.
D. He said that he had been tired yesterday.
E. None of the above

14. Choose the correct tense: “If it rains tomorrow, we _____ the camp.”

A. would postpone
B. postponed
C. had postponed
D. will postpone
E. None of the above

15. Identify the conjunction relationship: “Although he was ill, he attended office.”

A. Result
B. Purpose
C. Contrast
D. Condition
E. None of the above

SECTION III | 10 MARKS

General Knowledge / Current Affairs of India and Goa

16. With 11 new e-visa entry points added in August 2026, the total number of e-visa entry points became:

A. 88
B. 100
C. 75
D. 64
E. None of the above

17. Under VB-G RAM G, which replaced MGNREGA in 2026, each rural household is guaranteed how many days of wage work a year?

A. 100
B. 125
C. 120
D. 150
E. None of the above

18. India won the Women's T20 Asia Cup 2026. How many times has India won the women's Asia Cup?

A. Six
B. Five
C. Seven
D. Eight
E. None of the above

19. Who won the Best Young Player award at the 2026 FIFA World Cup?

A. Lamine Yamal
B. Pau Cubarsí
C. Jude Bellingham
D. Endrick
E. None of the above

20. World Patient Safety Day is observed on:

A. 7 April
B. 1 July
C. 12 May
D. 17 September
E. None of the above

21. Goa's highest peak is:

A. Morlemchogor
B. Catlanchimauli
C. Sonsogor (about 1,167 m)
D. Vagheri
E. None of the above

22. INS Mahendragiri, the sixth Project 17A frigate commissioned in July 2026, was built by:

A. Hindustan Shipyard
B. Mazagon Dock Shipbuilders
C. Cochin Shipyard
D. Goa Shipyard Limited
E. None of the above

23. SEBI's 'Credit Risk-o-Meter' (2026) is meant to assess the credit risk of:

A. debt securities
B. insurance policies
C. mutual fund equity schemes
D. bank loans
E. None of the above

24. The southwest monsoon reached Kerala in 2026 on:

A. 4 June
B. 24 May
C. 15 June
D. 1 June
E. None of the above

25. Varsha Ashok Aglawe made history in August 2026 when she became the first woman to head the:

A. Survey of India
B. Archaeological Survey of India
C. Geological Survey of India
D. India Meteorological Department
E. None of the above

SECTION IV | 10 MARKS

Logical Reasoning

26. Find the next number in the series: 3, 6, 18, 72, 360, ?

A. 2160
B. 1800
C. 2520
D. 720
E. None of the above

27. If A = 2, B = 4, C = 6 and so on, what is the value of G + O + A?

A. 23
B. 44
C. 46
D. 48
E. None of the above

28. Book is to library as painting is to:

A. Canvas
B. Gallery
C. Artist
D. Brush
E. None of the above

29. Find the odd one out.

A. Square
B. Rectangle
C. Rhombus
D. Triangle
E. None of the above

30. X and Y are husband and wife. Z is their daughter and W is their son. V is W's son. How is X related to V?

A. Father
B. Uncle
C. Grandfather
D. Great-grandfather
E. None of the above

31. A man leaves his house, walks 10 m east, turns right and walks 5 m, then turns right again and walks 10 m. Where is he in relation to his house?

A. 5 m to the north
B. 5 m to the south
C. 10 m to the east
D. At the house
E. None of the above

32. The average age of 30 students is 15 years. Including the teacher, the average rises by 1. What is the teacher's age?

A. 45
B. 46
C. 47
D. 48
E. None of the above

33. Find the compound interest on ₹1,600 at 10% a year for 2 years, compounded annually.

A. ₹320
B. ₹336
C. ₹350
D. ₹360
E. None of the above

34. Four boxes each hold the same number of sweets and carry these labels: 'Five or Six', 'Seven or Eight', 'Six or Seven', 'Seven or Five'. Only one label is correct. How many sweets are in each box?

A. five
B. six
C. seven
D. eight
E. None of the above

35. Pick the odd pair:

A. Pen and Nib
B. Water and Bucket
C. Ink and Inkpot
D. Oil and Lamp
E. None of the above

SECTION V | 25 MARKS

Core: Obstetrics, Paediatrics, Surgery and First Aid

36. Naegele's rule estimates the expected date of delivery by adding to the first day of the last menstrual period:

A. 9 months
B. 10 months
C. 8 months and 14 days
D. 9 months and 7 days
E. None of the above

37. Pre-eclampsia is defined as hypertension after 20 weeks of pregnancy with:

A. Glycosuria
B. Proteinuria or end-organ involvement
C. Anaemia
D. Polyhydramnios
E. None of the above

38. Gestational diabetes is screened for in India using:

A. urine sugar
B. HbA1c alone
C. a 75 g oral glucose test (single step, DIPSI)
D. random blood sugar alone
E. None of the above

39. The second stage of labour is from:

A. onset of pains to full dilatation
B. delivery of the baby to delivery of the placenta
C. the first hour after delivery
D. full dilatation of the cervix to delivery of the baby
E. None of the above

40. Painful menstruation with no pelvic pathology, starting soon after menarche, is called:

A. Secondary dysmenorrhoea
B. Menorrhagia
C. Primary dysmenorrhoea
D. Amenorrhoea
E. None of the above

41. Irregular cycles, hirsutism, acne and multiple ovarian follicles on ultrasound suggest:

A. PCOD/PCOS
B. Endometriosis
C. Fibroid uterus
D. Ectopic pregnancy
E. None of the above

42. The commonest benign tumour of the uterus is:

A. Endometrial polyp
B. Adenomyosis
C. Leiomyoma (fibroid)
D. Ovarian cyst
E. None of the above

43. A baby typically sits without support at about:

A. 3 months
B. 6–8 months
C. 12 months
D. 15 months
E. None of the above

44. Jaundice appearing within the first 24 hours of life is:

A. always physiological
B. due to breast milk
C. pathological until proven otherwise
D. normal in preterm babies
E. None of the above

45. Exclusive breastfeeding is recommended for the first:

A. 2 months
B. 4 months
C. 6 months
D. 12 months
E. None of the above

46. Rickets results from deficiency of:

A. Vitamin D
B. Vitamin A
C. Vitamin C
D. Iron
E. None of the above

47. Under India's Universal Immunisation Programme, BCG is given:

A. at birth
B. at 6 weeks
C. at 9 months
D. at 5 years
E. None of the above

48. A child with difficult dentition, greenish diarrhoea, and who wants to be carried constantly calls for:

A. Calcarea carb
B. Silicea
C. Belladonna
D. Chamomilla
E. None of the above

49. The 'rule of nines' is used to estimate:

A. blood loss
B. the degree of dehydration
C. the percentage of body surface area burnt
D. the severity of a head injury
E. None of the above

50. The commonest type of shock after trauma is:

A. Septic shock
B. Hypovolaemic shock
C. Cardiogenic shock
D. Neurogenic shock
E. None of the above

51. A collection of pus in a cavity lined by granulation tissue is called:

A. Cellulitis
B. Sinus
C. Fistula
D. Abscess
E. None of the above

52. A Colles' fracture is a fracture of the:

A. scaphoid
B. neck of femur
C. clavicle
D. distal radius with dorsal displacement
E. None of the above

53. Infection of bone, commonly by Staphylococcus aureus, is called:

A. Osteoporosis
B. Osteomyelitis
C. Osteoarthritis
D. Osteomalacia
E. None of the above

54. Pain and stiffness worse on beginning to move and better with continued motion, as in sprains or spondylosis, call for:

A. Rhus toxicodendron
B. Bryonia
C. Arnica
D. Ruta
E. None of the above

55. Raised intraocular pressure with optic nerve damage is called:

A. Cataract
B. Conjunctivitis
C. Pterygium
D. Glaucoma
E. None of the above

56. Ear pain in a child after a cold, with a red, bulging eardrum, suggests:

A. Otitis externa
B. Acute otitis media
C. Wax impaction
D. Otosclerosis
E. None of the above

57. For bruises, falls and blunt injuries with a sore, bruised feeling, the first remedy is:

A. Arnica montana
B. Hypericum
C. Calendula
D. Ledum
E. None of the above

58. For injury to nerve-rich parts such as crushed fingertips, with shooting pains along the nerve, use:

A. Arnica
B. Bellis perennis
C. Hypericum
D. Symphytum
E. None of the above

59. Calendula is mainly used externally to:

A. stop nosebleeds
B. promote healing of lacerated wounds and prevent suppuration
C. relieve toothache
D. dissolve kidney stones
E. None of the above

60. First aid for a snakebite includes:

A. cutting and sucking the wound
B. immobilising the limb and transporting quickly to a hospital with anti-snake venom
C. applying a tight tourniquet
D. applying ice
E. None of the above

Explanations

English (Comprehension)

1 **A** **A structural mismatch between curricula and market needs.**
Detail: the first sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

2 **B** **Rote learning and theoretical memorization over practical problem-solving.**
Detail: the second sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

3 **D** **They graduate with obsolete skills that do not match industry needs.**
Detail: the third sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

4 **A** **Shift toward high-value technical and cognitive skills.**
Detail: the fourth sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

5 **C** **Build an agile, continuously upskilling workforce.**
Main idea: the last sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

6 **D** **protective of the health of human skin**
Main idea: skin 'maintains its health and smoothness by means of' sebum. Passage: GPSC CBRT (Programme Officer), Jun 2025.

English (Comprehension)

7	**B**	**All human skins are alike** The passage says skins only 'seem to look alike'; each skin is 'particularly our own'. Passage: GPSC CBRT (Programme Officer), Jun 2025.
8	**C**	**transplant** Vocabulary from the passage. Passage: GPSC CBRT (Programme Officer), Jun 2025.
9	**A**	**a decrease in sebum production** Detail: 'as we grow older, sebum production decreases, causing dry skin, wrinkles and lack of elasticity'. Passage: GPSC CBRT (Programme Officer), Jun 2025.
10	**A**	**sebum congeals and does not reach the surface** Detail: the third sentence. Passage: GPSC CBRT (Programme Officer), Jun 2025.

English Grammar

11	**B**	**knew** 'Wish' about the present takes the past form (subjunctive). GPSC-style practice item, modelled on the 2026 grammar blocks.
12	**D**	**for** Use 'since' with a point of time (2019); 'for' with a period (five years). GPSC-style practice item, modelled on the 2026 grammar blocks.
13	**A**	**He said that he was tired.** Reporting verb in the past: am → was; I → he. GPSC-style practice item, modelled on the 2026 grammar blocks.
14	**D**	**will postpone** First conditional: if + present, will + verb. GPSC-style practice item, modelled on the 2026 grammar blocks.
15	**C**	**Contrast** 'Although' introduces a contrast (concession). GPSC-style practice item, modelled on the 2026 grammar blocks.

General Knowledge / Current Affairs of India and Goa

16	**A**	**88** Aug 2026.
17	**B**	**125** MGNREGA guaranteed 100 days.
18	**D**	**Eight** Shafali Verma was Player of the Tournament. Sep 2026.
19	**B**	**Pau Cubarsí** July 2026.
20	**D**	**17 September** The 2026 theme focused on safe care for noncommunicable diseases.

General Knowledge / Current Affairs of India and Goa

21 **C** **Sonsogor (about 1,167 m)**
In the Sahyadri, Sattari–Sanguem.

22 **B** **Mazagon Dock Shipbuilders**
July 2026.

23 **A** **debt securities**
Oct 2026.

24 **A** **4 June**
The normal onset date is 1 June.

25 **C** **Geological Survey of India**
GSI, founded 1851, is headquartered in Kolkata.

Logical Reasoning

26 **A** **2160**
The multipliers are 2, 3, 4, 5, then 6: 360 x 6 = 2160.

27 **C** **46**
G = 14, O = 30, A = 2, and 14 + 30 + 2 = 46.

28 **B** **Gallery**
Books are kept and shown in a library; paintings in a gallery.

29 **D** **Triangle**
The first three are four-sided figures. A triangle has three sides.

30 **C** **Grandfather**
X is the father of W, and W is the father of V, so X is V's grandfather.

31 **B** **5 m to the south**
He goes 10 m east, 5 m south and 10 m back west, ending 5 m south of the house.

32 **B** **46**
31 × 16 = 496; 30 × 15 = 450; teacher = 46. GPSC CBRT, Sep 2025.

33 **B** **₹336**
1600 × 1.21 = 1936; interest 336. GPSC CBRT, Sep 2025.

34 **D** **eight**
Five, six and seven each make two labels true. Eight makes only 'Seven or Eight' true. GPSC CBRT, Jun 2025.

35 **A** **Pen and Nib**
The others are a substance and what holds it; a nib is part of a pen. GPSC CBRT, Sep 2026.

Core: Obstetrics, Paediatrics, Surgery and First Aid

36 **D** **9 months and 7 days**
Equivalent to 280 days.

Core: Obstetrics, Paediatrics, Surgery and First Aid

37	**B**	**Proteinuria or end-organ involvement** With convulsions it becomes eclampsia.
38	**C**	**a 75 g oral glucose test (single step, DIPSI)** Two-hour value of 140 mg/dL or more.
39	**D**	**full dilatation of the cervix to delivery of the baby** Third stage ends with expulsion of the placenta.
40	**C**	**Primary dysmenorrhoea** Secondary dysmenorrhoea has a cause such as endometriosis.
41	**A**	**PCOD/PCOS** Rotterdam criteria.
42	**C**	**Leiomyoma (fibroid)** Smooth-muscle tumour.
43	**B**	**6–8 months** Walks alone around 12–15 months.
44	**C**	**pathological until proven otherwise** Physiological jaundice appears after 24 hours.
45	**C**	**6 months** WHO and Indian guidelines.
46	**A**	**Vitamin D** Bowing of legs, rachitic rosary.
47	**A**	**at birth** With OPV-0 and hepatitis B birth dose.
48	**D**	**Chamomilla** Chamomilla's irritability during teething.
49	**C**	**the percentage of body surface area burnt** Head 9%, each arm 9%, each leg 18%, trunk 36%, perineum 1%.
50	**B**	**Hypovolaemic shock** From blood loss.
51	**D**	**Abscess** Treated by drainage.
52	**D**	**distal radius with dorsal displacement** From a fall on the outstretched hand.
53	**B**	**Osteomyelitis** Usually affects the metaphysis in children.
54	**A**	**Rhus toxicodendron** Rhus tox: better from continued motion.

Core: Obstetrics, Paediatrics, Surgery and First Aid		
55	**D**	**Glaucoma** Leads to field loss.
56	**B**	**Acute otitis media** Middle ear infection.
57	**A**	**Arnica montana** Arnica for blunt trauma.
58	**C**	**Hypericum** Hypericum is the remedy for nerve injuries.
59	**B**	**promote healing of lacerated wounds and prevent suppuration** Calendula lotion or tincture for wounds.
60	**B**	**immobilising the limb and transporting quickly to a hospital with anti-snake venom** Cutting, sucking and tight tourniquets are no longer advised.
