Level tests: Easy, Intermediate and Hard

English (Comprehension), English Grammar, General Knowledge and Current Affairs of India and Goa, Logical Reasoning, and Core. 9 sets, each of 60 questions in 75 minutes. The answer keys and explanations for all the sets are at the end.

What this is. A practice paper in the pattern of the Homoeopathic Physician syllabus (Advt. 06/2026): Comprehension 10, Grammar 5, General Knowledge 10, Logical Reasoning 10 and Core 25. The questions in sections I, II and IV are taken from GPSC CBRT papers of 2023 to 2026, including the medical papers (Medical Officer 2024 and 2025, Pharmacology, Pharmaceutics, Pharmaceutical Chemist, Physiotherapy, Dentist, Ophthalmologist); each explanation names the paper. Section III (GK) is written for a CBRT on 1 November 2026, following the pattern of GPSC's GK papers from 2018 to September 2026: mostly current affairs of August to October 2026, with Goa, important days and some static GK. Where GPSC's printed key was wrong, the corrected answer is given. A few grammar items marked 'GPSC-style practice item' were written to fill the section. The core section is original, set to the ten core topics of the syllabus. In the real paper the core questions come first; here they come last, in syllabus order.

Section	Questions	Marks
English (Comprehension)	1 to 10	10
English Grammar	11 to 15	5
General Knowledge / Current Affairs of India and Goa	16 to 25	10
Logical Reasoning	26 to 35	10
Core: Full syllabus (Topics 1 to 10)	36 to 60	25
Total	**60**	**60**

Each question carries one mark and has five options; option E is always "None of the above", as in the real test. No marks are deducted for a wrong answer. The CBRT for the post of Homoeopathic Physician (Advt. 06 of 2026) is 60 marks in 75 minutes: these four sections plus a 25-mark core section. The qualifying marks are 30 of 60 for General, EWS and ex-servicemen, 27 for OBC, PwD and CFF, and 24 for SC and ST. Core focus by set: Set 1: Full core syllabus; Set 2: Full core syllabus; Set 3: Full core syllabus; Set 1: Full core syllabus; Set 2: Full core syllabus; Set 3: Full core syllabus; Set 1: Full core syllabus; Set 2: Full core syllabus; Set 3: Full core syllabus.

Easy Test 1

SECTION I | 10 MARKS

English (Comprehension)

Passage 1. Read the passage and answer questions 1 to 5.

Yoga, originating in ancient India, is widely regarded as a practice integrating physical postures, breathing techniques, and meditation. Beyond its physical benefits, yoga emphasizes mental discipline, self-awareness, and holistic well-being. In modern contexts, yoga has been commodified, with fitness studios, branded courses, and online tutorials making it a global phenomenon. While such commercialization increases accessibility, it risks reducing yoga to mere exercise, detached from its philosophical and spiritual roots. Scientific studies suggest that consistent practice improves flexibility, cardiovascular health, stress management, and cognitive performance. However, casual adoption without proper guidance may cause physical strain or misinterpretation of principles. Governments and institutions increasingly promote yoga for public health and cultural diplomacy. Consequently, yoga occupies a dual role: as both a therapeutic practice and a symbol of cultural heritage, requiring balance between authenticity and contemporary adaptation.

1. The passage primarily presents yoga as

A. a physical fitness routine
B. a spiritual and holistic discipline
C. a commercialized trend
D. a medical treatment
E. None of the above

2. What concern does the author raise about modern yoga practices?

A. They are too difficult for beginners
B. They focus excessively on competition
C. Commercialization may reduce it to exercise
D. Scientific evidence does not support yoga
E. None of the above

3. According to the passage, scientific studies of yoga mainly highlight

A. its cultural significance
B. physical and mental health benefits
C. spiritual enlightenment
D. economic advantages
E. None of the above

4. Why does the passage describe yoga as occupying a “dual role”?

A. It is practiced both indoors and outdoors
B. It serves both therapeutic and cultural purposes
C. It combines eastern and western philosophies
D. It requires guidance and self-study
E. None of the above

5. The overall tone of the passage can best be described as

A. analytical and balanced
B. promotional and persuasive
C. critical and dismissive
D. nostalgic and historical
E. None of the above

Passage 2. Read the passage and answer questions 6 to 10.

The global agricultural sector faces a massive challenge: it must drastically scale food production to meet a growing population while simultaneously cutting its heavy environmental footprint under the pressures of climate change. The twentieth-century Green Revolution relied on intense inputs—using massive amounts of chemical fertilizers, synthetic pesticides, and groundwater pumping—which damaged soil ecology, depleted aquifers, and accelerated biodiversity loss. Continuing with this resource-heavy paradigm is ecologically impossible. Achieving sustainable food security requires adopting smart agricultural innovations, such as precision farming using IoT sensors, developing climate-resilient crop varieties that resist drought, and scaling agroecological farming systems. However, smallholder farmers, who produce the majority of food in developing countries, are often locked out of these technologies due to high costs and lack of credit. True agricultural resilience requires building equitable technology distribution frameworks, offering localized crop insurance against weather shocks, and protecting seed sovereignty for small farmers.

6. A major negative legacy of the twentieth-century Green Revolution, according to the passage, is

A. the end of synthetic pesticide manufacturing
B. deep environmental damage, including degraded soil and depleted aquifers
C. a drop in food production that triggered famines
D. over-reliance on decentralised technology for small farmers
E. None of the above

7. Which is listed as a modern innovation for sustainable food security?

A. more groundwater pumping with chemical inputs
B. precision farming with IoT sensors and climate-resilient crop varieties
C. growing only high-input cash crops
D. phasing out agroecological farming
E. None of the above

8. Smallholder farmers in developing nations struggle to adopt modern agri-tech because of

A. a preference for chemical-heavy models
B. high technology costs and lack of credit
C. state laws banning IoT sensors
D. absence of weather shocks
E. None of the above

9. According to the text, true agricultural resilience requires

A. shifting all farming to corporate monocultures
B. ending crop insurance
C. fair technology distribution, localised insurance and seed sovereignty
D. using more chemical fertiliser
E. None of the above

10. The author's main argument is that food security must be achieved by

A. expanding Green Revolution methods
B. balancing higher production with ecological sustainability and smallholder equity
C. putting corporate profits first
D. letting climate change improve soils
E. None of the above

SECTION II | 5 MARKS

English Grammar

11. Choose the correct inverted structure:

A. No sooner had the bell rung than the students rushed out.
B. No sooner the bell had rung than the students rushed out.
C. No sooner did the bell rang than the students rushed out.
D. No sooner had the bell rung when the students rushed out.
E. None of the above

12. Find the error: “The list of approved candidates are displayed on the notice board.”

A. The list
B. approved
C. are
D. on the notice board
E. None of the above

13. Choose the correct tense: “She _____ in this hospital since 2015.”

A. was working
B. works
C. is working
D. has been working
E. None of the above

14. Choose the correct sentence:

A. Seldom did I have met so honest an officer.
B. Seldom have I met so honest an officer.
C. Seldom have met I so honest an officer.
D. Seldom I have met so honest an officer.
E. None of the above

15. Find the error: “He has been living in Panaji for 2019.”

A. has been
B. living
C. in Panaji
D. for
E. None of the above

SECTION III | 10 MARKS

General Knowledge / Current Affairs of India and Goa

16. Who is the US Secretary of State, who began a visit to India in October 2026?

A. Marco Rubio
B. Mike Pompeo
C. JD Vance
D. Antony Blinken
E. None of the above

17. IMEC, in news in 2026, is the India–Middle East–Europe:

A. Energy Cooperation pact
B. Education Council
C. Economic Corridor
D. Emergency Command
E. None of the above

18. Who heads the GST Council?

A. The Union Finance Minister
B. The RBI Governor
C. The Prime Minister
D. The Revenue Secretary
E. None of the above

19. The International Day of Peace is observed on:

A. 24 October
B. 10 December
C. 21 September
D. 2 October
E. None of the above

20. India's largest state by area is:

A. Madhya Pradesh
B. Uttar Pradesh
C. Maharashtra
D. Rajasthan
E. None of the above

21. The Sardar Sarovar Dam is built on the river:

A. Narmada
B. Tapi
C. Mahi
D. Sabarmati
E. None of the above

22. The Bhakra Nangal Dam is on the river:

A. Beas
B. Ravi
C. Sutlej
D. Chenab
E. None of the above

23. Exercise 'Yudh Abhyas' is held between India and:

A. UK
B. France
C. Russia
D. USA
E. None of the above

24. August Kranti Diwas (8 August) marks Gandhi's 'Do or Die' call for the:

A. Civil Disobedience Movement
B. Champaran Satyagraha
C. Khilafat Movement
D. Quit India Movement
E. None of the above

25. India won the Men's Junior Asia Cup and retained the Women's Junior Asia Cup in 2026. Junior Asia Cups are age-group tournaments in:

A. Football
B. Hockey
C. Kabaddi
D. Cricket
E. None of the above

SECTION IV | 10 MARKS

Logical Reasoning

26. If MARGAO is written as NBSHBP in a certain code, how is PANAJI written in that code?

A. QBOBKJ
B. QBOBJK
C. OZMZIH
D. QCOBKJ
E. None of the above

27. Find the next letter in the series: A, C, F, J, O, ?

A. S
B. T
C. U
D. V
E. None of the above

28. Find the next number in the series: 5, 11, 23, 47, 95, ?

A. 191
B. 189
C. 190
D. 193
E. None of the above

29. Find the next number in the series: 2, 5, 10, 17, 26, ?

A. 37
B. 35
C. 36
D. 38
E. None of the above

30. Find the next number in the series: 3, 6, 18, 72, 360, ?

A. 2160
B. 1800
C. 2520
D. 720
E. None of the above

31. Find the next number in the series: 100, 96, 88, 76, 60, ?

A. 36
B. 40
C. 44
D. 48
E. None of the above

32. Find the next number in the series: 2, 3, 5, 7, 11, 13, ?

A. 14
B. 15
C. 16
D. 17
E. None of the above

33. Find the next number in the series: 1, 1, 2, 3, 5, 8, 13, ?

A. 21
B. 22
C. 23
D. 24
E. None of the above

34. Find the next number in the series: 6, 11, 21, 36, 56, ?

A. 76
B. 81
C. 84
D. 86
E. None of the above

35. Find the next number in the series: 3, 5, 9, 17, 33, ?

A. 65
B. 49
C. 63
D. 66
E. None of the above

SECTION V | 25 MARKS

Core: Full syllabus (Topics 1 to 10)

36. Hahnemann's experiment of 1790, which led him to the law of similars, was made with:

A. Belladonna
B. Aconite
C. Arsenic
D. Cinchona bark
E. None of the above

37. The observation that symptoms disappear from above downward, from within outward and in the reverse order of their appearance is known as:

A. Hering's law of cure
B. the Arndt-Schulz law
C. Kent's second prescription
D. the law of simplex
E. None of the above

38. Treating a disease with the very agent or product that caused it is called:

A. Homoeopathy
B. Isopathy
C. Antipathy
D. Allopathy
E. None of the above

39. The main source of the symptoms recorded in homoeopathic Materia Medica is:

A. provings of drugs on healthy human beings
B. experiments on animals
C. observations on diseased persons only
D. the chemical analysis of drugs
E. None of the above

40. Crataegus oxyacantha mother tincture is used as an organ remedy for the:

A. liver
B. spleen
C. kidney
D. heart
E. None of the above

41. Ferrum phosphoricum is chiefly used in:

A. chronic suppuration
B. paralysis
C. tumours
D. the first stage of inflammations and fevers, before exudation
E. None of the above

42. A sycotic remedy with fixed ideas, warts, and the sensation of something alive moving in the abdomen is:

A. Sulphur
B. Thuja occidentalis
C. Calcarea carb
D. Ignatia
E. None of the above

43. Medorrhinum is prepared from:

A. tuberculous sputum
B. the itch vesicle
C. gonorrhoeal discharge
D. syphilitic chancre
E. None of the above

44. The abbreviation 'p.r.n.' on a prescription means:

A. twice daily
B. when required
C. before meals
D. immediately
E. None of the above

45. Boenninghausen's concept of the 'complete symptom' includes location, sensation, modality and:

A. Concomitant
B. Pathology
C. Miasm
D. Constitution
E. None of the above

46. In Kent's Repertory, the rubric for 'fear of death' is found in the chapter:

A. Mind
B. Generalities
C. Head
D. Sleep
E. None of the above

47. Wrist drop results from injury to the:

A. Median nerve
B. Radial nerve
C. Ulnar nerve
D. Axillary nerve
E. None of the above

48. The normal tidal volume of an adult at rest is about:

A. 150 mL
B. 1,200 mL
C. 3,000 mL
D. 500 mL
E. None of the above

49. Caseous necrosis is characteristic of:

A. Myocardial infarction
B. Acute pancreatitis
C. Gangrene of the foot
D. Tuberculosis
E. None of the above

50. Koilonychia (spoon-shaped nails) is a sign of:

A. iron-deficiency anaemia
B. hypoalbuminaemia
C. psoriasis
D. clubbing
E. None of the above

51. Under current Indian and international guidelines, hypertension in an adult is diagnosed at a clinic BP of at least:

A. 120/80 mmHg
B. 130/85 mmHg
C. 140/90 mmHg
D. 160/100 mmHg
E. None of the above

52. In a patient with Graves' disease, the thyroid profile shows (GPSC Medical Officer, 2024):

A. high TSH
B. low free T4
C. low T3
D. low TSH
E. None of the above

53. Recurrent abdominal pain related to defecation, with altered stool frequency or form and no structural disease, is:

A. Peptic ulcer disease
B. Ulcerative colitis
C. Acute cholecystitis
D. Irritable bowel syndrome
E. None of the above

54. The first visible sign of puberty in girls is (GPSC Medical Officer, 2025):

A. menarche
B. pubarche
C. growth spurt
D. thelarche (breast budding)
E. None of the above

55. Kwashiorkor differs from marasmus chiefly by the presence of (GPSC Medical Officer, 2025):

A. weight loss
B. wasting
C. age of onset
D. oedema
E. None of the above

56. The first step in managing a trauma victim is (GPSC Medical Officer, 2025):

A. blood transfusion
B. securing the airway (with cervical spine protection)
C. IV fluids
D. reconstruction
E. None of the above

57. For blunt injuries, bruises and a sore, bruised feeling after a fall, the first remedy is:

A. Hypericum
B. Calendula
C. Arnica montana
D. Ledum palustre
E. None of the above

58. The core principle of the Alma-Ata Declaration (1978) is (GPSC Medical Officer, 2025):

A. tertiary hospital expansion
B. Health for All through primary health care
C. privatisation of health
D. free medicines worldwide
E. None of the above

59. The incidence of a disease measures:

A. all existing cases at a point in time
B. deaths from the disease
C. new cases occurring in a defined period
D. cases treated in hospital
E. None of the above

60. The infant mortality rate is the number of deaths of infants under one year per:

A. 1,000 population
B. 1,000 live births in the year
C. 100,000 live births
D. 1,000 children under five
E. None of the above

Easy Test 2

SECTION I | 10 MARKS

English (Comprehension)

Passage 1. Read the passage and answer questions 1 to 5.

The vastness of the universe, with its billions of galaxies and innumerable stars, fuels ongoing speculation about the existence of extraterrestrial life. Astrobiology, the scientific discipline dedicated to studying life's potential beyond Earth, integrates astronomy, biology, and geology to explore this profound question. Despite decades of observation and advances in space exploration, definitive evidence of alien life remains elusive. However, discoveries of extremophiles on Earth — organisms thriving in conditions previously thought uninhabitable — expand the conceivable habitats where life might exist elsewhere. Furthermore, the identification of exoplanets within habitable zones around distant stars has intensified the search for biosignatures indicative of life. The Fermi Paradox, highlighting the contradiction between the high probability of extraterrestrial civilizations and the lack of contact, emphasizes the complexities of this quest. Reasons for the paradox range from the rarity of advanced life to limits on interstellar communication or travel. As technology progresses, initiatives like the Search for Extraterrestrial Intelligence (SETI) and upcoming space missions aim to unravel these cosmic mysteries, underscoring humanity's profound curiosity about our place in the cosmos.

1. What is the primary focus of astrobiology as mentioned in the passage?

A. Studying life's potential beyond Earth by combining several sciences
B. Exploring interstellar travel
C. Contacting alien civilizations directly
D. Cataloguing planets in the solar system
E. None of the above

2. How do extremophiles discovered on Earth contribute to the search for extraterrestrial life?

A. They prove aliens exist on Earth
B. They show life can exist in harsh environments
C. They confuse scientists
D. They disprove life beyond Earth
E. None of the above

3. What does the Fermi Paradox highlight?

A. The rarity of planets
B. The ease of interstellar travel
C. The abundance of alien signals detected
D. The contradiction between probable alien civilizations and the lack of contact
E. None of the above

4. Which of the following is NOT cited as a possible reason for the Fermi Paradox?

A. Human preference for solitude
B. Limits on interstellar travel
C. Limits on interstellar communication
D. Rarity of advanced life
E. None of the above

5. What future efforts are described as aiming to unravel the mysteries of alien life?

A. Reducing space funding
B. More science fiction
C. Initiatives like SETI and upcoming space missions
D. More films
E. None of the above

Passage 2. Read the passage and answer questions 6 to 10.

The traditional linear economic model—predicated on an extractive "take-make-waste" philosophy—has driven global ecosystems to the brink of a waste crisis, choked by plastic pollution and hazardous electronic waste. For decades, municipal waste management relied on a "downstream" approach, focusing on expanding landfills and building energy-intensive incinerators. These methods merely conceal or transform garbage rather than eliminating its volume, releasing toxic leachates and greenhouse gases back into the environment. Transitioning to a circular economy requires an absolute "upstream" transformation, where products are intentionally engineered from inception for durability, modular disassembly, and complete material recovery. This shift demands strict Extended Producer Responsibility (EPR) regulations that legally bind corporations to internalize the end-of-life environmental costs of their goods. Furthermore, upgrading the waste sector requires formalizing and protecting the informal recycling networks that handle waste collection in developing countries. Ultimately, a circular economy is not a simple community recycling initiative; it requires a complete decoupling of industrial economic growth from finite resource consumption.

6. The primary flaw the author identifies in the "downstream" approach to waste is that it:

A. Conceals or transforms waste rather than reducing its volume.
B. Forces economies to stop making electronic goods.
C. Depends too much on EPR regulations.
D. Relies too heavily on informal recyclers.
E. None of the above

7. A "circular economy", as described in the passage, fundamentally requires:

A. Expanding landfill capacity.
B. Engineering products from the start for durability, easy disassembly and recycling.
C. Shifting all recovery costs to consumers.
D. Moving all manufacturing to waste-to-energy incinerators.
E. None of the above

8. What does Extended Producer Responsibility (EPR) legally require corporations to do?

A. Pay the state to manage informal waste workers.
B. Maximise production to lower prices.
C. Stop all modular manufacturing.
D. Bear the end-of-life environmental costs of their products.
E. None of the above

9. The passage says waste reform in developing countries must include:

A. Banning landfills before alternatives exist.
B. Eliminating informal recycling networks.
C. Formalizing and protecting informal waste workers.
D. Returning to the take-make-waste model.
E. None of the above

10. The ultimate goal of a circular economy, according to the final sentence, is to:

A. Ensure economic growth no longer depends on consuming finite resources.
B. Turn recycling into state monopolies.
C. Make corporations immune to regulation.
D. Lower the cost of incinerators.
E. None of the above

SECTION II | 5 MARKS

English Grammar

11. Choose the correct passive construction: “They say that he is honest.”

A. It is said him to be honest.
B. He was said to be honest.
C. He is said being honest.
D. He is said to be honest.
E. None of the above

12. Choose the correct passive construction: “Someone has stolen my bag.”

A. My bag has been stolen.
B. My bag was being stolen.
C. My bag has stolen.
D. My bag has been stole.
E. None of the above

13. Select the correct indirect speech: He said, “I am tired.”

A. He said that he was tired.
B. He said that I was tired.
C. He said that he is tired.
D. He said that he had been tired yesterday.
E. None of the above

14. Select the correct indirect speech: She asked me, “Where do you live?”

A. She asked me where I lived.
B. She asked me where did I live.
C. She asked me where do I live.
D. She asked me that where I lived.
E. None of the above

15. Identify the error: “One of my friend has joined the health department.”

A. One of
B. friend
C. has joined
D. the health department
E. None of the above

SECTION III | 10 MARKS

General Knowledge / Current Affairs of India and Goa

16. Dudhsagar waterfalls are on which river?

A. Sal
B. Zuari
C. Talpona
D. Mandovi
E. None of the above

17. Silent Valley National Park is in:

A. Kerala
B. Tamil Nadu
C. Goa
D. Karnataka
E. None of the above

18. Kaziranga National Park, famous for the one-horned rhinoceros, is in:

A. West Bengal
B. Assam
C. Arunachal Pradesh
D. Meghalaya
E. None of the above

19. The Battle of Plassey was fought in:

A. 1757
B. 1857
C. 1764
D. 1761
E. None of the above

20. The Pradhan Mantri Matsya Sampada Yojana, which completed six years in September 2026, is for the:

A. dairy sector
B. handloom sector
C. fisheries sector
D. food processing sector
E. None of the above

21. Glasgow, host of the 2026 Commonwealth Games, is in:

A. Wales
B. Ireland
C. Scotland
D. England
E. None of the above

22. World Teachers' Day is observed on:

A. 14 November
B. 5 September
C. 1 October
D. 5 October
E. None of the above

23. Indian Air Force Day is observed on:

A. 26 July
B. 8 October
C. 15 January
D. 4 December
E. None of the above

24. The SI unit of electrical resistance is the:

A. volt
B. watt
C. ohm
D. ampere
E. None of the above

25. The International Day of the Girl Child is observed on:

A. 19 November
B. 24 January
C. 8 March
D. 11 October
E. None of the above

SECTION IV | 10 MARKS

Logical Reasoning

26. D and E are a married couple, and D is the husband. A and B are their children. A is B's brother, and B is the mother of C. How is C related to E?

A. Grandson
B. Granddaughter
C. Niece
D. Grandchild
E. None of the above

27. Mamlatdar is to Taluka as Collector is to:

A. District
B. Village
C. State
D. Division
E. None of the above

28. If ROAD is written as URDG in a certain code, how is FORT written?

A. IRVW
B. IRUW
C. HRUW
D. IQUW
E. None of the above

29. If TABLE is written as UBCMF in a certain code, how is CHAIR written?

A. DIBJR
B. DIBJS
C. BGZHQ
D. DJBJS
E. None of the above

30. If A = 2, B = 4, C = 6 and so on, what is the value of G + O + A?

A. 23
B. 44
C. 46
D. 48
E. None of the above

31. Which letter is eighth to the right of the fifteenth letter from the left in the English alphabet?

A. W
B. V
C. X
D. U
E. None of the above

32. Find the next term in the series: AZ, BY, CX, DW, ?

A. EU
B. FV
C. EV
D. EW
E. None of the above

33. Konkani is to Goa as Malayalam is to:

A. Karnataka
B. Tamil Nadu
C. Andhra Pradesh
D. Kerala
E. None of the above

34. ACE is to BDF as GIK is to:

A. HIL
B. IJL
C. HJM
D. HJL
E. None of the above

35. If OFFICE is written as PGGJDF in a certain code, how is TALUKA written?

A. UBMVKB
B. SZKTJZ
C. UBMVLB
D. UBNVLB
E. None of the above

SECTION V | 25 MARKS

Core: Full syllabus (Topics 1 to 10)

36. Which miasm has the itch eruption as its primary manifestation?

A. Sycosis
B. Syphilis
C. Psora
D. Tubercular
E. None of the above

37. The palliative method that treats with an opposite (contraria contrariis) is called:

A. Isopathy
B. Homoeopathy
C. Organopathy
D. Antipathy (enantiopathy)
E. None of the above

38. Warts and fig-warts, catarrhal discharges and a tendency to overgrowths are clinical features of which miasm?

A. Psora
B. Syphilis
C. None of the miasms
D. Sycosis
E. None of the above

39. Which remedy is regarded as the chronic of Pulsatilla?

A. Natrum muriaticum
B. Silicea
C. Arsenicum album
D. Calcarea phosphorica
E. None of the above

40. Profuse, watery, painless diarrhoea with marked prostration, cold sweat on the forehead and collapse calls for:

A. Aloe
B. Veratrum album
C. Podophyllum
D. China
E. None of the above

41. Ill effects of grief with sighing, a lump in the throat, contradictory symptoms and aversion to consolation suggest:

A. Ignatia amara
B. Pulsatilla
C. Phosphorus
D. Lachesis
E. None of the above

42. Complaints from exposure to damp cold, especially when hot days are followed by cold nights, call for:

A. Bryonia
B. Aconite
C. Dulcamara
D. Belladonna
E. None of the above

43. The abbreviation 'a.c.' on a prescription means:

A. after meals
B. at bedtime
C. before meals
D. as required
E. None of the above

44. The vehicle used to prepare mother tinctures from fresh plants is:

A. Distilled water
B. Glycerine
C. Lactose
D. Purified alcohol (strong alcohol or dispensing alcohol)
E. None of the above

45. In Kent's Repertory, remedies of the highest grade are printed in:

A. Bold capitals
B. Plain roman type
C. Italics
D. Underlined small type
E. None of the above

46. The process of choosing the most similar remedy using a repertory is called:

A. Proving
B. Repertorisation
C. Potentisation
D. Case recording
E. None of the above

47. Foot drop follows injury to the:

A. Femoral nerve
B. Tibial nerve
C. Obturator nerve
D. Common peroneal (fibular) nerve
E. None of the above

48. The hormone that regulates blood calcium and is secreted by the parathyroid glands is:

A. Calcitonin
B. Thyroxine
C. Aldosterone
D. Parathormone
E. None of the above

49. The first cells to arrive at a site of acute inflammation are usually:

A. Lymphocytes
B. Plasma cells
C. Neutrophils
D. Eosinophils
E. None of the above

50. Negri bodies are seen in:

A. measles
B. herpes
C. CMV infection
D. rabies
E. None of the above

51. Central chest pain on exertion, relieved by rest within a few minutes, is typical of:

A. Myocardial infarction
B. Pericarditis
C. Stable angina pectoris
D. Pulmonary embolism
E. None of the above

52. Urticaria with burning, stinging wheals, worse from heat and better from cold applications, calls for:

A. Apis mellifica
B. Rhus toxicodendron
C. Dulcamara
D. Sulphur
E. None of the above

53. The usual HbA1c target for most adults with diabetes is below:

A. 10%
B. 7%
C. 5%
D. 12%
E. None of the above

54. Oligomenorrhoea, hirsutism, acne and multiple small ovarian follicles on ultrasound suggest:

A. Endometriosis
B. Fibroid uterus
C. Polycystic ovarian disease (PCOD)
D. Pelvic inflammatory disease
E. None of the above

55. The commonest benign tumour of the uterus, a frequent cause of heavy menstrual bleeding, is the:

A. Leiomyoma (fibroid)
B. Endometrial carcinoma
C. Choriocarcinoma
D. Dermoid cyst
E. None of the above

56. Punctured wounds that feel cold to touch yet are better from cold applications call for:

A. Arnica montana
B. Ledum palustre
C. Calendula
D. Symphytum
E. None of the above

57. Fractures that are slow to unite, with pricking pain at the site, are helped by:

A. Symphytum officinale
B. Ruta graveolens
C. Calendula
D. Rhus toxicodendron
E. None of the above

58. In medical ethics, 'informed consent' requires that the patient:

A. signs any form
B. is told only the benefits
C. understands the nature, risks and alternatives of the procedure and agrees voluntarily
D. is accompanied by a relative
E. None of the above

59. A registered medical practitioner who fails to exercise reasonable skill and care, causing harm, may be liable for:

A. Medical negligence
B. Professional misconduct only
C. Defamation
D. Breach of trust only
E. None of the above

60. The measure of central tendency most affected by extreme values is the:

A. Mean
B. Median
C. Mode
D. Range
E. None of the above

Easy Test 3

SECTION I | 10 MARKS

English (Comprehension)

Passage 1. Read the passage and answer questions 1 to 5.

The unprecedented surge of retail investors entering India’s capital markets, fueled by discount brokerages and mobile investment applications, has democratized a financial terrain once dominated by institutional elites. This digital wave has funneled domestic savings away from traditional low-yield assets like gold and fixed deposits directly into equity markets, providing vital capital to Indian enterprises. However, this rapid financialization introduces severe systemic risks, primarily driven by the behavioral vulnerabilities of inexperienced investors. Many new entrants treat equity markets as speculative spaces, engaging in high-risk options trading and leveraged intraday bets driven by unverified social media influencers. This trend is worsened by a complete lack of financial literacy regarding market cycles, valuation metrics, and risk management practices. A sharp market correction could lead to severe capital losses for millions of middle-class households, damaging long-term faith in the financial system. Securing this retail investment wave requires strong regulations on financial influencers, mandatory risk disclosure tools on trading apps, and deep systemic efforts to turn speculative traders into long-term, informed investors.

1. The entry of retail investors into India's capital markets was mainly accelerated by:

A. Discount brokerages and mobile investment apps.
B. Institutions giving up control of equity.
C. Laws banning individual ownership of gold.
D. Higher interest on fixed deposits.
E. None of the above

2. A positive economic outcome of this surge, according to the text, is:

A. Markets protected against any correction.
B. Domestic savings flowing into equity and providing capital to enterprises.
C. Lower taxes on options traders.
D. Corporate governance passing to influencers.
E. None of the above

3. The author is concerned that many inexperienced investors view the stock market as:

A. A conservative arena for preserving wealth.
B. An obsolete mechanism.
C. A state-guaranteed system without risk.
D. A speculative playground driven by social-media advice.
E. None of the above

4. The word "democratized" in the first sentence means that the market has been:

A. placed under elected control
B. made more volatile
C. made open and accessible to ordinary people
D. nationalised
E. None of the above

5. According to the final sentence, protecting new retail investors requires:

A. Regulating financial influencers and adding risk-disclosure tools to apps.
B. Compensating all traders' losses.
C. Replacing equities with low-yield assets.
D. Banning individual retail accounts.
E. None of the above

Passage 2. Read the passage and answer questions 6 to 10.

Depending on what and how you communicate with others or conduct yourself, you will either draw people close to you or drive them away from you. The largest content of non-verbal communication is contributed by what is popularly called body language. Depending on what this speaks you would get a red-carpet welcome or rejection. Hence, it is important to know where you stand. It is equally important to know the requirements of different situations, time and place to ensure you are able to take care of your own acceptance. In a tradition-ruled country like India, body conduct has an important relevance in valuing relationships and individuals. If your general disposition is good you will readily emit sparks that make you the centre of happenings. Expression of the eye, good eye contact makes your interlocutor feel you are keen to live life. Sensitive people keep changing their expression and literally swing up or down.

6. According to the passage, a warm social welcome depends mainly on one's

A. body language
B. status
C. dress
D. spoken vocabulary
E. None of the above

7. What is particularly significant in a country like India for being socially accepted, as the passage implies?

A. wealth
B. speaking many languages
C. proper body conduct
D. tradition
E. None of the above

8. Which phrase in the passage means "warm and willing acceptance"?

A. red-carpet welcome
B. draw people
C. emit sparks
D. body conduct
E. None of the above

9. The word "interlocutor" in the passage means

A. a translator
B. a minstrel
C. a teacher
D. a conversational partner
E. None of the above

10. Consider: (i) It is important to know how good or bad one's body language is. (ii) Responding to the time, place and situation helps decide one's acceptance. According to the passage:

A. Both are false
B. (i) is false, (ii) is true
C. (i) is true, (ii) is false
D. Both are true
E. None of the above

SECTION II | 5 MARKS

English Grammar

11. Choose the correct modal: “You _____ wear a helmet; it is the law.”

A. must
B. might
C. may
D. need not
E. None of the above

12. Choose the correct tense: “If it rains tomorrow, we _____ the camp.”

A. would postpone
B. postponed
C. had postponed
D. will postpone
E. None of the above

13. Choose the correct preposition: “She is fond _____ classical music.”

A. to
B. of
C. for
D. with
E. None of the above

14. Find the error: “Neither of the two answers are correct.”

A. Neither
B. of the two
C. are
D. correct
E. None of the above

15. Choose the correct passive construction: “The committee will announce the results tomorrow.”

A. The results will be announce by the committee tomorrow.
B. The results will announced by the committee tomorrow.
C. The results would be announced by the committee tomorrow.
D. The results will be announced by the committee tomorrow.
E. None of the above

SECTION III | 10 MARKS

General Knowledge / Current Affairs of India and Goa

16. The Indian National Congress was founded in 1885 by:

A. A. O. Hume
B. W. C. Bonnerjee
C. Surendranath Banerjee
D. Dadabhai Naoroji
E. None of the above

17. Engineers' Day (15 September) is observed on the birth anniversary of:

A. A. P. J. Abdul Kalam
B. M. Visvesvaraya
C. Homi Bhabha
D. Satish Dhawan
E. None of the above

18. Gandhi's Dandi March began on 12 March 1930 from:

A. Wardha
B. Porbandar
C. Sabarmati Ashram
D. Champaran
E. None of the above

19. The chemical symbol for sodium is:

A. S
B. Sd
C. So
D. Na
E. None of the above

20. The Living Planet Report 2026 is released by:

A. IUCN
B. WWF
C. UNEP
D. Greenpeace
E. None of the above

21. Who chaired the Drafting Committee of the Constituent Assembly?

A. Jawaharlal Nehru
B. B. R. Ambedkar
C. Rajendra Prasad
D. B. N. Rau
E. None of the above

22. PM Surya Ghar: Muft Bijli Yojana crossed 1 crore registrations in 2026. It promotes:

A. rooftop solar for households
B. free electricity to industries
C. LED street lights
D. solar pumps for farmers
E. None of the above

23. Rashtriya Ekta Diwas (National Unity Day), observed on 31 October, marks the birth anniversary of:

A. Indira Gandhi
B. Sardar Vallabhbhai Patel
C. Subhas Chandra Bose
D. Lal Bahadur Shastri

24. Which planet is known as the 'Red Planet'?

A. Mars
B. Mercury
C. Venus
D. Jupiter
E. None of the above

25. How many Lok Sabha seats does Goa have?

A. 1
B. 4
C. 3
D. 2
E. None of the above

SECTION IV | 10 MARKS

Logical Reasoning

26. Ramesh walks 9 km towards the north, turns right and walks 12 km. How far is he from his starting point in a straight line?

A. 21 km
B. 15 km
C. 13 km
D. 3 km
E. None of the above

27. Pointing to a woman, Rohan said, "She is the only daughter of my mother's father." How is the woman related to Rohan?

A. Aunt
B. Sister
C. Grandmother
D. Mother
E. None of the above

28. Odometer is to distance as barometer is to:

A. Pressure
B. Temperature
C. Humidity
D. Altitude
E. None of the above

29. Find the odd one out.

A. Rice
B. Wheat
C. Maize
D. Cotton
E. None of the above

30. Book is to library as painting is to:

A. Canvas
B. Gallery
C. Artist
D. Brush
E. None of the above

31. Introducing a man, a woman said, 'His wife is the only daughter of my father.' How is the man related to the woman?

A. Brother
B. Husband
C. Father
D. Brother-in-law
E. None of the above

32. Town P is 12 km due north of town Q. Town R is 5 km due west of P. What is the shortest distance between Q and R?

A. 7 km
B. 13 km
C. 15 km
D. 17 km
E. None of the above

33. Sarpanch is to Panchayat as Mayor is to:

A. Zilla Panchayat
B. Legislative Assembly
C. Gram Sabha
D. Municipal Corporation
E. None of the above

34. Find the next number in the series: 2, 6, 12, 20, 30, 42, ?

A. 56
B. 52
C. 54
D. 58
E. None of the above

35. Find the next number in the series: 8, 27, 64, 125, ?

A. 216
B. 196
C. 225
D. 343
E. None of the above

SECTION V | 25 MARKS

Core: Full syllabus (Topics 1 to 10)

36. The fundamental cause of most chronic diseases, according to Hahnemann, is:

A. bad diet only
B. a chronic miasm
C. trauma
D. climate
E. None of the above

37. Destructive ulceration, bone pains worse at night and a tendency to deformity are features of which miasm?

A. Psora
B. Sycosis
C. Pseudo-psora
D. Syphilis
E. None of the above

38. The word 'dynamis' in homoeopathic philosophy refers to:

A. the vital force
B. a potency
C. a drug
D. a miasm
E. None of the above

39. Aggravation from the slightest motion, with relief from pressure and from lying on the painful side, is characteristic of:

A. Bryonia alba
B. Rhus toxicodendron
C. Arnica montana
D. Ruta graveolens
E. None of the above

40. Prolapse of the uterus with bearing-down sensation as if everything would come out, crossing the legs for relief, with indifference to family, indicates:

A. Sepia
B. Pulsatilla
C. Lilium tigrinum
D. Platina
E. None of the above

41. Complaints from loss of vital fluids (haemorrhage, diarrhoea, lactation), with periodicity and great sensitivity to touch, call for:

A. Carbo veg
B. Phosphorus
C. China officinalis
D. Ferrum met
E. None of the above

42. Thirst for large quantities of cold water at long intervals, stitching pains worse from the slightest motion, and irritability with a wish to be left alone suggest:

A. Bryonia alba
B. Arsenicum album
C. Phosphorus
D. Aconite
E. None of the above

43. Globules used in homoeopathy are made of:

A. Lactose
B. Starch
C. Glucose
D. Cane sugar (sucrose)
E. None of the above

44. In the decimal scale, the first potency (1X) has a drug-to-vehicle ratio of:

A. 1:9 (one part in ten)
B. 1:99
C. 1:50,000
D. 1:1
E. None of the above

45. The first and last chapters of Kent's Repertory are:

A. Head and Skin
B. Vertigo and Fever
C. Mind and Generalities
D. Mind and Skin
E. None of the above

46. A rubric in a repertory is:

A. a remedy
B. a case record
C. a heading under which remedies producing that symptom are listed
D. a potency
E. None of the above

47. Claw hand is classically due to a lesion of the:

A. Radial nerve
B. Ulnar nerve
C. Musculocutaneous nerve
D. Axillary nerve
E. None of the above

48. The cardiac output equals:

A. blood pressure × heart rate
B. stroke volume ÷ heart rate
C. end-diastolic volume − stroke volume
D. stroke volume × heart rate
E. None of the above

49. The cardinal signs of inflammation described by Celsus are rubor, tumor, calor and:

A. Functio laesa
B. Pus
C. Dolor
D. Fever
E. None of the above

50. Kala-azar is transmitted by the:

A. Anopheles mosquito
B. tsetse fly
C. tick
D. sandfly (Phlebotomus)
E. None of the above

51. The most specific cardiac biomarker for myocardial infarction is:

A. LDH
B. SGOT
C. Troponin
D. CK total
E. None of the above

52. The commonest cause of community-acquired pneumonia is:

A. Pseudomonas
B. Streptococcus pneumoniae
C. Klebsiella
D. Staphylococcus aureus
E. None of the above

53. Fever, pain in the right hypochondrium and arrest of inspiration on palpation under the right costal margin (Murphy's sign) suggest:

A. Acute hepatitis
B. Peptic ulcer
C. Right basal pneumonia
D. Acute cholecystitis
E. None of the above

54. The commonest cause of infantile diarrhoea worldwide is (GPSC Medical Officer, 2024):

A. Norwalk virus
B. Vibrio cholerae
C. lactose intolerance
D. rotavirus
E. None of the above

55. The first stage of labour ends with:

A. full dilatation of the cervix
B. onset of contractions
C. delivery of the baby
D. delivery of the placenta
E. None of the above

56. After a clean surgical incision, with smarting pain and a sense of insult, the remedy usually indicated is:

A. Arnica
B. Hypericum
C. Bellis perennis
D. Staphysagria
E. None of the above

57. A partial-thickness burn with blisters is classed as:

A. First degree
B. Third degree
C. Second degree
D. Fourth degree
E. None of the above

58. Post-mortem staining (livor mortis, hypostasis) is due to:

A. clotting of blood
B. putrefaction
C. rigor mortis
D. gravitational pooling of blood in dependent parts
E. None of the above

59. Genus epidemicus is used in outbreak control to:

A. find a common remedy for most cases in an epidemic
B. name the epidemic organism
C. select a vaccine
D. measure incidence
E. None of the above

60. Biomedical waste in India is segregated by colour-coded bags. Human anatomical waste goes into the:

A. red bag
B. white container
C. blue container
D. yellow bag
E. None of the above

Intermediate Test 1

SECTION I | 10 MARKS

English (Comprehension)

Passage 1. Read the passage and answer questions 1 to 5.

The New Education Policy (NEP) introduced in India seeks to reform the traditional education structure by emphasizing flexibility, multidisciplinary learning, and skill development. Unlike earlier systems that largely prioritized rote memorization and examination performance, the NEP advocates conceptual understanding, creativity, and critical thinking. The policy also proposes integrating vocational education and digital technology into mainstream learning. Supporters argue that such reforms can better prepare students for the demands of a rapidly changing global economy. However, critics contend that implementation remains a major challenge, especially in rural and economically disadvantaged regions where infrastructure, trained faculty, and digital access are limited. Concerns have also been expressed regarding linguistic diversity and the practical feasibility of certain policy recommendations. Despite these debates, many educational experts consider the NEP one of the most ambitious reforms attempted in recent decades. Its long-term success will ultimately depend on effective administration, teacher preparedness, and equitable access to educational resources.

1. What is the principal objective of the NEP according to the passage?

A. Increasing dependence on examinations
B. Promoting rote memorization techniques
C. Encouraging flexible and skill-oriented education
D. Eliminating vocational education from schools
E. None of the above

2. Which of the following is presented as a challenge to NEP implementation?

A. Excessive industrialization
B. Lack of rural infrastructure and digital access
C. Declining student population
D. Reduction in vocational opportunities
E. None of the above

3. The author's discussion of "rote memorization" suggests that the NEP

A. fully supports traditional learning systems
B. seeks to reduce dependence on memorization-based learning
C. eliminates examinations entirely
D. discourages critical thinking
E. None of the above

4. Which inference is most reasonable based on the passage?

A. The NEP guarantees equal outcomes in all regions
B. Teacher training will play a crucial role in NEP success
C. Vocational education is irrelevant today
D. Digital education should replace classrooms entirely
E. None of the above

5. The author’s attitude toward the NEP is best described as

A. completely pessimistic
B. enthusiastic without criticism
C. balanced with cautious optimism
D. indifferent and detached
E. None of the above

Passage 2. Read the passage and answer questions 6 to 10.

Financial behavior among youngsters has undergone considerable transformation in the digital era. Easy access to online banking, digital wallets, instant credit systems, and e-commerce platforms has made financial transactions more convenient than ever before. However, financial experts argue that such convenience has also encouraged impulsive spending and weakened the traditional culture of savings among young people. Many adolescents and young professionals increasingly associate financial success with visible consumption rather than disciplined wealth management. Social media platforms further intensify this trend by promoting luxury lifestyles and instant gratification. Economists warn that inadequate financial literacy at an early age can lead to long-term debt dependency and poor investment decisions. Consequently, educational institutions and financial organizations have begun introducing programs on budgeting, saving, taxation, and responsible borrowing. Advocates of financial education believe that cultivating saving habits during youth not only improves individual economic security but also contributes to broader economic stability within society.

6. What is the primary concern expressed in the passage?

A. Decline in online banking systems
B. Increasing influence of technology on agriculture
C. Weakening savings habits among youngsters
D. Excessive government regulation of financial institutions
E. None of the above

7. According to the passage, social media contributes to

A. responsible financial planning
B. promotion of consumption-oriented lifestyles
C. decline in digital transactions
D. reduction of financial inequality
E. None of the above

8. Which assumption is most strongly implied in the passage?

A. Financial literacy can positively influence long-term economic behaviour
B. Youngsters should avoid digital payments completely
C. Traditional banking is superior to modern systems
D. Economic growth depends entirely on government
E. None of the above

9. Which conclusion is best supported by the passage?

A. Technology alone causes youth unemployment
B. Financial education has become increasingly important in modern society
C. Savings habits are irrelevant in digital economies
D. Social media should be legally banned
E. None of the above

10. The phrase “instant gratification” most nearly refers to

A. delayed financial rewards
B. immediate satisfaction of desires
C. government financial assistance
D. long-term investment planning
E. None of the above

Logical Reasoning

26. Find the next number in the series: 7, 10, 16, 28, 52, ?

A. 76
B. 96
C. 100
D. 104
E. None of the above

27. Each letter is given its position in the alphabet (A = 1, B = 2, and so on) and a word's value is the sum of its letters, so GOA = 7 + 15 + 1 = 23. What is the value of PANAJI?

A. 49
B. 51
C. 53
D. 55
E. None of the above

28. A man walks 4 km south, turns left and walks 3 km, then turns left again and walks 8 km. How far and in which direction is he from his starting point?

A. 5 km north-west
B. 7 km north-east
C. 5 km north-east
D. 4 km north
E. None of the above

29. One morning just after sunrise, Vikram stood facing a pole. The shadow of the pole fell exactly to his right. Which direction was he facing?

A. North
B. East
C. West
D. South
E. None of the above

30. The average age of 30 students is 15 years. Including the teacher, the average rises by 1. What is the teacher's age?

A. 45
B. 46
C. 47
D. 48
E. None of the above

31. In a certain code PEN is written as QGQ. How is INK written in that code?

A. JOL
B. JPM
C. JPN
D. KPN
E. None of the above

32. In a certain code each letter is replaced by the letter in the same position counted from the other end of the alphabet, so GOA becomes TLZ. How is INDIA written?

A. RNWRZ
B. RMWRZ
C. RMVRZ
D. QMWRZ
E. None of the above

33. If '+' means multiply, 'x' means subtract, '-' means divide and '/' means add, what is the value of 8 + 6 x 12 - 4 / 5?

A. 46
B. 50
C. 52
D. 56
E. None of the above

34. In a certain language 'sun rises east' is written 'pa ko ti', 'east or west' is written 'ti la mu' and 'sun sets west' is written 'pa ru la'. Which word means 'rises'?

A. pa
B. ko
C. ti
D. ru
E. None of the above

35. Find the next letter in the series: Z, X, U, Q, L, ?

A. E
B. F
C. G
D. H
E. None of the above

SECTION V | 25 MARKS

38. According to §16, the vital force can be affected only by:

A. mechanical influences
B. chemical influences
C. material causes
D. dynamic, spirit-like influences
E. None of the above

39. Who compiled 'The Guiding Symptoms of our Materia Medica'?

A. J. T. Kent
B. Constantine Hering
C. William Boericke
D. H. C. Allen
E. None of the above

40. A patient who feels his body is enormously enlarged and time passes too slowly, with exaltation and uncontrollable laughter, needs:

A. Cannabis indica
B. Hyoscyamus
C. Stramonium
D. Belladonna
E. None of the above

41. Constant hunger with a 'better while eating' state, emaciation despite eating well, and enlarged hard glands suggest:

A. Iodium
B. Calcarea carb
C. Natrum mur
D. Lycopodium
E. None of the above

42. Sour-smelling diarrhoea with green, frothy stools like the scum of a frog pond, in milk-intolerant infants, suggests:

A. Chamomilla
B. Magnesia carbonica
C. Podophyllum
D. Aethusa
E. None of the above

43. The remedy Lachesis is prepared from:

A. the ink of the cuttlefish
B. the venom of the bushmaster snake
C. a spider
D. a plant alkaloid
E. None of the above

44. Remedies such as X-ray, Magnetis polus and Sol are drawn from which source?

A. Nosodes
B. Imponderabilia
C. Sarcodes
D. Mineral kingdom
E. None of the above

45. Boenninghausen's Therapeutic Pocket Book (1846) is divided into how many sections?

A. 5
B. 7
C. 9
D. 37
E. None of the above

46. In Kent's Repertory, a desire for salt is found in the chapter:

A. Mind
B. Stomach
C. Generalities
D. Mouth
E. None of the above

47. The knee joint is an example of a:

A. Modified hinge (synovial) joint
B. Ball-and-socket joint
C. Pivot joint
D. Fibrous joint
E. None of the above

48. Erb's palsy, with the arm in the 'waiter's tip' position, results from injury to:

A. the lower trunk (C8–T1)
B. the upper trunk of the brachial plexus (C5–C6)
C. the radial nerve
D. the median nerve
E. None of the above

49. The hallmark of irreversible cell injury is:

A. Cell swelling
B. Fatty change
C. Loss of microvilli
D. Nuclear changes such as karyolysis and pyknosis
E. None of the above

50. Reed–Sternberg cells are characteristic of:

A. Burkitt lymphoma
B. multiple myeloma
C. Hodgkin lymphoma
D. chronic lymphatic leukaemia
E. None of the above

51. A generalised tonic-clonic seizure lasting more than 5 minutes is treated as:

A. Status epilepticus
B. Simple syncope
C. Absence seizure
D. Febrile convulsion
E. None of the above

52. The most common pattern in irritable bowel syndrome is (GPSC Medical Officer, 2024):

A. diarrhoea only
B. constipation only
C. constipation alternating with diarrhoea
D. prolonged constipation followed by diarrhoea
E. None of the above

53. The Koebner phenomenon (lesions appearing at sites of injury) is typical of:

A. urticaria
B. scabies
C. psoriasis
D. tinea
E. None of the above

54. The 'bagel sign' on ultrasound is seen in (GPSC Medical Officer, 2024):

A. molar pregnancy
B. incomplete abortion
C. ectopic pregnancy
D. twin pregnancy
E. None of the above

55. Lower abdominal pain, fever, purulent vaginal discharge and cervical motion tenderness suggest:

A. Pelvic inflammatory disease
B. Primary dysmenorrhoea
C. Ovarian cyst
D. Normal menstruation
E. None of the above

56. Troisier's sign (enlarged left supraclavicular node) is seen in (GPSC Medical Officer, 2024):

A. carcinoma breast
B. carcinoma lung
C. carcinoma stomach
D. head and neck cancer
E. None of the above

57. The commonest cause of hearing loss in children is:

A. noise exposure
B. otitis media with effusion
C. otosclerosis
D. acoustic neuroma
E. None of the above

58. According to the demographic cycle, India is in (GPSC Medical Officer, 2025):

A. stage 1
B. stage 2
C. stage 5
D. stage 3 (late expanding)
E. None of the above

59. The Human Development Index does NOT include (GPSC Medical Officer, 2025):

A. life expectancy at birth
B. mean years of schooling
C. infant mortality rate
D. income
E. None of the above

60. The main objective of Tele-MANAS is (GPSC Medical Officer, 2025):

A. teleconsultation for skin diseases
B. 24/7 free tele-mental-health services across India
C. AI radiology reporting
D. online CME for doctors
E. None of the above

Intermediate Test 2

SECTION I | 10 MARKS

English (Comprehension)

Passage 1. Read the passage and answer questions 1 to 5.

In the age of algorithmic feeds and 15-second video loops, the cognitive landscape of childhood is undergoing a seismic shift. Deep reading—the immersive, sustained engagement with long-form text—is increasingly being replaced by “skimming” and “scanning.” This is not merely a change in format but a rewiring of neural circuitry. Deep reading fosters empathy, critical thinking, and the ability to hold complex, contradictory ideas simultaneously. Conversely, the fragmented consumption of digital media promotes a craving for immediate dopamine hits, eroding the patience required for narrative absorption. As children lose the capacity for “cognitive patience,” we risk raising a generation that is information-rich but context-poor, capable of processing data points but struggling to weave them into meaningful tapestries of understanding.

1. The term “cognitive patience” implies

A. waiting for a website to load
B. the mental endurance needed to engage with long, complex texts
C. teachers' patience with students
D. memorising facts quickly
E. None of the above

2. According to the passage, deep reading is essential because

A. it raises exam grades
B. it fosters empathy and critical thinking
C. it is the only way to learn history
D. it is better for eyesight
E. None of the above

3. The author contrasts “deep reading” with

A. TV documentaries
B. audiobooks
C. skimming and scanning digital media
D. writing essays
E. None of the above

4. The outcome the author warns of is a generation that is

A. technically illiterate but emotionally intelligent
B. context-rich but information-poor
C. information-rich but context-poor
D. empathetic but slow
E. None of the above

5. The “seismic shift” refers to

A. more earthquakes
B. a fundamental change in how children process information and think
C. the move from books to e-readers
D. a change in school curriculum
E. None of the above

Passage 2. Read the passage and answer questions 6 to 10.

Education in early childhood profoundly shapes cognitive, social, and emotional development. Modern pedagogical approaches emphasize inquiry-based learning, critical thinking, and creativity rather than rote memorization. Exposure to diverse experiences, problem-solving tasks, and collaborative activities enhances adaptability and lifelong learning skills. However, disparities in access, quality of teaching, and socio-economic factors continue to hinder equitable development. Technology integration, including digital learning tools, offers opportunities for personalized education but can also exacerbate distraction and dependency if mismanaged. Parental involvement, teacher training, and culturally relevant curricula significantly influence outcomes. Research indicates that early interventions in literacy, numeracy, and socio-emotional skills have long-term benefits, impacting academic performance and personal growth. Consequently, a holistic approach combining pedagogy, infrastructure, technology, and social support is essential to nurture well-rounded learners.

6. The passage primarily emphasizes that early childhood education should

A. focus solely on memorization
B. cultivate cognitive, social, and emotional development
C. prioritize competitive testing
D. depend entirely on technology
E. None of the above

7. Which factor is NOT explicitly mentioned as influencing educational outcomes?

A. Parental involvement
B. Teacher training
C. Cultural relevance of curricula
D. Government tax policy
E. None of the above

8. What is a potential drawback of technology in early education according to the passage?

A. High costs of devices
B. Increased distraction and dependency
C. Reduction in teacher salaries
D. Elimination of traditional schools
E. None of the above

9. Research indicates that early interventions in literacy, numeracy and socio-emotional skills lead to

A. immediate financial gains
B. long-term academic and personal benefits
C. reduced need for teachers
D. elimination of cultural influence
E. None of the above

10. The author’s overall tone can best be described as

A. analytical and prescriptive
B. critical and dismissive
C. nostalgic and sentimental
D. indifferent to educational challenges
E. None of the above

SECTION II | 5 MARKS

English Grammar

11. Choose the correct tense: “By the time the ambulance arrived, the patient _____ consciousness.”

A. lost
B. has lost
C. had lost
D. was losing
E. None of the above

12. Choose the correct passive construction: “Who wrote this letter?”

A. By whom was this letter written?
B. By whom was written this letter?
C. By whom this letter was written?
D. Who was this letter written?
E. None of the above

13. Choose the correct passive construction: “Open the window.”

A. Let the window is opened.
B. The window be opened.
C. The window should opened.
D. Let the window be opened.
E. None of the above

14. Identify the incorrect sentence:

A. The news are very encouraging.
B. Physics is my favourite subject.
C. The cattle are grazing in the field.
D. The jury has given its verdict.
E. None of the above

15. Spot the error: “The patient, along with his relatives, were waiting outside.”

A. The patient
B. along with
C. were
D. outside
E. None of the above

SECTION III | 10 MARKS

General Knowledge / Current Affairs of India and Goa

16. The power to grant pardons is given to the President under Article 72 and to the Governor under Article:

A. 161
B. 213
C. 163
D. 153
E. None of the above

17. Which city will host the Asian Games in 2030?

A. New Delhi
B. Bangkok
C. Riyadh
D. Doha
E. None of the above

18. Which boxer was among India's three gold medallists in boxing at the 2026 Asian Games?

A. Lovlina Borgohain
B. Mary Kom
C. Vijender Singh
D. Shiva Thapa
E. None of the above

19. World Sight Day is observed on:

A. 14 November
B. the second Thursday of October
C. 10 October
D. the first Monday of October
E. None of the above

20. Goa's highest peak is:

A. Morlemchogor
B. Catlanchimauli
C. Sonsogor (about 1,167 m)
D. Vagheri
E. None of the above

21. The National SC-ST Hub, which supports SC and ST entrepreneurs, is run by the Ministry of:

A. Tribal Affairs
B. Social Justice and Empowerment
C. MSME
D. Finance
E. None of the above

22. Who was named interim President of FIDE in July 2026?

A. Viswanathan Anand
B. Magnus Carlsen
C. D. Gukesh
D. Arkady Dvorkovich
E. None of the above

23. Women's Equality Day is observed on:

A. 13 February
B. 8 March
C. 26 August
D. 24 January
E. None of the above

24. Partition Horrors Remembrance Day (Vibhajan Vibhishika Smriti Diwas), observed since 2021, falls on:

A. 14 August
B. 15 August
C. 9 August
D. 16 August
E. None of the above

25. Where was the final of the 2026 ICC Men's T20 World Cup played?

A. Mumbai
B. Ahmedabad
C. Colombo
D. Kolkata
E. None of the above

SECTION IV | 10 MARKS

Logical Reasoning

26. Statements: All files are records. Some records are confidential documents. Conclusions: I. Some files are confidential documents. II. Some confidential documents are records.

A. Only conclusion I follows
B. Only conclusion II follows
C. Both conclusions follow
D. Neither conclusion follows
E. None of the above

27. Priya is facing east. She turns 90 degrees clockwise, then 180 degrees, then 90 degrees anticlockwise. Which direction is she facing now?

A. West
B. East
C. North
D. South
E. None of the above

28. Sam bought 20 dozen toys at ₹375 a dozen and sold each toy for ₹33. What was his profit per cent?

A. 3.5%
B. 4.5%
C. 5.6%
D. 6.5%
E. None of the above

29. Six friends A, B, C, D, E and F sit in a row facing north. C is at the extreme left. A is third from the right end. B is to the immediate right of A. D sits next to both C and E. Who is at the extreme right?

A. B
B. E
C. F
D. D
E. None of the above

30. Find the compound interest on ₹1,600 at 10% a year for 2 years, compounded annually.

A. ₹320
B. ₹336
C. ₹350
D. ₹360
E. None of the above

31. 6 is to 42 as 8 is to:

A. 56
B. 64
C. 70
D. 72
E. None of the above

32. Q is the brother of P. R is the daughter of P. S is the sister of Q. T is the mother of S. How is T related to R?

A. Mother
B. Aunt
C. Grandmother
D. Sister
E. None of the above

33. The words Record, Recount, Receipt, Recall and Recent are arranged as in a dictionary. Which word comes third?

A. Receipt
B. Record
C. Recent
D. Recall
E. None of the above

34. M is the father of N. N is the sister of O. O is the husband of P. How is P related to M?

A. Daughter-in-law
B. Daughter
C. Sister-in-law
D. Niece
E. None of the above

35. A river flows from east to west. It turns left, and then turns right. In which direction is it flowing now?

A. West
B. North
C. South
D. East
E. None of the above

SECTION V | 25 MARKS

Core: Full syllabus (Topics 1 to 10)

36. In Kent's evaluation of mental symptoms, which group ranks highest?

A. Symptoms of the will (loves, hates, emotions)
B. Symptoms of the understanding
C. Symptoms of the memory
D. Dreams
E. None of the above

37. Which pair are the chief anti-sycotic remedies?

A. Sulphur and Psorinum
B. Thuja and Medorrhinum
C. Mercurius and Syphilinum
D. Tuberculinum and Bacillinum
E. None of the above

38. The return of old symptoms after a remedy is, according to Kent:

A. a good sign that the disease is being cured
B. a sign the remedy was wrong
C. a reason to antidote
D. a reason to change the remedy at once
E. None of the above

39. Which remedy is described as the chronic of Ignatia?

A. Pulsatilla
B. Sepia
C. Natrum muriaticum
D. Staphisagria
E. None of the above

40. Right-sided headache beginning in the occiput, settling over the right eye, rising and falling with the sun, suggests:

A. Sanguinaria
B. Spigelia
C. Natrum mur
D. Belladonna
E. None of the above

41. Restless, fidgety feet that must be kept moving all the time, with brain fag, suggest:

A. Arsenicum
B. Rhus tox
C. Tarentula
D. Zincum metallicum
E. None of the above

42. Bacillinum, a tubercular nosode, is especially used for:

A. acute sprains
B. gonorrhoeal history
C. patients with a tubercular history and recurrent chest infections or ringworm
D. scabies
E. None of the above

43. On a prescription, the 'inscription' is the part that gives:

A. the patient's name
B. directions to the patient
C. the name and quantity of the medicine
D. the prescriber's signature
E. None of the above

44. 'Strong alcohol' in the Homoeopathic Pharmacopoeia of India is ethanol of about:

A. 50% v/v
B. 95% v/v
C. 20% v/v
D. 10% v/v
E. None of the above

45. The last section of Boenninghausen's Therapeutic Pocket Book deals with:

A. Fever
B. Modalities
C. Concordance (relationship of remedies)
D. Sleep and dreams
E. None of the above

46. 'Clarke's Clinical Repertory' (1904) is an example of a:

A. clinical repertory
B. card repertory
C. concordance repertory
D. regional repertory of the eye
E. None of the above

47. The first heart sound is produced by closure of the:

A. Aortic and pulmonary valves
B. Mitral and tricuspid valves
C. Aortic valve only
D. Foramen ovale
E. None of the above

48. Wernicke's area, damage to which causes fluent (receptive) aphasia, lies in the:

A. inferior frontal gyrus
B. precentral gyrus
C. occipital lobe
D. superior temporal gyrus
E. None of the above

49. In the first week of typhoid fever, the most useful investigation is:

A. Blood culture
B. Widal test
C. Stool culture
D. Urine culture
E. None of the above

50. A 'rat-tail' appearance on barium swallow is seen in (GPSC Medical Officer, 2025):

A. carcinoma oesophagus
B. achalasia cardia
C. reflux oesophagitis
D. hiatus hernia
E. None of the above

51. Diabetes mellitus is diagnosed when fasting plasma glucose is at least:

A. 100 mg/dL
B. 110 mg/dL
C. 126 mg/dL
D. 200 mg/dL
E. None of the above

52. Asterixis (flapping tremor) in a cirrhotic patient suggests:

A. hypoglycaemia only
B. hepatic encephalopathy
C. stroke
D. Parkinsonism
E. None of the above

53. A remedy for diabetes with marked thirst, dry mouth and copious urine, often prescribed in mother tincture as a 'specific', is:

A. Arnica
B. Syzygium jambolanum
C. Calendula
D. Hypericum
E. None of the above

54. The commonest site of ectopic pregnancy is the:

A. Ovary
B. Ampulla of the fallopian tube
C. Cervix
D. Abdomen
E. None of the above

55. Under India's UIP, the first dose of measles–rubella (MR) vaccine is given at:

A. 9–12 months
B. 6 weeks
C. 5 years
D. birth
E. None of the above

56. The Parkland formula for fluid resuscitation in burns is:

A. 2 mL × weight × % burn in 8 hours
B. 4 mL × body weight (kg) × % burn in 24 hours, half in the first 8 hours
C. 10 mL × weight
D. 1 litre per % burn
E. None of the above

57. Acute osteomyelitis in children most commonly affects the:

A. Diaphysis
B. Epiphysis
C. Flat bones of the skull
D. Metaphysis of long bones
E. None of the above

58. Cadaveric spasm differs from rigor mortis because it:

A. develops 2 hours after death
B. affects only the heart
C. occurs instantly at death and preserves the last act, such as grip on a weapon
D. disappears before rigor mortis
E. None of the above

59. Under the MTP (Amendment) Act 2021, the opinion of two registered doctors is needed for termination at (GPSC Medical Officer, 2025):

A. up to 12 weeks
B. 12–14 weeks
C. 20–24 weeks
D. beyond 24 weeks in all cases
E. None of the above

60. Rigor mortis first appears in the:

A. Lower limbs
B. Fingers
C. Abdominal muscles
D. Myocardium (and then the eyelids and face)
E. None of the above

Intermediate Test 3

SECTION I | 10 MARKS

English (Comprehension)

Passage 1. Read the passage and answer questions 1 to 5.

Time travel, a concept long confined to theoretical physics and science fiction, raises profound questions about causality, determinism, and the nature of temporal reality. Theoretical frameworks such as Einstein's general relativity allow for hypothetical scenarios involving wormholes, closed timelike curves, and relativistic time dilation. Philosophical debates interrogate the paradoxes of altering past events, including the famous "grandfather paradox," which challenges logical consistency. While no experimental evidence currently supports backward time travel, forward progression is observable through relativistic effects on high-velocity objects. Advancements in quantum mechanics, including superposition and entanglement, suggest potential mechanisms that might influence temporal perception, though practical application remains speculative. Beyond physics, time travel stimulates ethical, psychological, and narrative exploration, influencing literature, cinema, and popular imagination. Consequently, time travel occupies an intersection of scientific inquiry, philosophical reasoning, and cultural fascination, demonstrating humanity's enduring curiosity about temporal boundaries.

1. The passage primarily presents time travel as

A. a currently feasible technology
B. a theoretical and philosophical concept with cultural impact
C. a purely fictional device
D. a scientifically disproven idea
E. None of the above

2. The "grandfather paradox" is cited to illustrate

A. practical applications of time travel
B. logical contradictions arising from altering the past
C. speed limits in relativity
D. quantum entanglement
E. None of the above

3. Which branch of physics is said to suggest mechanisms that might influence temporal perception?

A. Classical mechanics
B. Quantum mechanics
C. Thermodynamics
D. Acoustics
E. None of the above

4. According to the passage, what aspect of time travel is experimentally observable?

A. Backward time travel
B. Forward progression via relativistic effects
C. Instantaneous jumps in time
D. Temporal manipulation of consciousness
E. None of the above

5. The overall tone of the passage is

A. speculative, analytical and interdisciplinary
B. dismissive of science fiction
C. alarmist about temporal dangers
D. casual and narrative-driven
E. None of the above

Passage 2. Read the passage and answer questions 6 to 10.

Interstellar objects, such as the recently observed ‘Oumuamua, are celestial bodies that originate outside the solar system and pass through it on hyperbolic trajectories. Unlike asteroids and comets bound to the Sun, these objects are not gravitationally tethered, offering a rare opportunity to study material from distant star systems. Their unusual trajectories, shapes, and compositions challenge existing models of planetary formation and interstellar dynamics. Observations suggest that some interstellar objects may carry organic compounds, raising questions about the distribution of prebiotic material in the galaxy. Detection is complicated by their high velocity, small size, and transient visibility. As observational technology improves, astronomers anticipate more frequent identification, potentially providing unprecedented insights into the conditions and processes of exoplanetary systems. Studying such objects may inform theories about the origin of life and the broader dynamics of galactic matter distribution.

6. The passage primarily discusses interstellar objects as

A. common features of the solar system
B. key sources for understanding distant planetary systems
C. dangerous celestial bodies
D. predictable comets
E. None of the above

7. The term “hyperbolic trajectories” implies that interstellar objects

A. orbit the Sun in closed paths
B. move too fast to be captured by the Sun
C. follow circular orbits around planets
D. return periodically
E. None of the above

8. Why are interstellar objects difficult to observe?

A. They hide behind planets
B. They are small, fast and visible only briefly
C. They emit no light
D. They move in circles
E. None of the above

9. The presence of organic compounds in interstellar objects suggests

A. life exists on them
B. prebiotic materials may be widespread in the galaxy
C. they resemble Earth rocks
D. they cannot enter the solar system
E. None of the above

10. The overall tone of the passage is

A. cautionary and alarmist
B. analytical and scientific
C. descriptive and casual
D. speculative without evidence
E. None of the above

SECTION II | 5 MARKS

English Grammar

11. Identify the clause type: “What the doctor said surprised everyone.”

A. Noun clause
B. Adjective clause
C. Adverb clause
D. Principal clause
E. None of the above

12. Choose the correct idiom: “The new scheme was a great success.” (meaning)

A. It took off.
B. It fell flat.
C. It fell through.
D. It went off.
E. None of the above

13. Choose the correct modal: “He looks pale; he _____ be unwell.”

A. must
B. need
C. dare
D. ought
E. None of the above

14. Select the correct indirect speech: The doctor said to me, “Take this medicine twice a day.”

A. The doctor said me to take this medicine twice a day.
B. The doctor told that I take that medicine twice a day.
C. The doctor advised me to take that medicine twice a day.
D. The doctor advised me that take the medicine twice a day.
E. None of the above

15. Choose the correct tense: “This is the third time he _____ late this week.”

A. comes
B. has come
C. came
D. is coming
E. None of the above

SECTION III | 10 MARKS

General Knowledge / Current Affairs of India and Goa

16. Haryana was carved out of Punjab on:

A. 1 November 1956
B. 1 May 1960
C. 1 November 1966
D. 26 January 1950
E. None of the above

17. The International Day of Older Persons and National Voluntary Blood Donation Day are both observed on:

A. 21 August
B. 1 October
C. 14 June
D. 15 June
E. None of the above

18. The 57th International Film Festival of India (Nov 2026) is held in Goa, its permanent venue since:

A. 2010
B. 2004
C. 2000
D. 1990
E. None of the above

19. Goa University was established in:

A. 1975
B. 1985
C. 1992
D. 1961
E. None of the above

20. INS Mahendragiri, the sixth Project 17A frigate commissioned in July 2026, was built by:

A. Hindustan Shipyard
B. Mazagon Dock Shipbuilders
C. Cochin Shipyard
D. Goa Shipyard Limited
E. None of the above

21. Who won the Nobel Peace Prize 2026?

A. Navi Pillay
B. Greta Thunberg
C. Narges Mohammadi
D. Volodymyr Zelenskyy
E. None of the above

22. World Tourism Day is observed on:

A. 25 January
B. 18 April
C. 5 June
D. 27 September
E. None of the above

23. The Defence Research and Development Organisation (DRDO) was formed in:

A. 1958
B. 1969
C. 1947
D. 1983
E. None of the above

24. Mohan Ranade, a freedom fighter of Goa, was associated with the:

A. United Goans Party
B. Azad Gomantak Dal
C. National Congress (Goa)
D. Goa Congress Committee
E. None of the above

25. National Handloom Day (7 August) commemorates the launch of the:

A. Dandi March in 1930
B. Swadeshi Movement in 1905
C. Quit India Movement in 1942
D. Non-Cooperation Movement in 1920
E. None of the above

SECTION IV | 10 MARKS

Logical Reasoning

26. Five officers P, Q, R, S and T sit in a row facing north. R sits exactly in the middle. P sits to the immediate left of R. T does not sit at either end. Q does not sit next to P. Who sits at the extreme right end?

A. S
B. T
C. Q
D. P
E. None of the above

27. Milk and water are mixed in the ratio 7 : 3. How much water must be added to 10 litres of the mixture to make the ratio 7 : 5?

A. 1 L
B. 2 L
C. 3 L
D. 4 L
E. None of the above

28. 60% of a school's students are boys. 25% of the boys and 30% of the girls hold scholarships. What per cent of all students hold scholarships?

A. 25%
B. 27%
C. 30%
D. 32%
E. None of the above

29. A train 130 m long at 45 km/h crosses a bridge in 30 seconds. How long is the bridge?

A. 200 m
B. 225 m
C. 245 m
D. 250 m
E. None of the above

30. Pick the odd pair:

A. Pen and Nib
B. Water and Bucket
C. Ink and Inkpot
D. Oil and Lamp
E. None of the above

31. The Collectorate is due north of the bus stand. The court is due east of the Collectorate. In which direction is the bus stand from the court?

A. North-east
B. South-east
C. South-west
D. North-west
E. None of the above

32. If A = 1, B = 2, ..., Z = 26, what is the sum of the letters in EXAMINATION?

A. 130
B. 140
C. 150
D. 160
E. None of the above

33. A's mother is the only daughter of B's father. If B is a man, how is B related to A?

A. Father
B. Grandfather
C. Brother
D. Maternal uncle
E. None of the above

34. A man is facing north. He turns right and walks 20 m, turns right again and walks 20 m, then turns left and walks 10 m. Which direction is he facing now?

A. East
B. North
C. South
D. West
E. None of the above

35. Statement: "Investing in renewable energy can reduce our carbon footprint." Argument A: Renewables are expensive to implement. Argument B: Renewables are key to reducing long-term environmental damage. Which is stronger?

A. Argument A
B. Argument B
C. Both are valid
D. Neither is valid
E. None of the above

SECTION V | 25 MARKS

Core: Full syllabus (Topics 1 to 10)

36. Which miasm did Hahnemann call the oldest, most universal and the mother of countless chronic diseases (§80)?

A. Sycosis
B. Syphilis
C. Psora
D. The tubercular diathesis
E. None of the above

37. According to §83, the physician taking the case needs above all:

A. a knowledge of pathology only
B. laboratory reports before speaking to the patient
C. a fixed list of questions
D. freedom from prejudice, sound senses, attention in observing and fidelity in recording
E. None of the above

38. Diseases presenting only one or two striking symptoms, which hide the rest of the picture, are called by Hahnemann:

A. Acute miasms
B. Indispositions
C. One-sided diseases
D. Intermittent diseases
E. None of the above

39. Which remedy is inimical to Phosphorus and should not be given immediately before or after it?

A. Sulphur
B. Arsenicum album
C. Calcarea carbonica
D. Causticum
E. None of the above

40. Sleeplessness from excessive joy or pleasant surprise, with an over-active mind full of ideas, calls for:

A. Opium
B. Ignatia
C. Coffea cruda
D. Nux vomica
E. None of the above

41. Which remedy is complementary to Pulsatilla?

A. Causticum
B. Coffea
C. Phosphorus
D. Silicea
E. None of the above

42. A great desire for fresh air, burning pains relieved by heat, and offensive, foul-smelling discharges with a history of never being well since a suppressed eruption suggest:

A. Pulsatilla
B. Apis
C. Psorinum
D. Natrum mur
E. None of the above

43. The Drugs and Cosmetics Rules require homoeopathic medicines to be manufactured under a licence issued by:

A. the Central Council of Homoeopathy
B. the Indian Medical Association
C. any registered practitioner
D. the State Licensing Authority
E. None of the above

44. In homoeopathic pharmacy, the 'drug strength' of a mother tincture describes:

A. the potency number
B. the alcohol percentage only
C. the weight of the bottle
D. the proportion of the crude drug in the mother tincture
E. None of the above

45. The philosophical basis of Boenninghausen's Therapeutic Pocket Book is:

A. Generals before particulars, by Kentian deduction
B. Keynote prescribing
C. Pathological prescribing
D. Grand generalisation of particulars
E. None of the above

46. In Kent's Repertory, the second chapter, after Mind, is:

A. Head
B. Eye
C. Vertigo
D. Generalities
E. None of the above

47. Mean arterial pressure is approximately:

A. (systolic + diastolic)/2
B. systolic − diastolic
C. systolic + 1/3 pulse pressure
D. diastolic + 1/3 pulse pressure
E. None of the above

48. Damage to the cerebellum typically causes:

A. intention tremor and ataxia
B. resting tremor
C. aphasia
D. sensory loss
E. None of the above

49. Under India's TB programme, the preferred initial test for diagnosing pulmonary TB is now:

A. Chest X-ray alone
B. Tuberculin skin test
C. Molecular test (CBNAAT / TrueNat)
D. ESR
E. None of the above

50. Red blood cell casts in urine indicate:

A. pyelonephritis
B. acute tubular necrosis
C. normal urine
D. glomerulonephritis
E. None of the above

51. Acute gout most often first affects the:

A. Metatarsophalangeal joint of the great toe
B. Knee
C. Wrist
D. Hip
E. None of the above

52. Painful, red, swollen great toe joint at night with exquisite sensitivity to touch suggests homoeopathically:

A. Colchicum
B. Silicea
C. Calcarea phos
D. Natrum mur
E. None of the above

53. Measles with fever, profuse bland coryza and burning, acrid lachrymation in a child calls for:

A. Euphrasia
B. Allium cepa
C. Belladonna
D. Bryonia
E. None of the above

54. A child says the first one or two meaningful words (such as 'mama') at about:

A. 6 months
B. 12 months
C. 24 months
D. 36 months
E. None of the above

55. The average duration of a normal pregnancy from the first day of the last menstrual period is:

A. 240 days
B. 280 days
C. 300 days
D. 320 days
E. None of the above

56. The commonest site of a varicose ulcer is:

A. Sole of the foot
B. Above the medial malleolus (gaiter area)
C. Back of the knee
D. Thigh
E. None of the above

57. A burst abdomen after surgery in a debilitated patient is called:

A. Hernia
B. Fistula
C. Keloid
D. Wound dehiscence
E. None of the above

58. The Physical Quality of Life Index (PQLI) consists of:

A. infant mortality, literacy and life expectancy at age one
B. income, education and life expectancy
C. IMR and MMR only
D. GDP and literacy
E. None of the above

59. Pin-point pupils, excessive salivation and sweating, muscle fasciculations and a kerosene-like smell suggest poisoning by:

A. Datura
B. Organophosphate insecticide
C. Arsenic
D. Cyanide
E. None of the above

60. Chlorination of drinking water aims to leave a free residual chlorine of about:

A. 5 mg/L
B. 50 mg/L
C. 0.5 mg/L after 1 hour contact
D. 0.01 mg/L
E. None of the above

Hard Test 1

SECTION I | 10 MARKS

English (Comprehension)

Passage 1. Read the passage and answer questions 1 to 5.

The advent of CRISPR-Cas9 and advanced biomedicines marks a watershed moment in human history, offering the god-like power to edit the genetic code itself. We stand on the precipice of eradicating hereditary diseases like cystic fibrosis and sickle cell anemia. However, this scientific velocity outpaces our ethical frameworks. The prospect of "designer babies," where genetic editing extends beyond therapy to enhancement (intelligence, physical traits), threatens to bifurcate humanity into biological castes. Furthermore, the exorbitant cost of personalized immunotherapies creates a chasm of inequality; biomedicine risks becoming a luxury good rather than a universal right. Unless regulatory bodies enforce equitable access and strict ethical boundaries, biotechnology could paradoxically exacerbate the human suffering it aims to alleviate by entrenching socio-economic disparities at a cellular level.

1. The phrase "bifurcate humanity into biological castes" suggests

A. a division by traditional caste
B. a split between healthy and sick
C. a divide between the genetically enhanced wealthy and the unedited poor
D. a split between humans and AI
E. None of the above

2. What is the "watershed moment" mentioned in the passage?

A. the discovery of penicillin
B. the microscope
C. the development of gene-editing technologies like CRISPR
D. privatised healthcare
E. None of the above

3. The author's attitude towards biotechnology is

A. unreservedly optimistic
B. cynical and dismissive
C. cautiously hopeful but deeply concerned about ethics and equity
D. indifferent
E. None of the above

4. Which is NOT mentioned as a risk of biomedicine?

A. high costs
B. enhancement rather than cure
C. creation of new biological weapons
D. ethics lagging behind science
E. None of the above

5. What does the “chasm of inequality” refer to?

A. scientists vs the public
B. the gap in access to advanced treatments due to high cost
C. intelligence gaps between generations
D. political divides over funding
E. None of the above

Passage 2. Read the passage and answer questions 6 to 10.

The Indian Premier League (IPL) has transcended the boundaries of a mere sporting tournament to become a colossal socio-economic phenomenon. While purists lament the "Disneyfication" of the gentleman's game—citing the erosion of technical finesse in favor of brute force and theatrics—the league's economic footprint is undeniable. It has democratized cricket remuneration, pulling obscure domestic talents from hinterlands into the limelight of financial security. However, this commercial juggernaut raises pertinent questions regarding the commodification of national sentiment. The franchise model, heavily borrowed from American sports, risks diluting regional loyalties in favor of corporate identities. Furthermore, the relentless schedule contributes to player burnout, often rendering national duty secondary to contractual obligations. The challenge lies in balancing this commercial vitality with the sanctity of the sport, ensuring that the spectacle does not cannibalize the very skill set it intends to celebrate.

6. The author's use of the term "Disneyfication" implies

A. the sport has become more child-friendly
B. the game is being trivialised into entertainment at the cost of technical quality
C. the league is owned by media conglomerates
D. the game looks better
E. None of the above

7. According to the passage, a positive outcome of the IPL is that

A. it strengthened regional loyalties
B. it put national duty above contracts
C. it gave financial security to lesser-known domestic players
D. it improved Test cricket technique
E. None of the above

8. The central conflict discussed in the passage is between

A. Indian and foreign players
B. BCCI and ICC
C. commercial viability and the traditional integrity of the sport
D. Tests and ODIs
E. None of the above

9. Which statement is NOT supported by the passage?

A. The IPL follows an American-style franchise model
B. The intense schedule causes fatigue
C. The IPL is the sole reason for the global decline of Test cricket
D. The league has commodified cricket
E. None of the above

10. The word "cannibalize" in the last sentence suggests

A. to consume or destroy the foundation on which it stands
B. to promote to a new audience
C. to merge two entities
D. to improve through competition
E. None of the above

SECTION II | 5 MARKS

English Grammar

11. Choose the correct option: “It is high time we _____ the old files.”

A. have cleared
B. cleared
C. clear
D. will clear
E. None of the above

12. Choose the correct negative transformation: “Only a fool would say that.”

A. Only not a fool would say that.
B. A fool would not say that.
C. Not a fool would say that.
D. None but a fool would say that.
E. None of the above

13. Select the correct indirect speech: He said, “Let us wait for the doctor.”

A. He told to wait for the doctor.
B. He suggested that let them wait for the doctor.
C. He suggested that they should wait for the doctor.
D. He said that let us wait for the doctor.
E. None of the above

14. Choose the word closest in meaning to “obfuscate”:

A. clarify
B. conceal
C. exaggerate
D. reveal
E. None of the above

15. Identify the function of the underlined phrase: “He worked hard in order to succeed.”

A. Adverb of purpose
B. Adjective phrase
C. Adverb of time
D. Noun phrase
E. None of the above

SECTION III | 10 MARKS

General Knowledge / Current Affairs of India and Goa

16. 'Operation Trishul', in news in 2026, is associated with:

A. anti-Naxal operations
B. bringing back fugitives from abroad
C. flood rescue
D. anti-drone defence
E. None of the above

17. The Supreme Court (Number of Judges) Amendment Bill, 2026 raises the sanctioned strength of Supreme Court judges from 34 to:

A. 38
B. 36
C. 40
D. 42
E. None of the above

18. Which foreign university received a UGC Letter of Intent in October 2026 to open a campus in Hyderabad?

A. University of Colorado Denver
B. Deakin University
C. University of Southampton
D. University of Liverpool
E. None of the above

19. The National Social Assistance Programme was approved for 2026-27 to 2030-31 with an outlay of:

A. ₹25,000 crore
B. ₹1.2 lakh crore
C. ₹10,000 crore
D. ₹53,428 crore
E. None of the above

20. With 11 new e-visa entry points added in August 2026, the total number of e-visa entry points became:

A. 88
B. 100
C. 75
D. 64
E. None of the above

21. 'Samudra Manthan', a ₹84,084-crore scheme approved in 2026, is for:

A. offshore exploration
B. coastal fisheries
C. port modernisation
D. seawater desalination
E. None of the above

22. The 135.87-km Guwahati–Tezpur four-lane corridor approved by the Cabinet in August 2026 is on:

A. NH-37
B. NH-27
C. NH-15
D. NH-44
E. None of the above

23. The modified UDAN scheme aims to connect how many new destinations over the next decade?

A. 50
B. 120
C. 75
D. 200
E. None of the above

24. India's first satellite-guided helicopter approach procedure (RNP CAT H) was made operational at:

A. HAL Airport, Bengaluru
B. Juhu Airport, Mumbai
C. Safdarjung Airport, Delhi
D. Begumpet Airport, Hyderabad
E. None of the above

25. 'Mission Samriddh Gaon', launched by Shivraj Singh Chouhan in 2026, began with pilot villages in which state?

A. Bihar
B. Madhya Pradesh
C. Rajasthan
D. Uttar Pradesh
E. None of the above

SECTION IV | 10 MARKS

Logical Reasoning

26. X, Y and Z start a firm with ₹90,000, ₹1,20,000 and ₹1,50,000. X, the managing partner, gets an allowance of ₹4,000 a month. Z's share of the divisible profit is guaranteed to be at least ₹1,15,000, any shortfall being borne by Y alone. If the annual profit before X's allowance is ₹2,88,000, what does Y finally receive?

A. ₹60,000
B. ₹65,000
C. ₹75,000
D. ₹80,000
E. None of the above

27. Two ships on opposite sides of a 100 m lighthouse see its top at elevations of 30° and 45°. How far apart are the ships?

A. 173 m
B. 200 m
C. 273 m
D. 300 m
E. None of the above

28. Ayesha's father was 38 when she was born; her mother was 36 when her brother, four years younger than Ayesha, was born. What is the difference between the parents' ages?

A. 2 years
B. 4 years
C. 6 years
D. 8 years
E. None of the above

29. Four boxes each hold the same number of sweets and carry these labels: 'Five or Six', 'Seven or Eight', 'Six or Seven', 'Seven or Five'. Only one label is correct. How many sweets are in each box?

A. five
B. six
C. seven
D. eight
E. None of the above

30. 343 : 678 :: 512 : ?

A. 1024
B. 1536
C. 1000
D. 1016
E. None of the above

31. A clock shows 4:30. It is placed so that the minute hand points east. In which direction does the hour hand point?

A. North-east
B. South-east
C. South-west
D. North-west
E. None of the above

32. A petroleum product's price rises 25% every odd year and falls 20% every even year. After exactly 8 years the price has

A. risen 15%
B. risen 5%
C. fallen 5%
D. stayed the same
E. None of the above

33. A shoe showroom earns 25% profit after a 25% discount. What would the profit be with only a 10% discount?

A. 30%
B. 40%
C. 50%
D. 60%
E. None of the above

34. Looking at a portrait, Arun said, 'I have no brother or sister, but this man's father is my father's son.' Whose portrait is it?

A. His own
B. His father's
C. His son's
D. His nephew's
E. None of the above

35. Numbers: 325 618 378 461 782 562 213. If the 1st and 3rd digits of each are interchanged, what is the sum of the product of the 1st and 3rd digits of the lowest number and that of the highest number?

A. 24
B. 30
C. 22
D. 28
E. None of the above

SECTION V | 25 MARKS

Core: Full syllabus (Topics 1 to 10)

36. The first edition of the Organon (1810) was titled:

A. Organon of the Healing Art (Organon der Heilkunst)
B. Organon of Rational Medicine (Organon der rationellen Heilkunde)
C. Materia Medica Pura
D. The Medicine of Experience
E. None of the above

37. Hahnemann advised (§236) that in intermittent fevers the remedy is best given:

A. at the height of the chill
B. just before the paroxysm
C. immediately or very soon after the paroxysm ends
D. only during the sweating stage
E. None of the above

38. According to Hahnemann, emotional diseases of recent origin produced and kept up by the mind (§226) may be cured by:

A. high-potency remedies only
B. psychological means such as confidence, friendly advice and reasoning
C. surgery
D. isopathy
E. None of the above

39. Homesickness with red cheeks, burning pains like pepper and chilliness in fat, flabby people suggests:

A. Ignatia
B. Phosphoric acid
C. Pulsatilla
D. Capsicum
E. None of the above

40. Breathlessness with great rattling of mucus, worse at 3 a.m., in fat, sluggish patients with a tendency to cyanosis, suggests:

A. Antimonium tart
B. Ipecac
C. Ammonium carbonicum
D. Kali carb
E. None of the above

41. Varicose veins, bone affections and complaints that are better from cold and worse from heat, in a syphilitic constitution, suggest:

A. Calcarea fluor
B. Fluoric acid
C. Aurum met
D. Silicea
E. None of the above

42. A patient who is very awkward, drops things, with puffiness and a tendency for marks to persist after pressure from scissors or instruments, suggests:

A. Apis
B. Natrum carb
C. Bovista
D. Calcarea carb
E. None of the above

43. Under the old Hahnemannian method, mother tinctures were prepared in different classes according to:

A. the potency required
B. the price of the drug
C. the disease
D. the juice and moisture content of the plant (Classes I to IX)
E. None of the above

44. For the 50 millesimal potencies Hahnemann medicated very small globules, about the size of:

A. peas
B. poppy seeds
C. rice grains
D. mustard seeds
E. None of the above

45. Boenninghausen's first repertory, published in 1832, dealt with:

A. Non-antipsoric medicines
B. Nosodes only
C. Antipsoric medicines
D. Clinical conditions
E. None of the above

46. Boenninghausen's Therapeutic Pocket Book was edited in English in 1891 by:

A. J. T. Kent
B. T. F. Allen
C. C. M. Boger
D. W. Boericke
E. None of the above

47. The normal serum anion gap is about:

A. 8–12 mEq/L
B. 25–30 mEq/L
C. 0–2 mEq/L
D. 40–50 mEq/L
E. None of the above

48. The baroreceptors that regulate blood pressure are located mainly in the:

A. Carotid body
B. Medulla only
C. Carotid sinus and aortic arch
D. Kidneys
E. None of the above

49. Lines of Zahn indicate:

A. a post-mortem clot
B. fat embolism
C. an infarct
D. a thrombus formed in flowing blood (ante-mortem)
E. None of the above

50. The 'Tzanck smear' showing multinucleated giant cells is used to diagnose:

A. typhoid
B. scabies
C. herpes virus infections such as chickenpox
D. fungal infection
E. None of the above

51. Asthma with suffocation from the slightest motion, relieved by being fanned, and a craving for fresh air suggests:

A. Arsenicum album
B. Ipecac
C. Antimonium tart
D. Carbo vegetabilis
E. None of the above

52. The investigation of choice for acute subarachnoid haemorrhage is (GPSC Medical Officer, 2025):

A. non-contrast CT scan
B. MRI
C. cerebral angiography
D. lumbar puncture first
E. None of the above

53. The most important mechanism in GERD is (GPSC Medical Officer, 2024):

A. frequent transient lower oesophageal sphincter relaxations
B. hiatus hernia
C. LES hypertension
D. delayed gastric emptying
E. None of the above

54. The commonest heart defect in congenital rubella syndrome is (GPSC Medical Officer, 2024):

A. VSD
B. patent ductus arteriosus
C. ASD
D. pulmonary stenosis
E. None of the above

55. Physiological jaundice in a term newborn usually disappears by:

A. 24 hours
B. 6 weeks
C. about 2 weeks (14 days)
D. 3 months
E. None of the above

56. A whitish membrane on the tonsils that bleeds when scraped off suggests (GPSC Medical Officer, 2025):

A. diphtheritic tonsillitis
B. acute membranous tonsillitis
C. candidiasis
D. infectious mononucleosis
E. None of the above

57. Burns of the face and neck are dangerous mainly because of:

A. cosmetic loss only
B. infection only
C. airway swelling and inhalation injury
D. fluid loss only
E. None of the above

58. 'Tache noire' is a post-mortem sign seen:

A. on the skin of the back
B. in the eyes when the eyelids remain open
C. in the stomach
D. on the fingernails
E. None of the above

59. Under the National Commission for Homoeopathy Act, 2020, the National Register of homoeopathic practitioners is maintained by the:

A. Homoeopathy Education Board
B. Medical Assessment and Rating Board for Homoeopathy
C. Board of Ethics and Registration for Homoeopathy
D. Central Council for Research in Homoeopathy
E. None of the above

60. Euthanasia (passive) in India was permitted with safeguards following the Supreme Court judgment in:

A. Common Cause v. Union of India (2018)
B. Kesavananda Bharati
C. Maneka Gandhi
D. Vishaka
E. None of the above

Hard Test 2

SECTION I | 10 MARKS

English (Comprehension)

Passage 1. Read the passage and answer questions 1 to 5.

The relentless march of generative Artificial Intelligence (AI) into professional domains has triggered a paradigm shift in global labor dynamics, moving far beyond the automation of routine manual tasks. Historically, technological disruptions primarily displaced blue-collar labor; however, contemporary cognitive computing aggressively targets the white-collar vanguard, executing sophisticated data synthesis, legal document drafting, and algorithmic financial analysis with disconcerting efficacy. While techno-optimists champion this transition as a liberation of human intellect—arguing that AI will subsume mundane analytical friction and elevate workers to higher-tier strategic roles—the velocity of this displacement threatens to outpace systemic re-skilling frameworks. This temporal mismatch risks exacerbating socioeconomic bifurcation, creating a precarious class of highly educated yet functionally obsolete professionals. Furthermore, the corporate imperative to optimize profit margins via algorithmic labor introduces a profound ethical vacuum regarding worker agency and institutional accountability. The ultimate challenge lies not in halting algorithmic integration, but in architecting proactive social safety nets and dynamic educational curricula that treat human capital not as a static resource, but as an adaptable partner to cognitive machines.

1. The author's main concern about the “velocity of this displacement” is that

A. it will end human strategic decision-making
B. workers will refuse to learn AI tools
C. re-skilling programmes cannot keep pace with AI adoption
D. blue-collar workers will be pushed into white-collar roles
E. None of the above

2. “Socioeconomic bifurcation” implies that AI could

A. split society into two unequal economic segments
B. equalise wages
C. make firms share profits fairly
D. briefly cut corporate profits
E. None of the above

3. Techno-optimists see AI as a way to

A. concentrate managerial power in algorithms
B. relieve workers of routine cognitive tasks so they can focus on strategy
C. prevent obsolescence in creative fields
D. reduce the need for re-skilling
E. None of the above

4. Which statement is TRUE according to the passage?

A. Past disruptions hit white-collar workers more
B. The corporate drive for algorithmic labour raises ethical concerns about worker agency and accountability
C. The author wants AI integration stopped
D. Generative AI cannot draft legal documents
E. None of the above

5. The author's tone toward the future of human labour is best described as

A. pessimistic and fatalistic
B. dismissive of profit motives
C. uncritically celebratory
D. cautionary yet focused on structural adaptation
E. None of the above

Passage 2. Read the passage and answer questions 6 to 10.

The rapid expansion of Electric Vehicles (EVs) has significantly altered the global transportation landscape. Governments worldwide have promoted EV adoption through subsidies, tax exemptions, and investments in charging infrastructure to reduce dependence on fossil fuels and lower urban pollution levels. Supporters argue that EVs represent a sustainable alternative to conventional automobiles because they produce fewer direct emissions. However, environmental analysts caution that the overall ecological benefit of EVs depends largely on the energy sources used for electricity generation. In nations where coal-fired power plants dominate energy production, EVs may indirectly contribute to substantial carbon emissions. Furthermore, the extraction of rare earth minerals and disposal of lithium-ion batteries raise serious environmental and ethical concerns. Despite these criticisms, technological advancements in battery efficiency and renewable energy integration continue to strengthen the long-term prospects of EVs. Economists also note that the EV industry has created new opportunities for innovation, employment, and industrial investment. Consequently, the debate surrounding EVs is no longer limited to transportation alone but extends to broader questions of sustainability, energy policy, and economic transition.

6. Which of the following best captures the central argument of the passage?

A. EVs are entirely free from environmental concerns.
B. EV adoption involves both significant benefits and complex challenges.
C. Governments should stop subsidising EVs.
D. Coal-based power generation should be expanded.
E. None of the above

7. The author implies that the environmental success of EVs depends primarily on:

A. The nature of electricity production systems
B. International trade rules
C. Consumer preference for luxury vehicles
D. Reduction in car manufacturing
E. None of the above

8. Why does the author mention "rare earth minerals" and "lithium-ion batteries"?

A. To show EVs are profitable
B. To note technical limits unrelated to environment
C. To present environmental and ethical concerns of EV production
D. To argue against renewable energy
E. None of the above

9. Which of the following can be logically inferred from the passage?

A. Conventional cars are economically better.
B. Governments refuse to support EVs.
C. EVs eliminate carbon emissions in all countries.
D. Renewable energy integration may improve the sustainability of EVs.
E. None of the above

10. The tone of the passage may best be described as:

A. Analytical and balanced
B. Biased and dismissive
C. Satirical and critical
D. Emotional and persuasive
E. None of the above

SECTION II | 5 MARKS

English Grammar

11. Choose the correct modal: “You _____ have told me earlier; I could have helped.”

A. must
B. may
C. can
D. should
E. None of the above

12. Identify the clause type: “The nurse who attended me was very kind.”

A. Adverb clause
B. Principal clause
C. Noun clause
D. Adjective clause
E. None of the above

13. Choose the correct modal: “The form is optional; you _____ fill it in.”

A. need not
B. must not
C. have to
D. should
E. None of the above

14. Choose the correct transformation of: “He is too proud to apologise.”

A. He is very proud and he apologises.
B. He is proud enough to apologise.
C. He is so proud that he will not apologise.
D. He is so proud that he will apologise.
E. None of the above

15. Choose the correct option: “Hardly had the meeting begun _____ the power failed.”

A. when
B. then
C. than
D. that
E. None of the above

SECTION III | 10 MARKS

General Knowledge / Current Affairs of India and Goa

16. At the 2026 Asian Games, Vithya Ramraj broke the national 400-m hurdles record held by:

A. Shiny Wilson
B. P. T. Usha
C. Ashwini Akkunji
D. Hima Das
E. None of the above

17. Amit Shah's 'Gramin Gyan Setu' app (2026) links:

A. village libraries
B. primary health centres
C. cooperative banks
D. agricultural mandis
E. None of the above

18. The Registration of Births and Deaths (Amendment) Bill, 2026 requires a Judicial Magistrate's order for registrations delayed beyond:

A. two years
B. six months
C. five years
D. one month
E. None of the above

19. Who won the Golden Glove at the 2026 FIFA World Cup?

A. Unai Simón
B. Gianluigi Donnarumma
C. Thibaut Courtois
D. Emiliano Martínez
E. None of the above

20. Under VB-G RAM G, which replaced MGNREGA in 2026, each rural household is guaranteed how many days of wage work a year?

A. 100
B. 125
C. 120
D. 150
E. None of the above

21. Smriti Mandhana scored 124 off 64 balls in the 2026 Women's T20 Asia Cup against:

A. UAE
B. Hong Kong
C. Malaysia
D. Nepal
E. None of the above

22. PM-KISAN was continued for 2026-27 to 2030-31 with an outlay of about:

A. ₹3.15 lakh crore
B. ₹6 lakh crore
C. ₹1 lakh crore
D. ₹75,000 crore
E. None of the above

23. The GOBARdhan scheme (₹23,731 crore, FY27–FY36) aims to raise tenfold the production of:

A. organic manure
B. compressed biogas
C. milk
D. green hydrogen
E. None of the above

24. PM Surya Sarovar Yojana (2026) targets 5,000 MW of:

A. small hydro
B. floating solar power
C. offshore wind
D. rooftop solar
E. None of the above

25. Ahmedabad hosted, for the first time, a leg of the World Para Series in which sport (2026)?

A. Shooting
B. Badminton
C. Archery
D. Athletics
E. None of the above

SECTION IV | 10 MARKS

Logical Reasoning

26. Two trains P and Q start at the same time from X and Y towards each other. After meeting, P takes 4 hours to reach Y and Q takes 9 hours to reach X. If P runs at 72 km/h, what is the distance XY?

A. 600 km
B. 720 km
C. 840 km
D. 900 km
E. None of the above

27. At what time between 3 and 4 o’clock will the hands of a clock be at right angles (after 3:00)?

A. 3:16
B. 3:21
C. 3:27
D. 3:32
E. None of the above

28. All X are Y. Some Y are Z. No Z is X. Which is true?

A. Some X are Z
B. No X is Z
C. All Y are X
D. Some Z are X
E. None of the above

29. April has 30 days. The ratio of rainy days to sunny days in April could NOT be

A. 5:3
B. 3:2
C. 5:1
D. 4:1
E. None of the above

30. agnoscrenia = poisonous spider; delanocrenia = poisonous snake; agnosdeery = brown spider. Which word could mean "black widow spider"?

A. deeryclostagnos
B. agnosdelano
C. agnosvitriblunin
D. trymuttiagnos
E. None of the above

31. A, B and C can do a work in 20, 30 and 60 days. In how many days can A do it if B and C help him every third day?

A. 12 days
B. 15 days
C. 16 days
D. 18 days
E. None of the above

32. Rainfall in the catchment was below normal for two months, yet the city's water supply has not been cut. Assumptions: I. Rainfall later in the monsoon may be adequate. II. Present lake levels may be adequate for normal supply.

A. Only I is implicit
B. Only II is implicit
C. Either I or II is implicit
D. Both are implicit
E. None of the above

33. Gauri bought things worth ₹25, of which 30 paise was sales tax at 6% on taxable items. What was the cost of the tax-free items?

A. ₹15
B. ₹15.70
C. ₹19.70
D. ₹20
E. None of the above

34. The banker's gain on a sum due 2 years hence at 10% a year is ₹24. What is the present worth?

A. ₹480
B. ₹520
C. ₹600
D. ₹960
E. None of the above

35. Two trains run in opposite directions with speeds 2 : 1. The first passes a standing man in 5 s, the second in 8 s. How long do they take to cross each other?

A. 6 sec
B. 3 sec
C. 5 sec
D. 9 sec
E. None of the above

SECTION V | 25 MARKS

Core: Full syllabus (Topics 1 to 10)

36. In Kent's observations, amelioration first followed by aggravation suggests:

A. the best possible cure
B. a superficial, palliative remedy, or an incurable patient
C. a correct remedy in the right potency
D. an oversensitive patient
E. None of the above

37. Diseases kept up by avoidable noxious influences such as poor diet or bad habits, which disappear when these are corrected, are called by Hahnemann:

A. true chronic diseases
B. acute miasms
C. drug diseases
D. pseudo-chronic diseases (§77)
E. None of the above

38. In chronic diseases (§259–261) Hahnemann advised the patient to avoid:

A. all food
B. exercise
C. fresh air
D. medicinal substances in food and drink, such as strong coffee, spices and perfumes
E. None of the above

39. Extreme weakness from the heat of the sun, with great debility, inability to digest milk and sensitivity to music, suggests:

A. Natrum carbonicum
B. Natrum mur
C. Glonoine
D. Belladonna
E. None of the above

40. Sensation of a plug in various parts, sweet taste, and complaints relieved by eating are characteristic of:

A. Ignatia
B. Lycopodium
C. Arsenicum
D. Anacardium orientale
E. None of the above

41. Cough with exhausting weakness of the chest, so weak that the patient cannot talk, and sweetish expectoration suggest:

A. Phosphorus
B. Antimonium tart
C. Bryonia
D. Stannum metallicum
E. None of the above

42. A hurried, anxious patient whose complaints are better at the seashore and worse in the daytime, who sleeps in the knee-chest position and has a history of gonorrhoea, needs:

A. Psorinum
B. Syphilinum
C. Tuberculinum
D. Medorrhinum
E. None of the above

43. The continuous fluxion method of preparing high potencies is associated with:

A. Hahnemann
B. Bernhardt Fincke
C. Korsakoff
D. Hering
E. None of the above

44. Under the Drugs and Cosmetics Rules, a homoeopathic medicine that is not of standard quality as per the HPI is called:

A. misbranded
B. not of standard quality (sub-standard)
C. spurious
D. adulterated
E. None of the above

45. The first card repertory, 'Boenninghausen's Slips', was introduced by:

A. Jugal Kishore
B. W. J. Guernsey
C. Margaret Tyler
D. C. M. Boger
E. None of the above

46. C. M. Boger's approach to repertorisation gave special importance to:

A. only mental symptoms
B. clinical diagnosis alone
C. keynotes alone
D. pathological generals
E. None of the above

47. The substance commonly used to measure glomerular filtration rate precisely is:

A. Glucose
B. Urea
C. Inulin
D. Para-aminohippuric acid
E. None of the above

48. Secretin stimulates the pancreas to secrete juice rich in:

A. bicarbonate
B. enzymes
C. insulin
D. bile salts
E. None of the above

49. Thrombocytopenia is a common laboratory finding in:

A. Dengue fever
B. Hypothyroidism
C. Gout
D. Peptic ulcer
E. None of the above

50. Repair by replacement with fibrous tissue, as after a myocardial infarct, is called:

A. Organisation and scar formation (fibrosis)
B. Regeneration
C. Metaplasia
D. Hyperplasia
E. None of the above

51. Which statement about diabetes is FALSE (GPSC Medical Officer, 2025)?

A. Acromegaly and Cushing's syndrome can cause diabetes
B. Most type 2 diabetics die of cardiovascular disease
C. Type 2 diabetics are more prone to ketoacidosis than type 1
D. Fasting glucose above 126 mg/dL establishes diabetes
E. None of the above

52. Absence (petit mal) seizures show on EEG:

A. 3 Hz spike-and-wave discharges
B. flat trace
C. focal temporal spikes only
D. alpha rhythm
E. None of the above

53. Haemorrhoids that bleed and protrude like a bunch of grapes, relieved by cold water, with a sense of insecurity of the rectum, suggest:

A. Nux vomica
B. Sulphur
C. Hamamelis
D. Aloe socotrina
E. None of the above

54. Abnormal uterine bleeding is classified by FIGO using the acronym:

A. APGAR
B. PALM-COEIN
C. TORCH
D. MUDPILES
E. None of the above

55. A pregnant woman should receive tetanus–diphtheria (Td) vaccine as:

A. two doses (or one booster if vaccinated within the last 3 years)
B. one dose after delivery
C. no vaccine in pregnancy
D. five doses
E. None of the above

56. Opacity of the lens of the eye is called:

A. Glaucoma
B. Cataract
C. Pterygium
D. Keratitis
E. None of the above

57. A pathological communication between two epithelial surfaces is called a:

A. Sinus
B. Abscess
C. Ulcer
D. Fistula
E. None of the above

58. Vital statistics include all of the following EXCEPT:

A. births
B. deaths
C. marriages
D. hospital bed occupancy
E. None of the above

59. Under the homoeopathy practitioners' code of ethics, a registered practitioner is expected to:

A. advertise widely
B. charge by results
C. prescribe without examining
D. display registration details and practise only in his or her own system
E. None of the above

60. Datura poisoning presents with:

A. pinpoint pupils and salivation
B. bradycardia and sweating
C. convulsions with a bitter almond smell
D. dry mouth, dilated pupils, flushed skin and delirium
E. None of the above

Hard Test 3

SECTION I | 10 MARKS

English (Comprehension)

Passage 1. Read the passage and answer questions 1 to 5.

The global transition away from fossil fuels toward a renewable energy matrix is frequently framed as a linear techno-economic evolution, yet it represents an incredibly complex geopolitical and structural bottleneck. While the plummeting levelized cost of solar photovoltaic modules and wind turbines fuels optimism, the inherent intermittency of these green assets exposes the deep inadequacy of legacy electrical grids. Baseload power generation, historically anchored by coal and natural gas, cannot simply be swapped for weather-dependent inputs without triggering severe transmission instability or rolling blackouts. Resolving this structural paralysis requires monumental capital expenditures into utility-scale energy storage systems, smart grid distribution networks, and long-range high-voltage direct current lines. Beyond these engineering hurdles lies a fraught geopolitical landscape; the green transition reshapes global trade dependencies, shifting leverage from petroleum-exporting cartels to nations controlling the extraction and refining of critical minerals like lithium, cobalt, and rare earth elements. Consequently, hasty decarbonization without robust grid orchestration risks triggering severe economic contraction, proving that the energy transition is as much a challenge of geopolitical security as it is of ecological survival.

1. The term “intermittency” in the passage refers to the fact that renewable sources

A. are too expensive for developing economies
B. depend on the weather and do not give a constant flow of power
C. are using up lithium and cobalt
D. cause instability through HVDC lines
E. None of the above

2. Swapping baseload power for renewables without changing the grid results in

A. less dependence on critical minerals
B. lower capital spending
C. severe transmission instability and possible rolling blackouts
D. an end to oil cartels' leverage
E. None of the above

3. The green transition alters global geopolitics by

A. empowering nations that control critical-mineral supply chains
B. strengthening petroleum cartels
C. ending all trade dependencies
D. forcing every nation onto HVDC lines
E. None of the above

4. Which is NOT mentioned as a requirement for integrating renewables?

A. Utility-scale energy storage
B. Smart grid distribution networks
C. Long-range HVDC lines
D. Subsidising domestic coal and gas extraction
E. None of the above

5. The author's view on the speed of decarbonisation is that

A. it should be accelerated regardless of grid readiness
B. a rushed transition without grid orchestration can cause economic contraction
C. it is a simple linear evolution
D. it will succeed without changing geopolitics
E. None of the above

Passage 2. Read the passage and answer questions 6 to 10.

Pollution in the contemporary world has emerged not merely as an environmental concern but as a reflection of flawed development priorities. Rapid industrialization and unplanned urban expansion have increased the discharge of harmful substances into air, water, and soil. Unlike visible disasters, pollution often progresses silently, accumulating over time before its consequences become evident. Air pollution contributes to chronic respiratory illnesses, while polluted water systems disrupt ecosystems and human health alike. Economic growth frequently takes precedence over ecological protection, weakening regulatory enforcement. Although environmental laws exist, they are often undermined by political pressures and corporate interests. Technological innovations offer temporary relief but rarely address the underlying causes of excessive production and consumption. Public participation in pollution control remains limited, as responsibility is largely shifted to authorities. Consequently, pollution persists as a systemic issue requiring structural, behavioral, and institutional transformation.

6. The passage primarily argues that pollution is best understood as

A. a result of insufficient laws
B. a temporary side effect of modernization
C. an unavoidable outcome of industrial growth
D. a systemic problem rooted in development patterns
E. None of the above

7. What does the phrase "progresses silently" suggest about pollution?

A. It goes unnoticed until damage accumulates
B. It is easy to control early
C. It affects only some people
D. It spreads evenly
E. None of the above

8. According to the passage, environmental laws fail mainly because

A. they are outdated
B. people do not know them
C. enforcement is weakened by political and corporate interests
D. they lack international support
E. None of the above

9. The author’s criticism of technological solutions implies that

A. pollution has deeper social and economic causes
B. technology is too expensive
C. technology cannot reduce pollution
D. technology is useless
E. None of the above

10. The overall tone of the passage can best be described as

A. optimistic and solution-oriented
B. analytical and critical
C. emotional and alarmist
D. descriptive and factual
E. None of the above

SECTION II | 5 MARKS

English Grammar

11. Choose the word closest in meaning to “ameliorate”:

A. improve
B. ignore
C. prevent
D. worsen
E. None of the above

12. Choose the correct tense: “By next March, they _____ the new hospital wing.”

A. will have completed
B. will complete
C. completed
D. have completed
E. None of the above

13. Spot the error: “Unless you do not submit the form, you cannot sit the exam.”

A. Unless
B. do not
C. submit the form
D. cannot sit
E. None of the above

14. Choose the correct passive construction: “People expect the minister to resign.”

A. The minister is expected to resign.
B. The minister expected to resign.
C. The minister is expected resigning.
D. It is expected the minister to resign.
E. None of the above

15. Choose the correct passive construction: “The authority ordered him to submit the documents.”

A. He was ordered to submit the documents.
B. He is ordered to submit the documents.
C. He was ordered submitting the documents.
D. To submit the documents was ordered to him.
E. None of the above

SECTION III | 10 MARKS

General Knowledge / Current Affairs of India and Goa

16. After Kushavati district was created, how many talukas does Goa have in all?

A. 14
B. 11
C. 12
D. 10
E. None of the above

17. In 2026 Rajnath Singh approved transfer of technology to Indian manufacturers for:

A. nuclear submarines
B. all DRDO conventional missile systems
C. the Tejas engine
D. the S-400 system
E. None of the above

18. The UN declared 2 October, Gandhi Jayanti, the International Day of Non-Violence in:

A. 2000
B. 1948
C. 1969
D. 2007
E. None of the above

19. In 2026 India overtook which country to become the world's second-largest solar growth market, adding 37 GW?

A. United States
B. Japan
C. Germany
D. China
E. None of the above

20. India won the Women's T20 Asia Cup 2026. How many times has India won the women's Asia Cup?

A. Six
B. Five
C. Seven
D. Eight
E. None of the above

21. Who won India's first medal at the Glasgow 2026 Commonwealth Games?

A. Asmita Dey
B. Lovlina Borgohain
C. Nikhat Zareen
D. Mirabai Chanu
E. None of the above

22. In October 2026, Tata Motors raised its offer for the acquisition of:

A. Jaguar Land Rover
B. Iveco Group
C. Volvo Trucks
D. Daewoo
E. None of the above

23. Who became the first CEO of the Indian Super League under its new club-led model in 2026?

A. Kalyan Chaubey
B. Sunil Chhetri
C. Ranjit Bajaj
D. Karan Yadav
E. None of the above

24. India played its first-ever men's T20 International against which country in September 2026?

A. Japan
B. Netherlands
C. USA
D. Nepal
E. None of the above

25. India's first fully commercial Earth-observation constellation, approved by IN-SPACe in 2026, will have how many satellites?

A. 100
B. 4
C. 12
D. 24
E. None of the above

SECTION IV | 10 MARKS

Logical Reasoning

26. P provides premises (₹6,00,000); Q and R put in ₹3,00,000 and ₹5,00,000 cash. P gets rent of ₹5,000 a month; Q and R get 10% interest on capital; the rest is shared 3 : 2 : 5. If Q's total earning is ₹70,000, what was the gross profit?

A. ₹3,40,000
B. ₹3,20,000
C. ₹3,80,000
D. ₹2,90,000
E. None of the above

27. Find the smallest number which leaves remainder 7 when divided by 12, 18, 21 or 30.

A. 427
B. 4277
C. 1067
D. 1267
E. None of the above

28. Identify the next term: 1, 2, 6, 42, 1806, …

A. 3263430
B. 3263443
C. 3263442
D. 3263421
E. None of the above

29. What day of the week was 15 August 1947?

A. Wednesday
B. Thursday
C. Friday
D. Saturday
E. None of the above

30. What is the profit per cent on an article? I. 5% discount is given on the list price. II. Without the discount, the profit would be 20%. III. The cost price is ₹5,000. Which statements are necessary?

A. Only I and II
B. Only II and III
C. Only I and III
D. All I, II and III
E. None of the above

31. Is the average age of a school's students less than 17? I. Class VIII is under 25% of the school. II. Class VIII averages 18 years; the rest average 16.

A. I alone is sufficient
B. II alone is sufficient
C. Either alone is sufficient
D. Both together are needed
E. None of the above

32. Who is the fastest of Rani, Supriya and Amita (all different)? I. Rani and Supriya take 5 days; Supriya and Amita take 10 days. II. Rani and Amita take 30/7 days.

A. I alone is sufficient
B. II alone is sufficient
C. Either alone
D. Both are needed
E. None of the above

33. Piky, Quiky and Riky alone finish an assignment in 7, 8 and 11 days. Together they earn 1,105 coins. Find each share.

A. 440, 385, 280
B. 445, 375, 285
C. 446, 381, 278
D. 500, 400, 205
E. None of the above

34. Karan beats Arjun by 10 m in a 100 m race. In a second race Karan starts 10 m behind the line. What happens?

A. They finish together
B. Arjun wins by 1 m
C. Arjun wins by 11 m
D. Karan wins by 1 m
E. None of the above

35. In an x m race, Chaupat beats Popat by 18 m and Sarpat by 24 m; Popat beats Sarpat by 8 m. Find x.

A. 54
B. 48
C. 90
D. 72
E. None of the above

SECTION V | 25 MARKS

Core: Full syllabus (Topics 1 to 10)

36. In the sixth edition of the Organon Hahnemann preferred the term:

A. Archeus
B. nerve fluid
C. humours
D. vital principle (Lebensprinzip)
E. None of the above

37. Hahnemann (§246, sixth edition) allows repetition of the remedy at suitable intervals provided that:

A. each dose is given unchanged in the same potency
B. only placebo is given in between
C. each dose is slightly modified in potency (by succussion) so the vital force does not resist it
D. the remedy is changed each time
E. None of the above

38. Hahnemann's 'Lesser Writings' were collected and translated into English by:

A. J. T. Kent
B. William Boericke
C. Constantine Hering
D. R. E. Dudgeon
E. None of the above

39. An organ remedy used in mother tincture for left-sided splenic enlargement and pain is:

A. Crataegus
B. Chelidonium
C. Ceanothus americanus
D. Berberis
E. None of the above

40. Eruptions with thick, hard crusts under which yellow pus collects, intense itching, and neuralgia after herpes zoster suggest:

A. Graphites
B. Sulphur
C. Rhus tox
D. Mezereum
E. None of the above

41. Profuse sweat on the head of a fat, flabby child is Calcarea carb. A child who is thin, emaciated about the neck, with a craving for salt and a map-like tongue, needs:

A. Natrum muriaticum
B. Calcarea carb
C. Silicea
D. Sulphur
E. None of the above

42. The constitutional remedy of the hydrogenoid constitution (worse from damp) is:

A. Natrum mur
B. Sulphur
C. Phosphorus
D. Natrum sulphuricum
E. None of the above

43. A 6C potency represents a dilution of the original substance of:

A. 1 in 10^6
B. 1 in 10^12
C. 1 in 6,000
D. 1 in 600
E. None of the above

44. In the Korsakovian method of potentisation:

A. the same vial is used throughout, emptied and refilled with fresh vehicle at each step
B. a new vial is used for each potency
C. potencies are made only by trituration
D. the dilution is 1 in 50,000 at each step
E. None of the above

45. Gentry's 'Concordance Repertory' is arranged on the pattern of:

A. anatomical schema
B. a Bible concordance, by key words
C. miasms
D. Kent's chapters
E. None of the above

46. Barthel and Klunker's 'Synthetic Repertory' covers mainly:

A. Skin and Extremities
B. Mind, Generalities, and Sleep, Dreams and Sexuality
C. Fevers only
D. Clinical conditions
E. None of the above

47. Antidiuretic hormone acts mainly on the:

A. Proximal tubule
B. Collecting ducts
C. Glomerulus
D. Bladder
E. None of the above

48. Cortisol is secreted by the adrenal cortex zone called:

A. zona glomerulosa
B. zona reticularis
C. zona fasciculata
D. medulla
E. None of the above

49. Dry gangrene usually results from:

A. venous obstruction
B. bacterial infection
C. burns only
D. arterial occlusion
E. None of the above

50. The erythrocyte sedimentation rate (ESR) is typically very high in:

A. Polycythaemia
B. Multiple myeloma and tuberculosis
C. Sickle cell anaemia
D. Congestive heart failure
E. None of the above

51. COPD is confirmed on spirometry by a post-bronchodilator FEV1/FVC ratio of less than:

A. 0.90
B. 0.50
C. 0.30
D. 0.70
E. None of the above

52. Renal colic, worse on the left, with pains radiating in all directions and bubbling sensations in the kidney, suggests:

A. Berberis vulgaris
B. Cantharis
C. Lycopodium
D. Sarsaparilla
E. None of the above

53. Asthma that is worse in damp weather and at 4–5 a.m., with loose rattling and morning diarrhoea, suggests:

A. Arsenicum
B. Natrum sulphuricum
C. Kali carb
D. Ipecac
E. None of the above

54. Most children's first milk tooth erupts at about:

A. 6 months
B. 2 months
C. 12 months
D. 18 months
E. None of the above

55. The two most important danger signs in a child with cough or difficult breathing are fast breathing and:

A. mild cold
B. runny nose
C. chest indrawing
D. sneezing
E. None of the above

56. Pain and tenderness in the right iliac fossa at McBurney's point suggest:

A. Ureteric colic
B. Cholecystitis
C. Acute appendicitis
D. Hernia
E. None of the above

57. A painful hard swelling of the knee in an elderly person, worse after use, with crepitus, most likely indicates:

A. Osteoarthritis
B. Rheumatoid arthritis
C. Gout
D. Septic arthritis
E. None of the above

58. Under Indian criminal law, consent for a medical procedure given by a child under 12 years is:

A. valid if the child agrees
B. valid only in emergencies
C. valid if written
D. not valid; consent of the parent or guardian is required
E. None of the above

59. A 'sentinel surveillance' system is used mainly to:

A. detect trends in diseases through selected reporting sites
B. treat cases
C. provide vaccines
D. count births
E. None of the above

60. The 'iceberg phenomenon' of disease refers to:

A. most cases of a disease being hidden (subclinical or undiagnosed) below the visible clinical cases
B. icy weather diseases
C. only fatal cases
D. a vaccine side effect
E. None of the above

11	**A**	23	**D**	35	**A**	47	**B**	59	**C**
12	**C**	24	**D**	36	**D**	48	**D**	60	**B**

Explanations

English (Comprehension)

1 **B** **a spiritual and holistic discipline**
Postures, breathing and meditation with “holistic well-being” beyond the physical. Passage: GPSC CBRT (Associate Professor in Pharmacology), Sep 2026.

2 **C** **Commercialization may reduce it to exercise**
Commercialisation “risks reducing yoga to mere exercise”. Passage: GPSC CBRT (Associate Professor in Pharmacology), Sep 2026.

3 **B** **physical and mental health benefits**
Flexibility, heart health, stress and cognition. Passage: GPSC CBRT (Associate Professor in Pharmacology), Sep 2026.

4 **B** **It serves both therapeutic and cultural purposes**
“Both a therapeutic practice and a symbol of cultural heritage.” Passage: GPSC CBRT (Associate Professor in Pharmacology), Sep 2026.

5 **A** **analytical and balanced**
Benefits and risks are both weighed. Passage: GPSC CBRT (Associate Professor in Pharmacology), Sep 2026.

6 **B** **deep environmental damage, including degraded soil and depleted aquifers**
Second sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

7 **B** **precision farming with IoT sensors and climate-resilient crop varieties**
Fourth sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

English (Comprehension)

8	**B**	**high technology costs and lack of credit** Fifth sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.
9	**C**	**fair technology distribution, localised insurance and seed sovereignty** Last sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.
10	**B**	**balancing higher production with ecological sustainability and smallholder equity** The opening sets the dual goal; the ending adds equity for small farmers. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

English Grammar

11	**A**	**No sooner had the bell rung than the students rushed out.** 'No sooner' takes inversion (had + subject + past participle) and pairs with 'than'. GPSC-style practice item, modelled on the 2026 grammar blocks.
12	**C**	**are** The subject is 'list' (singular): 'is displayed'. GPSC-style practice item, modelled on the 2026 grammar blocks.
13	**D**	**has been working** An action from a past point continuing now, with 'since': present perfect (continuous). GPSC-style practice item, modelled on the 2026 grammar blocks.
14	**B**	**Seldom have I met so honest an officer.** Negative adverbs (seldom, never, rarely) at the start take auxiliary + subject. GPSC-style practice item, modelled on the 2026 grammar blocks.
15	**D**	**for** Use 'since' with a point of time (2019); 'for' with a period (five years). GPSC-style practice item, modelled on the 2026 grammar blocks.

General Knowledge / Current Affairs of India and Goa

16	**A**	**Marco Rubio** Oct 2026.
17	**C**	**Economic Corridor** Announced at the G20 New Delhi summit, 2023.
18	**A**	**The Union Finance Minister** State finance ministers are members. Article 279A.
19	**C**	**21 September** 10 December is Human Rights Day.
20	**D**	**Rajasthan** Goa is the smallest.
21	**A**	**Narmada** In Gujarat.

General Knowledge / Current Affairs of India and Goa

22 **C** **Sutlej**
Gobind Sagar is its reservoir.

23 **D** **USA**
An army exercise.

24 **D** **Quit India Movement**
2026 was its 84th anniversary.

25 **B** **Hockey**
Sep 2026.

Logical Reasoning

26 **A** **QBOBKJ**
Each letter moves one place forward: P-Q, A-B, N-O, A-B, J-K, I-J.

27 **C** **U**
The gaps grow by one each time: +2, +3, +4, +5, then +6. O is the 15th letter, so the next is the 21st, U.

28 **A** **191**
Each term is double the previous one plus 1: 95 x 2 + 1 = 191.

29 **A** **37**
The terms are 1, 2, 3, 4, 5 squared plus 1. The next is 6 squared plus 1 = 37.

30 **A** **2160**
The multipliers are 2, 3, 4, 5, then 6: 360 x 6 = 2160.

31 **B** **40**
The amounts subtracted are 4, 8, 12, 16, then 20: 60 - 20 = 40.

32 **D** **17**
These are the prime numbers in order. The next prime after 13 is 17.

33 **A** **21**
Each term is the sum of the two before it: 8 + 13 = 21.

34 **B** **81**
The differences are 5, 10, 15, 20, then 25: 56 + 25 = 81.

35 **A** **65**
Each term is double the previous one minus 1: 33 x 2 - 1 = 65.

Core: Full syllabus (Topics 1 to 10)

36 **D** **Cinchona bark**
Topic 1, Organon and Philosophy. While translating Cullen's Materia Medica in 1790 he took cinchona himself and developed symptoms like intermittent fever.

37 **A** **Hering's law of cure**
Topic 1, Organon and Philosophy. Constantine Hering described this direction of cure.

Core: Full syllabus (Topics 1 to 10)

38 **B** **Isopathy**
Topic 1, Organon and Philosophy. Hahnemann discussed isopathy in a note to §56 and did not accept it as true homoeopathy.

39 **A** **provings of drugs on healthy human beings**
Materia Medica is built chiefly from provings on healthy people, supplemented by toxicology and clinical observation.

40 **D** **heart**
Topic 2, Materia Medica. A heart tonic in clinical organ therapeutics.

41 **D** **the first stage of inflammations and fevers, before exudation**
Topic 2, Materia Medica. Ferrum phos: early inflammatory stage, haemorrhagic tendency.

42 **B** **Thuja occidentalis**
Topic 2, Materia Medica. Thuja's fixed ideas and sensation of something alive in the abdomen.

43 **C** **gonorrhoeal discharge**
Topic 3, Pharmacy. Psorinum = scabies vesicle; Syphilinum = chancre; Tuberculinum = TB material.

44 **B** **when required**
Topic 3, Pharmacy. Pro re nata.

45 **A** **Concomitant**
The four elements of a complete symptom.

46 **A** **Mind**
Topic 4, Repertory. All mental symptoms are under Mind.

47 **B** **Radial nerve**
The radial nerve supplies the wrist extensors; it is often injured in shaft-of-humerus fractures.

48 **D** **500 mL**
Topic 5, Anatomy and Physiology. About 150 mL of it is anatomical dead space.

49 **D** **Tuberculosis**
Cheese-like necrosis within granulomas.

50 **A** **iron-deficiency anaemia**
Topic 6, Pathology, Microbiology and Diagnostics. Leukonychia points to hypoalbuminaemia (GPSC Medical Officer, 2024).

51 **C** **140/90 mmHg**
Confirmed on repeated readings.

52 **D** **low TSH**
Topic 7, Practice of Medicine. Suppressed TSH with raised T3 and T4.

53 **D** **Irritable bowel syndrome**
Topic 7, Practice of Medicine. Rome IV criteria for IBS; a functional disorder.

Core: Full syllabus (Topics 1 to 10)

54	**D**	**thelarche (breast budding)** Topic 8, Obstetrics, Gynaecology and Paediatrics. Thelarche usually comes first; menarche comes about 2 years later.
55	**D**	**oedema** Topic 8, Obstetrics, Gynaecology and Paediatrics. Oedema is the hallmark of kwashiorkor.
56	**B**	**securing the airway (with cervical spine protection)** Topic 9, Surgery, ENT, Eye and First Aid. ABC: airway first.
57	**C**	**Arnica montana** Topic 9, Surgery, ENT, Eye and First Aid. Arnica is the trauma remedy for blunt injury and shock.
58	**B**	**Health for All through primary health care** Topic 10, Community and Forensic Medicine, Ethics. Primary health care as the key.
59	**C**	**new cases occurring in a defined period** Topic 10, Community and Forensic Medicine, Ethics. Prevalence counts all existing cases.
60	**B**	**1,000 live births in the year** Topic 10, Community and Forensic Medicine, Ethics. A sensitive indicator of community health.

ANSWERS

Easy Test 2: answer key

1	**A**	13	**A**	25	**D**	37	**D**	49	**C**
2	**B**	14	**A**	26	**D**	38	**D**	50	**D**
3	**D**	15	**B**	27	**A**	39	**B**	51	**C**
4	**A**	16	**D**	28	**B**	40	**B**	52	**A**
5	**C**	17	**A**	29	**B**	41	**A**	53	**B**
6	**A**	18	**B**	30	**C**	42	**C**	54	**C**
7	**B**	19	**A**	31	**A**	43	**C**	55	**A**
8	**D**	20	**C**	32	**C**	44	**D**	56	**B**
9	**C**	21	**C**	33	**D**	45	**A**	57	**A**
10	**A**	22	**D**	34	**D**	46	**B**	58	**C**
11	**D**	23	**B**	35	**C**	47	**D**	59	**A**
12	**A**	24	**C**	36	**C**	48	**D**	60	**A**

Explanations

English (Comprehension)

1 **A** **Studying life's potential beyond Earth by combining several sciences**
Detail: it 'integrates astronomy, biology, and geology'. Passage: GPSC CBRT (Scientific Assistant cum Photographer), Sep 2025.

2 **B** **They show life can exist in harsh environments**
Inference: they 'expand the conceivable habitats where life might exist'. Passage: GPSC CBRT (Scientific Assistant cum Photographer), Sep 2025.

3 **D** **The contradiction between probable alien civilizations and the lack of contact**
Detail: defined in the sixth sentence. Passage: GPSC CBRT (Scientific Assistant cum Photographer), Sep 2025.

4 **A** **Human preference for solitude**
NOT question: the other three are listed. Passage: GPSC CBRT (Scientific Assistant cum Photographer), Sep 2025.

5 **C** **Initiatives like SETI and upcoming space missions**
Detail: the last sentence. Passage: GPSC CBRT (Scientific Assistant cum Photographer), Sep 2025.

6 **A** **Conceals or transforms waste rather than reducing its volume.**
Detail: 'merely conceal or transform garbage rather than eliminating its volume'. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

English (Comprehension)

7	**B**	**Engineering products from the start for durability, easy disassembly and recycling.** Detail: the 'upstream' transformation in the fourth sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.
8	**D**	**Bear the end-of-life environmental costs of their products.** Detail: 'internalize the end-of-life environmental costs of their goods'. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.
9	**C**	**Formalizing and protecting informal waste workers.** Detail: the sixth sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.
10	**A**	**Ensure economic growth no longer depends on consuming finite resources.** Main idea: 'decoupling of industrial economic growth from finite resource consumption'. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

English Grammar

11	**D**	**He is said to be honest.** Report-verb passive: subject + is said + to-infinitive. GPSC-style practice item, modelled on the 2026 grammar blocks.
12	**A**	**My bag has been stolen.** Present perfect passive: has been + past participle; drop 'someone'. GPSC-style practice item, modelled on the 2026 grammar blocks.
13	**A**	**He said that he was tired.** Reporting verb in the past: am → was; I → he. GPSC-style practice item, modelled on the 2026 grammar blocks.
14	**A**	**She asked me where I lived.** Reported questions use statement word order and no 'that'. GPSC-style practice item, modelled on the 2026 grammar blocks.
15	**B**	**friend** 'One of' takes a plural noun: 'one of my friends'. GPSC-style practice item, modelled on the 2026 grammar blocks.

General Knowledge / Current Affairs of India and Goa

16	**D**	**Mandovi** On the Goa–Karnataka border.
17	**A**	**Kerala** In the Nilgiri Biosphere Reserve.
18	**B**	**Assam** A UNESCO World Heritage Site.
19	**A**	**1757** Robert Clive defeated Siraj-ud-Daulah.

General Knowledge / Current Affairs of India and Goa

20 **C** **fisheries sector**
Sep 2026.

21 **C** **Scotland**
Ahmedabad hosts the 2030 Games, India's second after Delhi 2010.

22 **D** **5 October**
India's own Teachers' Day is 5 September.

23 **B** **8 October**
The IAF was founded on 8 October 1932.

24 **C** **ohm**
Static science.

25 **D** **11 October**
National Girl Child Day in India is 24 January.

Logical Reasoning

26 **D** **Grandchild**
E is the mother of B, and B is the mother of C, so C is E's grandchild. Nothing in the statement tells us whether C is male or female.

27 **A** **District**
A Mamlatdar heads the revenue administration of a taluka; a Collector heads that of a district.

28 **B** **IRUW**
Each letter moves three places forward: F-I, O-R, R-U, T-W.

29 **B** **DIBJS**
Each letter moves one place forward: C-D, H-I, A-B, I-J, R-S.

30 **C** **46**
G = 14, O = 30, A = 2, and 14 + 30 + 2 = 46.

31 **A** **W**
The fifteenth letter is O. Eight places on is the twenty-third letter, W.

32 **C** **EV**
The first letter moves forward and the second moves backward: E and V.

33 **D** **Kerala**
Konkani is the official language of Goa; Malayalam of Kerala.

34 **D** **HJL**
Each letter moves one place forward: G-H, I-J, K-L.

35 **C** **UBMVLB**
Each letter moves one place forward: T-U, A-B, L-M, U-V, K-L, A-B.

Core: Full syllabus (Topics 1 to 10)

36	**C**	**Psora** Topic 1, Organon and Philosophy. Psora is the chronic miasm whose primary outward sign is the itch (scabies-like) eruption.
37	**D**	**Antipathy (enantiopathy)** Topic 1, Organon and Philosophy. Hahnemann discussed it in §§57–60; relief is followed by worsening.
38	**D**	**Sycosis** Topic 1, Organon and Philosophy. Sycosis: infiltration and overgrowth (warts, condylomata).
39	**B**	**Silicea** Silicea is the chronic of Pulsatilla. The two share a yielding, mild temperament and similar discharges.
40	**B**	**Veratrum album** Topic 2, Materia Medica. Veratrum album: cold sweat on the forehead, collapse.
41	**A**	**Ignatia amara** Topic 2, Materia Medica. Ignatia: paradoxical symptoms, acute grief.
42	**C**	**Dulcamara** Topic 2, Materia Medica. Dulcamara: diarrhoea, rheumatism and skin complaints from damp cold.
43	**C**	**before meals** Topic 3, Pharmacy. Ante cibum; p.c. = after meals.
44	**D**	**Purified alcohol (strong alcohol or dispensing alcohol)** Topic 3, Pharmacy. Alcohol of the strength laid down in the HPI.
45	**A**	**Bold capitals** Three grades: bold (3 marks), italics (2), roman (1).
46	**B**	**Repertorisation** Topic 4, Repertory. It narrows the remedies to a few for study in the materia medica.
47	**D**	**Common peroneal (fibular) nerve** It winds around the neck of the fibula and supplies the dorsiflexors.
48	**D**	**Parathormone** Topic 5, Anatomy and Physiology. It raises serum calcium.
49	**C**	**Neutrophils** Neutrophils dominate the first 6–24 hours.
50	**D**	**rabies** Topic 6, Pathology, Microbiology and Diagnostics. In the hippocampus and Purkinje cells.
51	**C**	**Stable angina pectoris** MI pain lasts longer than 20 minutes and is not relieved by rest.

Core: Full syllabus (Topics 1 to 10)

52	**A**	**Apis mellifica** Topic 7, Practice of Medicine. Apis: oedematous, stinging wheals, thirstless, better from cold.
53	**B**	**7%** Topic 7, Practice of Medicine. Targets are individualised; 7% suits most adults.
54	**C**	**Polycystic ovarian disease (PCOD)** Topic 8, Obstetrics, Gynaecology and Paediatrics. Rotterdam criteria: two of anovulation, hyperandrogenism, polycystic ovaries.
55	**A**	**Leiomyoma (fibroid)** Topic 8, Obstetrics, Gynaecology and Paediatrics. Fibroids are smooth-muscle tumours; they cause menorrhagia and infertility.
56	**B**	**Ledum palustre** Topic 9, Surgery, ENT, Eye and First Aid. Ledum: puncture wounds, insect bites; cold yet better by cold.
57	**A**	**Symphytum officinale** Topic 9, Surgery, ENT, Eye and First Aid. Symphytum ('knitbone') promotes union of fractures.
58	**C**	**understands the nature, risks and alternatives of the procedure and agrees voluntarily** Topic 10, Community and Forensic Medicine, Ethics. Consent must be informed, voluntary and given by a competent person.
59	**A**	**Medical negligence** Topic 10, Community and Forensic Medicine, Ethics. Duty, breach, damage and causation.
60	**A**	**Mean** Topic 10, Community and Forensic Medicine, Ethics. The median is resistant to outliers.

ANSWERS

Easy Test 3: answer key

1	**A**	13	**B**	25	**D**	37	**D**	49	**C**
2	**B**	14	**C**	26	**B**	38	**A**	50	**D**
3	**D**	15	**D**	27	**D**	39	**A**	51	**C**
4	**C**	16	**A**	28	**A**	40	**A**	52	**B**
5	**A**	17	**B**	29	**D**	41	**C**	53	**D**
6	**A**	18	**C**	30	**B**	42	**A**	54	**D**
7	**C**	19	**D**	31	**B**	43	**D**	55	**A**

9	**D**	21	**B**	33	**D**	45	**C**	57	**C**
10	**D**	22	**A**	34	**A**	46	**C**	58	**D**
11	**A**	23	**B**	35	**A**	47	**B**	59	**A**
12	**D**	24	**A**	36	**B**	48	**D**	60	**D**

Explanations

English (Comprehension)

1 **A** **Discount brokerages and mobile investment apps.**
Detail: the first sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

2 **B** **Domestic savings flowing into equity and providing capital to enterprises.**
Detail: the second sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

3 **D** **A speculative playground driven by social-media advice.**
Detail: the fourth sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

4 **C** **made open and accessible to ordinary people**
Vocabulary in context: once 'dominated by institutional elites', it is now open to retail investors. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

5 **A** **Regulating financial influencers and adding risk-disclosure tools to apps.**
Detail: the last sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

6 **A** **body language**
Detail: 'Depending on what this [body language] speaks you would get a red-carpet welcome or rejection'. Passage: GPSC CBRT (Assistant Public Prosecutor), Jun 2025.

English (Comprehension)

7	**C**	**proper body conduct** Detail: 'In a tradition-ruled country like India, body conduct has an important relevance'. Passage: GPSC CBRT (Assistant Public Prosecutor), Jun 2025.
8	**A**	**red-carpet welcome** Vocabulary from the passage. Passage: GPSC CBRT (Assistant Public Prosecutor), Jun 2025.
9	**D**	**a conversational partner** Vocabulary: the person you are speaking with. Passage: GPSC CBRT (Assistant Public Prosecutor), Jun 2025.
10	**D**	**Both are true** Both are stated: 'know where you stand' and 'know the requirements of different situations, time and place'. Passage: GPSC CBRT (Assistant Public Prosecutor), Jun 2025.

English Grammar

11	**A**	**must** 'Must' expresses obligation. GPSC-style practice item, modelled on the 2026 grammar blocks.
12	**D**	**will postpone** First conditional: if + present, will + verb. GPSC-style practice item, modelled on the 2026 grammar blocks.
13	**B**	**of** 'Fond of'. GPSC-style practice item, modelled on the 2026 grammar blocks.
14	**C**	**are** 'Neither of' takes a singular verb: 'is correct'. GPSC-style practice item, modelled on the 2026 grammar blocks.
15	**D**	**The results will be announced by the committee tomorrow.** Future passive: will be + past participle. GPSC-style practice item, modelled on the 2026 grammar blocks.

General Knowledge / Current Affairs of India and Goa

16	**A**	**A. O. Hume** W. C. Bonnerjee presided over the first session in Bombay.
17	**B**	**M. Visvesvaraya** Static.
18	**C**	**Sabarmati Ashram** Against the salt tax.
19	**D**	**Na** From the Latin 'natrium'.
20	**B**	**WWF** Oct 2026.

General Knowledge / Current Affairs of India and Goa

21 **B** **B. R. Ambedkar**
Rajendra Prasad was President of the Constituent Assembly.

22 **A** **rooftop solar for households**
Aug 2026.

23 **B** **Sardar Vallabhbhai Patel**
Observed since 2014.

24 **A** **Mars**
India's Mangalyaan reached Mars orbit in 2014.

25 **D** **2**
North Goa and South Goa. Goa has 40 assembly seats and 1 Rajya Sabha seat.

Logical Reasoning

26 **B** **15 km**
The two legs are at right angles, so the distance is the hypotenuse: the square root of 81 + 144 = 225, which is 15 km.

27 **D** **Mother**
His mother's father is his maternal grandfather. That man's only daughter is Rohan's mother.

28 **A** **Pressure**
An odometer measures distance travelled; a barometer measures atmospheric pressure.

29 **D** **Cotton**
Rice, wheat and maize are cereal grains. Cotton is a fibre crop.

30 **B** **Gallery**
Books are kept and shown in a library; paintings in a gallery.

31 **B** **Husband**
The only daughter of her father is the woman herself, so the man is her husband.

32 **B** **13 km**
The two legs are at right angles: the square root of 144 + 25 = 169, which is 13 km.

33 **D** **Municipal Corporation**
A Sarpanch heads a Panchayat; a Mayor heads a Municipal Corporation.

34 **A** **56**
The terms are 1x2, 2x3, 3x4 and so on. The next is 7 x 8 = 56.

35 **A** **216**
These are the cubes of 2, 3, 4 and 5. The next is 6 cubed, 216.

Core: Full syllabus (Topics 1 to 10)

36 **B** **a chronic miasm**
Topic 1, Organon and Philosophy. Psora, sycosis or syphilis.

Core: Full syllabus (Topics 1 to 10)

37	**D**	**Syphilis** Topic 1, Organon and Philosophy. Syphilis: destruction and ulceration, night aggravation.
38	**A**	**the vital force** Topic 1, Organon and Philosophy. The spirit-like power animating the body.
39	**A**	**Bryonia alba** Bryonia is worse from any motion and better from pressure. Rhus tox has the opposite modality, better from continued motion.
40	**A**	**Sepia** Topic 2, Materia Medica. Sepia: bearing down, indifference to loved ones.
41	**C**	**China officinalis** Topic 2, Materia Medica. China: weakness from loss of fluids.
42	**A**	**Bryonia alba** Topic 2, Materia Medica. Bryonia: large drinks at long intervals.
43	**D**	**Cane sugar (sucrose)** Topic 3, Pharmacy. Sugar-of-milk is used for triturations and tablets; globules are cane sugar.
44	**A**	**1:9 (one part in ten)** Topic 3, Pharmacy. One part drug to nine parts vehicle.
45	**C**	**Mind and Generalities** The repertory runs from Mind to Generalities.
46	**C**	**a heading under which remedies producing that symptom are listed** Topic 4, Repertory. The basic unit of a repertory.
47	**B**	**Ulnar nerve** Ulnar claw from paralysis of the interossei and medial lumbricals.
48	**D**	**stroke volume × heart rate** Topic 5, Anatomy and Physiology. About 5 L/min at rest.
49	**C**	**Dolor** Virchow later added loss of function.
50	**D**	**sandfly (Phlebotomus)** Topic 6, Pathology, Microbiology and Diagnostics. Leishmania donovani; LD bodies in splenic aspirate.
51	**C**	**Troponin** Cardiac troponin I or T.
52	**B**	**Streptococcus pneumoniae** Topic 7, Practice of Medicine. The pneumococcus.
53	**D**	**Acute cholecystitis** Topic 7, Practice of Medicine. Murphy's sign is the classic sign of acute cholecystitis.

Core: Full syllabus (Topics 1 to 10)

54	**D**	**rotavirus** Topic 8, Obstetrics, Gynaecology and Paediatrics. Rotavirus vaccine is in India's UIP.
55	**A**	**full dilatation of the cervix** Topic 8, Obstetrics, Gynaecology and Paediatrics. First stage: from true labour pains to full dilatation.
56	**D**	**Staphysagria** Topic 9, Surgery, ENT, Eye and First Aid. Staphysagria: clean-cut wounds and post-operative pain.
57	**C**	**Second degree** Topic 9, Surgery, ENT, Eye and First Aid. Full-thickness burns are painless and need grafting.
58	**D**	**gravitational pooling of blood in dependent parts** Topic 10, Community and Forensic Medicine, Ethics. Begins within about 1–2 hours of death.
59	**A**	**find a common remedy for most cases in an epidemic** Topic 10, Community and Forensic Medicine, Ethics. Found by studying the symptoms of several cases.
60	**D**	**yellow bag** Topic 10, Community and Forensic Medicine, Ethics. Yellow category: anatomical, soiled and chemical waste for incineration.

ANSWERS

Intermediate Test 1: answer key

1	**C**	13	**C**	25	**D**	37	**A**	49	**D**
2	**B**	14	**A**	26	**C**	38	**D**	50	**C**
3	**B**	15	**B**	27	**B**	39	**B**	51	**A**
4	**B**	16	**D**	28	**C**	40	**A**	52	**C**
5	**C**	17	**C**	29	**D**	41	**A**	53	**C**
6	**C**	18	**C**	30	**B**	42	**B**	54	**C**
7	**B**	19	**C**	31	**C**	43	**B**	55	**A**
8	**A**	20	**D**	32	**B**	44	**B**	56	**C**
9	**B**	21	**B**	33	**B**	45	**B**	57	**B**
10	**B**	22	**A**	34	**B**	46	**B**	58	**D**
11	**C**	23	**A**	35	**B**	47	**A**	59	**C**
12	**C**	24	**D**	36	**B**	48	**B**	60	**B**

Explanations

English (Comprehension)

1 **C** **Encouraging flexible and skill-oriented education**
First sentence. Passage: GPSC CBRT (Assistant Farm Manager), May 2026.

2 **B** **Lack of rural infrastructure and digital access**
Fifth sentence. Passage: GPSC CBRT (Assistant Farm Manager), May 2026.

3 **B** **seeks to reduce dependence on memorization-based learning**
NEP is set against earlier rote-based systems. Passage: GPSC CBRT (Assistant Farm Manager), May 2026.

4 **B** **Teacher training will play a crucial role in NEP success**
Success depends on “teacher preparedness”. Passage: GPSC CBRT (Assistant Farm Manager), May 2026.

5 **C** **balanced with cautious optimism**
Ambitious reform, with real implementation concerns. Passage: GPSC CBRT (Assistant Farm Manager), May 2026.

6 **C** **Weakening savings habits among youngsters**
Third sentence sets the concern. Passage: GPSC CBRT (Professor, Livestock Production and Management), May 2026.

7 **B** **promotion of consumption-oriented lifestyles**
It promotes “luxury lifestyles and instant gratification”. Passage: GPSC CBRT (Professor, Livestock Production and Management), May 2026.

English (Comprehension)

8	**A**	**Financial literacy can positively influence long-term economic behaviour** Programmes on budgeting and saving are offered because literacy changes behaviour. Passage: GPSC CBRT (Professor, Livestock Production and Management), May 2026.
9	**B**	**Financial education has become increasingly important in modern society** Institutions have begun introducing such programmes. Passage: GPSC CBRT (Professor, Livestock Production and Management), May 2026.
10	**B**	**immediate satisfaction of desires** Gratification = satisfaction; instant = immediate. Passage: GPSC CBRT (Professor, Livestock Production and Management), May 2026.

English Grammar

11	**C**	**have** 'Each of' takes a singular verb: 'has been given'. GPSC-style practice item, modelled on the 2026 grammar blocks.
12	**C**	**If he had left earlier, he would have caught the train.** Third conditional: if + past perfect, would have + past participle. Never 'would have' in the if-clause. GPSC-style practice item, modelled on the 2026 grammar blocks.
13	**C**	**is** With either/or, the verb agrees with the nearer subject ('officers'): 'are'. GPSC-style practice item, modelled on the 2026 grammar blocks.
14	**A**	**am knowing** 'Know' is a stative verb, and 'since' needs the present perfect: 'I have known'. GPSC-style practice item, modelled on the 2026 grammar blocks.
15	**B**	**knew** 'Wish' about the present takes the past form (subjunctive). GPSC-style practice item, modelled on the 2026 grammar blocks.

General Knowledge / Current Affairs of India and Goa

16	**D**	**Keralam** Kerala Alteration of Name Bill, 2026. A state's name is changed by a Parliament law under Article 3. Aug 2026.
17	**C**	**rural self-help groups** Organised under the Ministry of Rural Development. Oct 2026.
18	**C**	**Vande Mataram** Passed in August 2026, the 150th year of the song.
19	**C**	**13th** Second only to Jawaharlal Nehru's 17. Aug 2026.
20	**D**	**17 September** The 2026 theme focused on safe care for noncommunicable diseases.

General Knowledge / Current Affairs of India and Goa

21	**B**	**Andhra Pradesh** Vizianagaram district, Andhra Pradesh. Commercial operations began on 17 August 2026.
22	**A**	**India** Announced Sep 2026.
23	**A**	**North-East India** Chess.
24	**D**	**Lord's** 2026.
25	**D**	**6 crore** Raised in 2026.

Logical Reasoning

26	**C**	**100** The differences double each time: 3, 6, 12, 24, then 48. So 52 + 48 = 100.
27	**B**	**51** P 16 + A 1 + N 14 + A 1 + J 10 + I 9 = 51.
28	**C**	**5 km north-east** He ends 3 km east and 4 km north of the start. The straight-line distance is 5 km, to the north-east.
29	**D**	**South** After sunrise shadows fall to the west. If west is to his right, he is facing south.
30	**B**	**46** 31 × 16 = 496; 30 × 15 = 450; teacher = 46. GPSC CBRT, Sep 2025.
31	**C**	**JPN** The letters move forward by 1, 2 and 3 places: I-J, N-P, K-N.
32	**B**	**RMWRZ** I-R, N-M, D-W, I-R, A-Z.
33	**B**	**50** After substitution: 8 x 6 - 12 / 4 + 5 = 48 - 3 + 5 = 50.
34	**B**	**ko** 'pa' is sun (first and third phrases) and 'ti' is east (first and second), so the remaining word 'ko' is rises.
35	**B**	**F** The steps back are 2, 3, 4, 5, then 6. L is the 12th letter, so the next is the 6th, F.

Core: Full syllabus (Topics 1 to 10)

36	**B**	**the spirit-like vital force (dynamis)** Topic 1, Organon and Philosophy. §9: in health the spirit-like vital force (dynamis) rules with unbounded sway and keeps all parts in harmonious operation.
37	**A**	**the outwardly reflected image of the inner essence of the disease** Topic 1, Organon and Philosophy. §7: the totality must be the principal, indeed the only, thing the physician has to take note of in every case.
38	**D**	**dynamic, spirit-like influences** Topic 1, Organon and Philosophy. §16: being spirit-like, it can be deranged and restored only by dynamic influences.
39	**B**	**Constantine Hering** Constantine Hering's Guiding Symptoms runs to ten volumes. Kent wrote the Lectures on Homoeopathic Materia Medica, Boericke the Pocket Manual and Allen the Keynotes.
40	**A**	**Cannabis indica** Topic 2, Materia Medica. Cannabis indica: errors of time and space, exaltation.
41	**A**	**Iodium** Topic 2, Materia Medica. Iodium: hungry, hot, restless and emaciated; hyperthyroid picture.
42	**B**	**Magnesia carbonica** Topic 2, Materia Medica. Magnesia carb: sourness of the whole body.
43	**B**	**the venom of the bushmaster snake** Topic 3, Pharmacy. Lachesis muta, the South American bushmaster.
44	**B**	**Imponderabilia** Topic 3, Pharmacy. Imponderabilia are 'weightless' energies: X-ray, magnetism, sunlight, electricity.
45	**B**	**7** Mind, parts of body, sensations, sleep and dreams, fever, modalities (alterations of the state of health) and relationship of remedies.
46	**B**	**Stomach** Topic 4, Repertory. Food desires and aversions are rubrics under Stomach in Kent.
47	**A**	**Modified hinge (synovial) joint** A synovial hinge with some rotation.
48	**B**	**the upper trunk of the brachial plexus (C5–C6)** Topic 5, Anatomy and Physiology. Klumpke's palsy is the lower trunk (C8–T1).
49	**D**	**Nuclear changes such as karyolysis and pyknosis** Swelling and fatty change are reversible.
50	**C**	**Hodgkin lymphoma** Topic 6, Pathology, Microbiology and Diagnostics. Large binucleate 'owl's eye' cells, CD15 and CD30 positive.

Core: Full syllabus (Topics 1 to 10)

51	**A**	**Status epilepticus** A medical emergency.
52	**C**	**constipation alternating with diarrhoea** Topic 7, Practice of Medicine. As keyed by GPSC.
53	**C**	**psoriasis** Topic 7, Practice of Medicine. Also seen in lichen planus and vitiligo.
54	**C**	**ectopic pregnancy** Topic 8, Obstetrics, Gynaecology and Paediatrics. Tubal ring sign; a molar pregnancy gives a snowstorm appearance.
55	**A**	**Pelvic inflammatory disease** Topic 8, Obstetrics, Gynaecology and Paediatrics. PID is an ascending infection; it risks infertility and ectopic pregnancy.
56	**C**	**carcinoma stomach** Topic 9, Surgery, ENT, Eye and First Aid. Virchow's node.
57	**B**	**otitis media with effusion** Topic 9, Surgery, ENT, Eye and First Aid. 'Glue ear'.
58	**D**	**stage 3 (late expanding)** Topic 10, Community and Forensic Medicine, Ethics. Birth rate falling, death rate low.
59	**C**	**infant mortality rate** Topic 10, Community and Forensic Medicine, Ethics. IMR is part of the PQLI, not the HDI.
60	**B**	**24/7 free tele-mental-health services across India** Topic 10, Community and Forensic Medicine, Ethics. National Tele Mental Health Programme, launched in 2022.

ANSWERS

1	**B**	13	**D**	25	**B**	37	**B**	49	**A**
2	**B**	14	**A**	26	**B**	38	**A**	50	**A**
3	**C**	15	**C**	27	**A**	39	**C**	51	**C**
4	**C**	16	**A**	28	**C**	40	**A**	52	**B**
5	**B**	17	**D**	29	**C**	41	**D**	53	**B**
6	**B**	18	**A**	30	**B**	42	**C**	54	**B**
7	**D**	19	**B**	31	**D**	43	**C**	55	**A**
8	**B**	20	**C**	32	**C**	44	**B**	56	**B**
9	**B**	21	**C**	33	**C**	45	**C**	57	**D**
10	**A**	22	**A**	34	**A**	46	**A**	58	**C**
11	**C**	23	**C**	35	**A**	47	**B**	59	**C**
12	**A**	24	**A**	36	**A**	48	**D**	60	**D**

Explanations

English (Comprehension)

1 **B** **the mental endurance needed to engage with long, complex texts**
It is the patience “required for narrative absorption”. Passage: GPSC CBRT (Civil Registrar-cum-Sub Registrar), Mar 2026.

2 **B** **it fosters empathy and critical thinking**
Fourth sentence. Passage: GPSC CBRT (Civil Registrar-cum-Sub Registrar), Mar 2026.

3 **C** **skimming and scanning digital media**
Second sentence. Passage: GPSC CBRT (Civil Registrar-cum-Sub Registrar), Mar 2026.

4 **C** **information-rich but context-poor**
Last sentence; B reverses it. Passage: GPSC CBRT (Civil Registrar-cum-Sub Registrar), Mar 2026.

5 **B** **a fundamental change in how children process information and think**
“A rewiring of neural circuitry”, not just a change of format. Passage: GPSC CBRT (Civil Registrar-cum-Sub Registrar), Mar 2026.

6 **B** **cultivate cognitive, social, and emotional development**
First and last sentences. Passage: GPSC CBRT (District Educational Inspector / Teacher), Feb 2026.

7 **D** **Government tax policy**
The sixth sentence lists the other three. Passage: GPSC CBRT (District Educational Inspector / Teacher), Feb 2026.

English (Comprehension)

8	**B**	**Increased distraction and dependency** Fifth sentence. Passage: GPSC CBRT (District Educational Inspector / Teacher), Feb 2026.
9	**B**	**long-term academic and personal benefits** Seventh sentence. Passage: GPSC CBRT (District Educational Inspector / Teacher), Feb 2026.
10	**A**	**analytical and prescriptive** It analyses factors and prescribes a holistic approach. Passage: GPSC CBRT (District Educational Inspector / Teacher), Feb 2026.

English Grammar

11	**C**	**had lost** An earlier past action before another past action takes the past perfect. GPSC-style practice item, modelled on the 2026 grammar blocks.
12	**A**	**By whom was this letter written?** Question form: By whom + was + subject + past participle. GPSC-style practice item, modelled on the 2026 grammar blocks.
13	**D**	**Let the window be opened.** Imperative passive: Let + object + be + past participle. GPSC-style practice item, modelled on the 2026 grammar blocks.
14	**A**	**The news are very encouraging.** 'News' is uncountable and singular: 'The news is encouraging'. GPSC-style practice item, modelled on the 2026 grammar blocks.
15	**C**	**were** Phrases like 'along with' do not change the subject ('patient'): 'was waiting'. GPSC-style practice item, modelled on the 2026 grammar blocks.

General Knowledge / Current Affairs of India and Goa

16	**A**	**161** Static polity.
17	**D**	**Doha** Aichi-Nagoya hosted in 2026.
18	**A**	**Lovlina Borgohain** Parveen Hooda and Ankush Panghal also won gold.
19	**B**	**the second Thursday of October** It fell on 8 October in 2026.
20	**C**	**Sonsogor (about 1,167 m)** In the Sahyadri, Sattari–Sanguem.
21	**C**	**MSME** Oct 2026.

General Knowledge / Current Affairs of India and Goa

22 **A** **Viswanathan Anand**
FIDE is the world chess federation.

23 **C** **26 August**
13 February is National Women's Day (Sarojini Naidu's birthday).

24 **A** **14 August**
Aug 2026.

25 **B** **Ahmedabad**
India beat New Zealand by 96 runs.

Logical Reasoning

26 **B** **Only conclusion II follows**
II is the second statement turned around, so it follows. I does not: the confidential records need not be files.

27 **A** **West**
East, then clockwise to south, then about-turn to north, then anticlockwise to west.

28 **C** **5.6%**
Cost per toy 375 ÷ 12 = 31.25; profit 1.75; 1.75 ÷ 31.25 = 5.6%. GPSC CBRT, Sep 2025.

29 **C** **F**
C is first, A fourth and B fifth. D must be second with E third, which leaves the sixth seat for F.

30 **B** **₹336**
1600 × 1.21 = 1936; interest 336. GPSC CBRT, Sep 2025.

31 **D** **72**
42 is 6 x 7. In the same way 8 x 9 = 72.

32 **C** **Grandmother**
P, Q and S are siblings and T is their mother. R is P's daughter, so T is R's grandmother.

33 **C** **Recent**
The order is Recall, Receipt, Recent, Record, Recount.

34 **A** **Daughter-in-law**
O is M's son and P is O's wife, so P is M's daughter-in-law.

35 **A** **West**
Flowing west, a left turn takes it south, and a right turn brings it back to west.

Core: Full syllabus (Topics 1 to 10)

36 **A** **Symptoms of the will (loves, hates, emotions)**
Topic 1, Organon and Philosophy. Kent ranks mental symptoms in the order will, understanding, memory.

Core: Full syllabus (Topics 1 to 10)

37	**B**	**Thuja and Medorrhinum** Topic 1, Organon and Philosophy. Thuja and Medorrhinum are the leading anti-sycotics.
38	**A**	**a good sign that the disease is being cured** Topic 1, Organon and Philosophy. Old symptoms reappearing means the cure is following the right direction; the remedy is left to act.
39	**C**	**Natrum muriaticum** Natrum mur. is the chronic of Ignatia; both cover ailments from grief, with Natrum mur. for the deep, long-standing state.
40	**A**	**Sanguinaria** Topic 2, Materia Medica. Sanguinaria is right-sided; Spigelia is left-sided.
41	**D**	**Zincum metallicum** Topic 2, Materia Medica. Zincum: incessant movement of the feet.
42	**C**	**patients with a tubercular history and recurrent chest infections or ringworm** Topic 2, Materia Medica. Burnett introduced Bacillinum.
43	**C**	**the name and quantity of the medicine** Topic 3, Pharmacy. Superscription (Rx), inscription, subscription (directions to the pharmacist) and signatura (directions to the patient).
44	**B**	**95% v/v** Topic 3, Pharmacy. Weaker alcohols are diluted from it.
45	**C**	**Concordance (relationship of remedies)** The seventh section, 'Relationship of remedies', is the doctrine of concordances.
46	**A**	**clinical repertory** Topic 4, Repertory. Rubrics are named after clinical conditions.
47	**B**	**Mitral and tricuspid valves** S1 marks the start of ventricular systole.
48	**D**	**superior temporal gyrus** Topic 5, Anatomy and Physiology. Broca's area (motor aphasia) is in the inferior frontal gyrus.
49	**A**	**Blood culture** Blood culture is positive in the first week; Widal rises in the second.
50	**A**	**carcinoma oesophagus** Topic 6, Pathology, Microbiology and Diagnostics. Achalasia gives the bird's-beak appearance.
51	**C**	**126 mg/dL** Or HbA1c of 6.5% or more, or random glucose of 200 mg/dL or more with symptoms.
52	**B**	**hepatic encephalopathy** Topic 7, Practice of Medicine. Also seen in CO2 retention and uraemia.

Core: Full syllabus (Topics 1 to 10)

53	**B**	**Syzygium jambolanum** Topic 7, Practice of Medicine. Syzygium is a classical organ remedy for diabetes.
54	**B**	**Ampulla of the fallopian tube** Topic 8, Obstetrics, Gynaecology and Paediatrics. Tubal pregnancies are most often ampullary.
55	**A**	**9–12 months** Topic 8, Obstetrics, Gynaecology and Paediatrics. Second dose at 16–24 months.
56	**B**	**4 mL × body weight (kg) × % burn in 24 hours, half in the first 8 hours** Topic 9, Surgery, ENT, Eye and First Aid. Ringer's lactate is used.
57	**D**	**Metaphysis of long bones** Topic 9, Surgery, ENT, Eye and First Aid. Slow, looping metaphyseal blood flow favours bacterial settling (Staph. aureus).
58	**C**	**occurs instantly at death and preserves the last act, such as grip on a weapon** Topic 10, Community and Forensic Medicine, Ethics. Medicolegally important in suicide, drowning and so on.
59	**C**	**20–24 weeks** Topic 10, Community and Forensic Medicine, Ethics. One doctor up to 20 weeks; a medical board beyond 24 weeks for fetal anomalies.
60	**D**	**Myocardium (and then the eyelids and face)** Topic 10, Community and Forensic Medicine, Ethics. Heart first, then eyelids, face, and downward (Nysten's rule).

ANSWERS

Intermediate Test 3: answer key

1	**B**	13	**A**	25	**B**	37	**D**	49	**C**
2	**B**	14	**C**	26	**C**	38	**C**	50	**D**
3	**B**	15	**B**	27	**B**	39	**D**	51	**A**
4	**B**	16	**C**	28	**B**	40	**C**	52	**A**
5	**A**	17	**B**	29	**C**	41	**D**	53	**A**
6	**B**	18	**B**	30	**A**	42	**C**	54	**B**
7	**B**	19	**B**	31	**C**	43	**D**	55	**B**
8	**B**	20	**B**	32	**E**	44	**D**	56	**B**
9	**B**	21	**A**	33	**D**	45	**D**	57	**D**
10	**B**	22	**D**	34	**A**	46	**C**	58	**A**
11	**A**	23	**A**	35	**B**	47	**D**	59	**B**
12	**A**	24	**B**	36	**C**	48	**A**	60	**C**

Explanations

English (Comprehension)

1 **B** **a theoretical and philosophical concept with cultural impact**
Last sentence: science, philosophy and culture. Passage: GPSC CBRT (District Educational Inspector / Teacher), Feb 2026.

2 **B** **logical contradictions arising from altering the past**
It “challenges logical consistency”. Passage: GPSC CBRT (District Educational Inspector / Teacher), Feb 2026.

3 **B** **Quantum mechanics**
Fifth sentence. Passage: GPSC CBRT (District Educational Inspector / Teacher), Feb 2026.

4 **B** **Forward progression via relativistic effects**
Fourth sentence. Passage: GPSC CBRT (District Educational Inspector / Teacher), Feb 2026.

5 **A** **speculative, analytical and interdisciplinary**
It spans physics, philosophy and culture. Passage: GPSC CBRT (District Educational Inspector / Teacher), Feb 2026.

6 **B** **key sources for understanding distant planetary systems**
They offer “a rare opportunity to study material from distant star systems”. Passage: GPSC CBRT (Under Secretary, Legislative Affairs), Feb 2026.

7 **B** **move too fast to be captured by the Sun**
They are “not gravitationally tethered”; a hyperbola is an open path. Passage: GPSC CBRT (Under Secretary, Legislative Affairs), Feb 2026.

English (Comprehension)

8	**B**	**They are small, fast and visible only briefly** Fifth sentence. Passage: GPSC CBRT (Under Secretary, Legislative Affairs), Feb 2026.
9	**B**	**prebiotic materials may be widespread in the galaxy** Fourth sentence. Passage: GPSC CBRT (Under Secretary, Legislative Affairs), Feb 2026.
10	**B**	**analytical and scientific** It reports observations and their implications. Passage: GPSC CBRT (Under Secretary, Legislative Affairs), Feb 2026.

English Grammar

11	**A**	**Noun clause** The clause is the subject of 'surprised', so it is a noun clause. GPSC-style practice item, modelled on the 2026 grammar blocks.
12	**A**	**It took off.** 'Take off' = become successful; 'fall flat' and 'fall through' = fail. GPSC-style practice item, modelled on the 2026 grammar blocks.
13	**A**	**must** 'Must' for a confident deduction. GPSC-style practice item, modelled on the 2026 grammar blocks.
14	**C**	**The doctor advised me to take that medicine twice a day.** Advice or orders become told/advised + object + to-infinitive; this → that. GPSC-style practice item, modelled on the 2026 grammar blocks.
15	**B**	**has come** 'This is the first/second/third time' takes the present perfect. GPSC-style practice item, modelled on the 2026 grammar blocks.

General Knowledge / Current Affairs of India and Goa

16	**C**	**1 November 1966** Karnataka, Kerala, Andhra Pradesh and Madhya Pradesh also mark 1 November (1956) as formation day.
17	**B**	**1 October** 14 June is World Blood Donor Day.
18	**B**	**2004** IFFI is held in Panaji.
19	**B**	**1985** At Taleigao Plateau.
20	**B**	**Mazagon Dock Shipbuilders** July 2026.
21	**A**	**Navi Pillay** The South African jurist and former UN High Commissioner for Human Rights. Oct 2026.

General Knowledge / Current Affairs of India and Goa

22 **D** **27 September**
25 January is National Tourism Day in India.

23 **A** **1958**
Headquartered in New Delhi.

24 **B** **Azad Gomantak Dal**
He was imprisoned in Portugal until 1969.

25 **B** **Swadeshi Movement in 1905**
The 12th National Handloom Day was in 2026.

Logical Reasoning

26 **C** **Q**
R is third and P second. T is not at an end, so T is fourth. Q cannot sit next to P, so Q is fifth and S is first. The order is S, P, R, T, Q.

27 **B** **2 L**
10 L has 7 L milk and 3 L water. For 7 : 5 water must be 5 L: add 2 L. GPSC CBRT, Jan 2026.

28 **B** **27%**
0.6 × 25 + 0.4 × 30 = 15 + 12 = 27%. GPSC CBRT, Sep 2025.

29 **C** **245 m**
45 km/h = 12.5 m/s; 12.5 × 30 = 375 m covered; 375 − 130 = 245 m. GPSC CBRT, Sep 2025.

30 **A** **Pen and Nib**
The others are a substance and what holds it; a nib is part of a pen. GPSC CBRT, Sep 2026.

31 **C** **South-west**
From the court, the bus stand lies to the west and to the south, that is, south-west.

32 **E** **None of the above**
5+24+1+13+9+14+1+20+9+15+14 = 125, which is not listed. GPSC's printed key said 150; the sum is 125, so E. GPSC CBRT, Jun 2025.

33 **D** **Maternal uncle**
B's father's only daughter is B's sister. She is A's mother, so B is A's maternal uncle.

34 **A** **East**
North, then right to east, right to south, and left back to east.

35 **B** **Argument B**
B speaks directly to the statement's goal; cost alone does not answer it. GPSC CBRT, Mar 2025.

Core: Full syllabus (Topics 1 to 10)

36	**C**	**Psora** Topic 1, Organon and Philosophy. §80: psora is the oldest, most universal and most pernicious chronic miasmatic disease.
37	**D**	**freedom from prejudice, sound senses, attention in observing and fidelity in recording** Topic 1, Organon and Philosophy. §83: the unprejudiced observer; case taking demands freedom from prejudice and sound senses.
38	**C**	**One-sided diseases** Topic 1, Organon and Philosophy. §172–173; they are hard to cure because the picture is incomplete.
39	**D**	**Causticum** Causticum and Phosphorus are inimical. Arsenicum album is complementary to Phosphorus.
40	**C**	**Coffea cruda** Topic 2, Materia Medica. Coffea: over-excitement of the mind and senses.
41	**D**	**Silicea** Topic 2, Materia Medica. Silicea is the chronic of Pulsatilla; Kali sulph is also complementary.
42	**C**	**Psorinum** Topic 2, Materia Medica. Psorinum: chilly, offensive, despair of recovery; 'never well since'.
43	**D**	**the State Licensing Authority** Topic 3, Pharmacy. Licences are issued by the State Drug Controller (State Licensing Authority).
44	**D**	**the proportion of the crude drug in the mother tincture** Topic 3, Pharmacy. Usually 1/10 for most tinctures under the new method.
45	**D**	**Grand generalisation of particulars** He generalised modalities and sensations from particular locations to the whole patient.
46	**C**	**Vertigo** Topic 4, Repertory. The order follows Hahnemann's schema: Mind, Vertigo, Head...
47	**D**	**diastolic + 1/3 pulse pressure** Diastole lasts longer, so MAP sits nearer the diastolic value.
48	**A**	**intention tremor and ataxia** Topic 5, Anatomy and Physiology. Resting tremor is Parkinsonian.
49	**C**	**Molecular test (CBNAAT / TrueNat)** Nucleic acid amplification tests also detect rifampicin resistance.
50	**D**	**glomerulonephritis** Topic 6, Pathology, Microbiology and Diagnostics. WBC casts suggest pyelonephritis.

Core: Full syllabus (Topics 1 to 10)

51	**A**	**Metatarsophalangeal joint of the great toe** Podagra.
52	**A**	**Colchicum** Topic 7, Practice of Medicine. Colchicum for acute gout; smell of food causes nausea.
53	**A**	**Euphrasia** Topic 7, Practice of Medicine. Euphrasia: acrid tears, bland nasal discharge (the reverse of Allium cepa).
54	**B**	**12 months** Topic 8, Obstetrics, Gynaecology and Paediatrics. Two-word sentences by about 2 years.
55	**B**	**280 days** Topic 8, Obstetrics, Gynaecology and Paediatrics. 40 weeks.
56	**B**	**Above the medial malleolus (gaiter area)** Topic 9, Surgery, ENT, Eye and First Aid. From venous hypertension.
57	**D**	**Wound dehiscence** Topic 9, Surgery, ENT, Eye and First Aid. Due to poor healing.
58	**A**	**infant mortality, literacy and life expectancy at age one** Topic 10, Community and Forensic Medicine, Ethics. As keyed in GPSC Medical Officer, 2024.
59	**B**	**Organophosphate insecticide** Topic 10, Community and Forensic Medicine, Ethics. Cholinergic crisis; serum cholinesterase is low. Datura dilates the pupils.
60	**C**	**0.5 mg/L after 1 hour contact** Topic 10, Community and Forensic Medicine, Ethics. Ensures continued disinfection.

ANSWERS

Hard Test 1: answer key

1	**C**	13	**C**	25	**B**	37	**C**	49	**D**
2	**C**	14	**B**	26	**B**	38	**B**	50	**C**
3	**C**	15	**A**	27	**C**	39	**D**	51	**D**
4	**C**	16	**B**	28	**C**	40	**C**	52	**A**
5	**B**	17	**A**	29	**D**	41	**B**	53	**A**
6	**B**	18	**A**	30	**D**	42	**C**	54	**B**
7	**C**	19	**D**	31	**A**	43	**D**	55	**C**
8	**C**	20	**A**	32	**D**	44	**B**	56	**A**
9	**C**	21	**A**	33	**C**	45	**C**	57	**C**
10	**A**	22	**C**	34	**C**	46	**B**	58	**B**
11	**B**	23	**B**	35	**D**	47	**A**	59	**C**
12	**D**	24	**A**	36	**B**	48	**C**	60	**A**

Explanations

English (Comprehension)

1 **C** **a divide between the genetically enhanced wealthy and the unedited poor**
Enhancement for those who can pay creates two biological classes. Passage: GPSC CBRT (Scientific Officer), Mar 2026.

2 **C** **the development of gene-editing technologies like CRISPR**
First sentence. Passage: GPSC CBRT (Scientific Officer), Mar 2026.

3 **C** **cautiously hopeful but deeply concerned about ethics and equity**
Hope of curing disease, weighed against ethics and cost. Passage: GPSC CBRT (Scientific Officer), Mar 2026.

4 **C** **creation of new biological weapons**
Weapons are never mentioned. Passage: GPSC CBRT (Scientific Officer), Mar 2026.

5 **B** **the gap in access to advanced treatments due to high cost**
Caused by “the exorbitant cost of personalized immunotherapies”. Passage: GPSC CBRT (Scientific Officer), Mar 2026.

6 **B** **the game is being trivialised into entertainment at the cost of technical quality**
Purists cite “erosion of technical finesse in favor of brute force and theatrics”. Passage: GPSC CBRT (Mamlatdar / Vigilance Officer), Mar 2026.

7 **C** **it gave financial security to lesser-known domestic players**
Third sentence. Passage: GPSC CBRT (Mamlatdar / Vigilance Officer), Mar 2026.

English (Comprehension)

8	**C**	**commercial viability and the traditional integrity of the sport** Last sentence: “commercial vitality” vs “sanctity of the sport”. Passage: GPSC CBRT (Mamlatdar / Vigilance Officer), Mar 2026.
9	**C**	**The IPL is the sole reason for the global decline of Test cricket** Test cricket's decline is never mentioned. Passage: GPSC CBRT (Mamlatdar / Vigilance Officer), Mar 2026.
10	**A**	**to consume or destroy the foundation on which it stands** The spectacle could eat away the skills it celebrates. Passage: GPSC CBRT (Mamlatdar / Vigilance Officer), Mar 2026.

English Grammar

11	**B**	**cleared** 'It is high time' + subject + past tense (subjunctive). GPSC-style practice item, modelled on the 2026 grammar blocks.
12	**D**	**None but a fool would say that.** 'Only' = 'none but' (keeps the meaning). GPSC-style practice item, modelled on the 2026 grammar blocks.
13	**C**	**He suggested that they should wait for the doctor.** 'Let us' becomes 'suggested/proposed that they should'. GPSC-style practice item, modelled on the 2026 grammar blocks.
14	**B**	**conceal** To obfuscate is to make unclear. GPSC CBRT, Feb 2026.
15	**A**	**Adverb of purpose** 'In order to succeed' tells why he worked hard. GPSC-style practice item, modelled on the 2026 grammar blocks.

General Knowledge / Current Affairs of India and Goa

16	**B**	**bringing back fugitives from abroad** 274 fugitives returned from 36 countries between 2019 and August 2026.
17	**A**	**38** Passed by the Rajya Sabha in August 2026.
18	**A**	**University of Colorado Denver** Oct 2026.
19	**D**	**₹53,428 crore** NSAP gives pensions to the elderly, widows and the disabled. Oct 2026.
20	**A**	**88** Aug 2026.
21	**A**	**offshore exploration** Runs till 2030-31. Aug 2026.

General Knowledge / Current Affairs of India and Goa

22	**C**	**NH-15** Cost about ₹8,970 crore, in Assam.
23	**B**	**120** UDAN: Ude Desh ka Aam Nagrik. Aug 2026.
24	**A**	**HAL Airport, Bengaluru** Aug 2026.
25	**B**	**Madhya Pradesh** Budni (Sehore) and Khategaon (Dewas). Aug 2026.

Logical Reasoning

26	**B**	**₹65,000** Allowance 48,000; divisible 2,40,000 in 3:4:5 gives 60,000 / 80,000 / 1,00,000. Z is 15,000 short, which Y pays: 80,000 − 15,000 = 65,000. GPSC CBRT, Sep 2026.
27	**C**	**273 m** Distances are $100\sqrt{3} \approx 173$ m and 100 m; on opposite sides they add to about 273 m. GPSC CBRT, Sep 2025.
28	**C**	**6 years** When Ayesha was born her mother was 36 − 4 = 32 and her father 38: a gap of 6 years. GPSC CBRT, Sep 2025.
29	**D**	**eight** Five, six and seven each make two labels true. Eight makes only 'Seven or Eight' true. GPSC CBRT, Jun 2025.
30	**D**	**1016** $343 = 7^3$ and 2 × 343 − 8 = 678. So 2 × 512 − 8 = 1016. GPSC CBRT, Sep 2026.
31	**A**	**North-east** At 4:30 the minute hand is at 6. If 6 points east, then 3 points north, and the hour hand, between 4 and 5, points north-east.
32	**D**	**stayed the same** × 1.25 × 0.8 = × 1 every two years, so after 8 years it is unchanged. GPSC CBRT, Jun 2025.
33	**C**	**50%** Marked 100 → sells 75 = 1.25 × cost → cost 60. At 90: profit 30 on 60 = 50%. GPSC CBRT, Jun 2025.
34	**C**	**His son's** With no brother, 'my father's son' is Arun himself. So Arun is the father of the man in the portrait.
35	**D**	**28** New numbers: 523 816 873 164 287 265 312. Lowest 164 → 1 × 4 = 4; highest 873 → 8 × 3 = 24; total 28. GPSC CBRT, Mar 2025.

Core: Full syllabus (Topics 1 to 10)

36	**B**	**Organon of Rational Medicine (Organon der rationellen Heilkunde)** Topic 1, Organon and Philosophy. From the second edition (1819) the title became Organon der Heilkunst, Organon of the Healing Art.
37	**C**	**immediately or very soon after the paroxysm ends** Topic 1, Organon and Philosophy. So that it can act before the next paroxysm.
38	**B**	**psychological means such as confidence, friendly advice and reasoning** Topic 1, Organon and Philosophy. Psychotherapeutic measures, with a suitable antipsoric regimen afterwards.
39	**D**	**Capsicum** Topic 2, Materia Medica. Capsicum: nostalgia with red face; burning like cayenne.
40	**C**	**Ammonium carbonicum** Topic 2, Materia Medica. Ammonium carb: emphysema, weak heart, worse 3 a.m.
41	**B**	**Fluoric acid** Topic 2, Materia Medica. Fluoric acid: warm-blooded, varicosities, bone decay.
42	**C**	**Bovista** Topic 2, Materia Medica. Bovista: awkwardness, deep imprints from blunt instruments.
43	**D**	**the juice and moisture content of the plant (Classes I to IX)** Topic 3, Pharmacy. The new HPI method uses a uniform drug strength.
44	**B**	**poppy seeds** Topic 3, Pharmacy. 100 such globules weigh about one grain.
45	**C**	**Antipsoric medicines** 'Systematic Alphabetic Repertory of the Antipsoric Medicines' (1832); the non-antipsorics followed in 1835.
46	**B**	**T. F. Allen** Topic 4, Repertory. Timothy F. Allen's edition is the one in common use.
47	**A**	**8–12 mEq/L** Topic 5, Anatomy and Physiology. Raised in diabetic ketoacidosis, lactic acidosis, renal failure and some poisonings.
48	**C**	**Carotid sinus and aortic arch** Carotid and aortic bodies are chemoreceptors.
49	**D**	**a thrombus formed in flowing blood (ante-mortem)** Topic 6, Pathology, Microbiology and Diagnostics. Alternating platelet–fibrin and red-cell layers.
50	**C**	**herpes virus infections such as chickenpox** Topic 6, Pathology, Microbiology and Diagnostics. A bedside test.
51	**D**	**Carbo vegetabilis** Carbo veg's air hunger: 'wants to be fanned'.

Core: Full syllabus (Topics 1 to 10)

52	**A**	**non-contrast CT scan** Topic 7, Practice of Medicine. Lumbar puncture for xanthochromia only if CT is negative.
53	**A**	**frequent transient lower oesophageal sphincter relaxations** Topic 7, Practice of Medicine. Transient LES relaxations allow reflux.
54	**B**	**patent ductus arteriosus** Topic 8, Obstetrics, Gynaecology and Paediatrics. Rubella triad: PDA, cataract, deafness.
55	**C**	**about 2 weeks (14 days)** Topic 8, Obstetrics, Gynaecology and Paediatrics. Prolonged jaundice needs evaluation.
56	**A**	**diphtheritic tonsillitis** Topic 9, Surgery, ENT, Eye and First Aid. The diphtheria pseudomembrane is adherent and bleeds on removal.
57	**C**	**airway swelling and inhalation injury** Topic 9, Surgery, ENT, Eye and First Aid. Early airway assessment is vital.
58	**B**	**in the eyes when the eyelids remain open** Topic 10, Community and Forensic Medicine, Ethics. Brownish-black discoloration of the exposed sclera.
59	**C**	**Board of Ethics and Registration for Homoeopathy** Topic 10, Community and Forensic Medicine, Ethics. The NCH Act 2020 replaced the HCC Act 1973 and set up three autonomous boards.
60	**A**	**Common Cause v. Union of India (2018)** Topic 10, Community and Forensic Medicine, Ethics. Also recognised living wills.

ANSWERS

Hard Test 2: answer key

1	**C**	13	**A**	25	**C**	37	**D**	49	**A**
2	**A**	14	**C**	26	**B**	38	**D**	50	**A**
3	**B**	15	**A**	27	**D**	39	**A**	51	**C**
4	**B**	16	**B**	28	**B**	40	**D**	52	**A**
5	**D**	17	**A**	29	**A**	41	**D**	53	**D**
6	**B**	18	**A**	30	**C**	42	**D**	54	**B**
7	**A**	19	**A**	31	**B**	43	**B**	55	**A**
8	**C**	20	**B**	32	**D**	44	**B**	56	**B**
9	**D**	21	**B**	33	**C**	45	**B**	57	**D**
10	**A**	22	**A**	34	**C**	46	**D**	58	**D**
11	**D**	23	**B**	35	**A**	47	**C**	59	**D**
12	**D**	24	**B**	36	**B**	48	**A**	60	**D**

Explanations

English (Comprehension)

1 **C** **re-skilling programmes cannot keep pace with AI adoption**
Displacement “threatens to outpace systemic re-skilling frameworks”. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

2 **A** **split society into two unequal economic segments**
Bifurcation means splitting in two. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

3 **B** **relieve workers of routine cognitive tasks so they can focus on strategy**
Third sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

4 **B** **The corporate drive for algorithmic labour raises ethical concerns about worker agency and accountability**
Fifth sentence; the others contradict the text. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

5 **D** **cautionary yet focused on structural adaptation**
It warns of risks and proposes safety nets and new curricula. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

6 **B** **EV adoption involves both significant benefits and complex challenges.**
Main idea: a balanced 'benefits and challenges' option. Passage: GPSC CBRT (Assistant Professor in Livestock Production and Management), May 2026.

English (Comprehension)

7	**A**	**The nature of electricity production systems** Inference: 'depends largely on the energy sources used for electricity generation'. Passage: GPSC CBRT (Assistant Professor in Livestock Production and Management), May 2026.
8	**C**	**To present environmental and ethical concerns of EV production** Purpose question: they 'raise serious environmental and ethical concerns'. Passage: GPSC CBRT (Assistant Professor in Livestock Production and Management), May 2026.
9	**D**	**Renewable energy integration may improve the sustainability of EVs.** Inference: 'renewable energy integration continue[s] to strengthen the long-term prospects'. Passage: GPSC CBRT (Assistant Professor in Livestock Production and Management), May 2026.
10	**A**	**Analytical and balanced** Tone: weighs supporters and critics. Passage: GPSC CBRT (Assistant Professor in Livestock Production and Management), May 2026.

English Grammar

11	**D**	**should** 'Should have' + past participle expresses a past action that was advisable but not done. GPSC-style practice item, modelled on the 2026 grammar blocks.
12	**D**	**Adjective clause** 'Who attended me' describes the noun 'nurse'. GPSC-style practice item, modelled on the 2026 grammar blocks.
13	**A**	**need not** 'Need not' = no obligation; 'must not' = prohibition. GPSC-style practice item, modelled on the 2026 grammar blocks.
14	**C**	**He is so proud that he will not apologise.** too … to = so … that … not. GPSC-style practice item, modelled on the 2026 grammar blocks.
15	**A**	**when** 'Hardly/Scarcely … when'; 'No sooner … than'. GPSC-style practice item, modelled on the 2026 grammar blocks.

General Knowledge / Current Affairs of India and Goa

16	**B**	**P. T. Usha** She also anchored the women's 4x400-m relay to gold.
17	**A**	**village libraries** Launched for the Gandhinagar Lok Sabha constituency. Aug 2026.
18	**A**	**two years** Aug 2026.

General Knowledge / Current Affairs of India and Goa

19	**A**	**Unai Simón** Spain won the World Cup. July 2026.
20	**B**	**125** MGNREGA guaranteed 100 days.
21	**B**	**Hong Kong** Sep 2026.
22	**A**	**₹3.15 lakh crore** PM-KISAN gives ₹6,000 a year to farmer families. Aug 2026.
23	**B**	**compressed biogas** Aug 2026.
24	**B**	**floating solar power** With 10,000 MWh of storage. Aug 2026.
25	**C**	**Archery** Hyundai World Archery Para Series. Sep 2026.

Logical Reasoning

26	**B**	**720 km** Speeds are in the ratio √9 : √4 = 3 : 2, so Q = 48 km/h. They meet after √(4 × 9) = 6 h; P travels 6 + 4 = 10 h × 72 = 720 km. GPSC CBRT, Sep 2026.
27	**D**	**3:32** 5.5M − 90 = 90, so M = 32 8/11: about 3:32. GPSC CBRT, Feb 2026.
28	**B**	**No X is Z** 'No Z is X' turns round to 'No X is Z'. GPSC CBRT, Feb 2026.
29	**A**	**5:3** 5 : 3 needs 8 parts; 30 is not a multiple of 8. The others split 30 exactly. GPSC CBRT, Mar 2025.
30	**C**	**agnosvitriblunin** agnos = spider and comes first; the new word must start with agnos and use no known word. GPSC CBRT, Sep 2025.
31	**B**	**15 days** Per 3 days: 3/20 + 1/30 + 1/60 = 12/60 = 1/5 of the work, so 15 days. GPSC CBRT, Mar 2025.
32	**D**	**Both are implicit** Not cutting supply assumes enough water now and the hope of more later. GPSC CBRT, Sep 2025.
33	**C**	**₹19.70** Taxable items: 0.30 ÷ 0.06 = ₹5. Tax-free = 25 − 5 − 0.30 = ₹19.70. GPSC CBRT, Sep 2024.

Logical Reasoning

34	**C**	**₹600** BG = TD × RT/100, so TD = 24 × 100 ÷ 20 = 120; PW = TD × 100 ÷ RT = 600. GPSC CBRT, Apr 2024.
35	**A**	**6 sec** Lengths 10v and 8v; relative speed 3v; 18v ÷ 3v = 6 s. GPSC CBRT, Feb 2024.

Core: Full syllabus (Topics 1 to 10)

36	**B**	**a superficial, palliative remedy, or an incurable patient** Topic 1, Organon and Philosophy. The remedy has acted only superficially; the deeper state then reasserts itself.
37	**D**	**pseudo-chronic diseases (§77)** Topic 1, Organon and Philosophy. Not true miasmatic diseases.
38	**D**	**medicinal substances in food and drink, such as strong coffee, spices and perfumes** Topic 1, Organon and Philosophy. They disturb the action of the remedy.
39	**A**	**Natrum carbonicum** Topic 2, Materia Medica. Natrum carb: worse from summer heat and mental exertion.
40	**D**	**Anacardium orientale** Topic 2, Materia Medica. Anacardium: the plug sensation, relief from eating, two wills.
41	**D**	**Stannum metallicum** Topic 2, Materia Medica. Stannum: great weakness of the chest, pains come and go gradually.
42	**D**	**Medorrhinum** Topic 2, Materia Medica. Medorrhinum: the main anti-sycotic nosode.
43	**B**	**Bernhardt Fincke** Topic 3, Pharmacy. Fincke's fluxion potencies.
44	**B**	**not of standard quality (sub-standard)** Topic 3, Pharmacy. 'Spurious' means imitation or substituted drugs.
45	**B**	**W. J. Guernsey** Guernsey, 1888.
46	**D**	**pathological generals** Topic 4, Repertory. Boger used pathological generals and causation.
47	**C**	**Inulin** Inulin is freely filtered and neither reabsorbed nor secreted; PAH measures renal plasma flow.
48	**A**	**bicarbonate** Topic 5, Anatomy and Physiology. Cholecystokinin stimulates enzyme secretion and gallbladder contraction.

Core: Full syllabus (Topics 1 to 10)

49	**A**	**Dengue fever** The platelet count is monitored in dengue.
50	**A**	**Organisation and scar formation (fibrosis)** Topic 6, Pathology, Microbiology and Diagnostics. Cardiac muscle cannot regenerate.
51	**C**	**Type 2 diabetics are more prone to ketoacidosis than type 1** Topic 7, Practice of Medicine. Type 1 diabetes is the ketosis-prone form.
52	**A**	**3 Hz spike-and-wave discharges** Topic 7, Practice of Medicine. Treated with ethosuximide or valproate.
53	**D**	**Aloe socotrina** Topic 7, Practice of Medicine. Aloe: grape-like piles, cold water relieves, unsure sphincter.
54	**B**	**PALM-COEIN** Topic 8, Obstetrics, Gynaecology and Paediatrics. PALM (structural: polyp, adenomyosis, leiomyoma, malignancy) and COEIN (non-structural).
55	**A**	**two doses (or one booster if vaccinated within the last 3 years)** Topic 8, Obstetrics, Gynaecology and Paediatrics. Under the UIP.
56	**B**	**Cataract** Topic 9, Surgery, ENT, Eye and First Aid. Commonest cause of treatable blindness.
57	**D**	**Fistula** Topic 9, Surgery, ENT, Eye and First Aid. A sinus is a blind tract.
58	**D**	**hospital bed occupancy** Topic 10, Community and Forensic Medicine, Ethics. Vital events are births, deaths, marriages, divorces and so on.
59	**D**	**display registration details and practise only in his or her own system** Topic 10, Community and Forensic Medicine, Ethics. Practitioners must not cross over into other systems except as allowed by law.
60	**D**	**dry mouth, dilated pupils, flushed skin and delirium** Topic 10, Community and Forensic Medicine, Ethics. Anticholinergic syndrome.

ANSWERS

Hard Test 3: answer key

1	**B**	13	**B**	25	**C**	37	**C**	49	**D**
2	**C**	14	**A**	26	**A**	38	**D**	50	**B**
3	**A**	15	**A**	27	**D**	39	**C**	51	**D**
4	**D**	16	**C**	28	**C**	40	**D**	52	**A**
5	**B**	17	**B**	29	**C**	41	**A**	53	**B**
6	**D**	18	**D**	30	**A**	42	**D**	54	**A**
7	**A**	19	**A**	31	**D**	43	**B**	55	**C**
8	**C**	20	**D**	32	**A**	44	**A**	56	**C**

10	**B**	22	**B**	34	**D**	46	**B**	58	**D**
11	**A**	23	**D**	35	**D**	47	**B**	59	**A**
12	**A**	24	**A**	36	**D**	48	**C**	60	**A**

Explanations

English (Comprehension)

1 **B** **depend on the weather and do not give a constant flow of power**
The next sentence calls them “weather-dependent inputs”. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

2 **C** **severe transmission instability and possible rolling blackouts**
Third sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

3 **A** **empowering nations that control critical-mineral supply chains**
Leverage shifts to nations refining lithium, cobalt and rare earths. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

4 **D** **Subsidising domestic coal and gas extraction**
Only the first three are listed in the fourth sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

5 **B** **a rushed transition without grid orchestration can cause economic contraction**
Last sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

6 **D** **a systemic problem rooted in development patterns**
Main idea: 'a reflection of flawed development priorities' and 'a systemic issue'. Passage: GPSC CBRT (Assistant District Educational Inspector / Teacher), Jan 2026.

7 **A** **It goes unnoticed until damage accumulates**
Vocabulary in context: 'accumulating over time before its consequences become evident'. Passage: GPSC CBRT (Assistant District Educational Inspector / Teacher), Jan 2026.

English (Comprehension)

8 **C** **enforcement is weakened by political and corporate interests**
Detail: the sixth sentence. Passage: GPSC CBRT (Assistant District Educational Inspector / Teacher), Jan 2026.

9 **A** **pollution has deeper social and economic causes**
Inference: technology 'rarely address[es] the underlying causes'. Passage: GPSC CBRT (Assistant District Educational Inspector / Teacher), Jan 2026.

10 **B** **analytical and critical**
Tone: it analyses causes and criticises priorities. Passage: GPSC CBRT (Assistant District Educational Inspector / Teacher), Jan 2026.

English Grammar

11 **A** **improve**
Ameliorate = make better. GPSC-style practice item, modelled on the 2026 grammar blocks.

12 **A** **will have completed**
An action finished before a future time: future perfect. GPSC-style practice item, modelled on the 2026 grammar blocks.

13 **B** **do not**
'Unless' already means 'if not'; drop 'do not'. GPSC-style practice item, modelled on the 2026 grammar blocks.

14 **A** **The minister is expected to resign.**
The same pattern as GPSC's 2026 items: subject + is expected + to-infinitive. GPSC-style practice item, modelled on the 2026 grammar blocks.

15 **A** **He was ordered to submit the documents.**
Past active becomes 'was ordered'; the infinitive 'to submit' stays. GPSC CBRT, Sep 2026.

General Knowledge / Current Affairs of India and Goa

16 **C** **12**
North Goa 6, South Goa 2, Kushavati 4.

17 **B** **all DRDO conventional missile systems**
Aug 2026.

18 **D** **2007**
UN General Assembly resolution, 2007.

19 **A** **United States**
Aug 2026.

20 **D** **Eight**
Shafali Verma was Player of the Tournament. Sep 2026.

21 **B** **Lovlina Borgohain**
India finished fourth with 39 medals.

General Knowledge / Current Affairs of India and Goa

22 **B** **Iveco Group**
Oct 2026.

23 **D** **Karan Yadav**
The ISL is India's top football league. Sep 2026.

24 **A** **Japan**
Sep 2026.

25 **C** **12**
Allied Orbits consortium, to be operational by 2029.

Logical Reasoning

26 **A** **₹3,40,000**
Q's interest 30,000, so his share is 40,000 = 2/10 of the remainder: 2,00,000. Add R's interest 50,000, Q's 30,000 and rent 60,000: 3,40,000. GPSC CBRT, Sep 2026.

27 **D** **1267**
LCM(12, 18, 21, 30) = 1260; add 7: 1267. GPSC CBRT, Sep 2025.

28 **C** **3263442**
Each term is n × (n + 1) of the previous: 1806 × 1807 = 3263442. GPSC CBRT, Jun 2025.

29 **C** **Friday**
Independence Day 1947 fell on a Friday. GPSC CBRT, Sep 2025.

30 **A** **Only I and II**
List = 1.2 × cost, sold at 0.95 × list = 1.14 × cost: 14% profit. The cost figure isn't needed. GPSC CBRT, Apr 2024.

31 **D** **Both together are needed**
II alone allows any average between 16 and 18. With I, the weight of 18 is under 25%, so the average is below 16.5. GPSC CBRT, Apr 2024.

32 **A** **I alone is sufficient**
From I, r − a = 1/10, so Rani beats Amita. Since s + a = 1/10, s is below 1/10 while r is above it, so Rani is fastest. GPSC CBRT, Feb 2024.

33 **A** **440, 385, 280**
Share by work rate 1/7 : 1/8 : 1/11 = 88 : 77 : 56 (sum 221); 1105 ÷ 221 = 5. GPSC CBRT, Jan 2024.

34 **D** **Karan wins by 1 m**
Speeds 100 : 90. While Karan runs 110 m, Arjun runs 99 m. GPSC CBRT, Jan 2024.

35 **D** **72**
(x − 24)/(x − 18) = (x − 8)/x gives 2x = 144, so x = 72. GPSC CBRT, Nov 2023.

Core: Full syllabus (Topics 1 to 10)

36 **D** **vital principle (Lebensprinzip)**
Topic 1, Organon and Philosophy. Earlier editions said 'vital force' (Lebenskraft).

Core: Full syllabus (Topics 1 to 10)

37	**C**	**each dose is slightly modified in potency (by succussion) so the vital force does not resist it** Topic 1, Organon and Philosophy. The same unchanged dose repeated would provoke reaction.
38	**D**	**R. E. Dudgeon** Topic 1, Organon and Philosophy. Dudgeon also translated the Organon (fifth edition).
39	**C**	**Ceanothus americanus** Topic 2, Materia Medica. Ceanothus is the classic spleen remedy.
40	**D**	**Mezereum** Topic 2, Materia Medica. Mezereum: crusts with pus beneath, post-herpetic neuralgia.
41	**A**	**Natrum muriaticum** Topic 2, Materia Medica. Nat mur: emaciation descending from the neck, mapped tongue.
42	**D**	**Natrum sulphuricum** Topic 2, Materia Medica. Grauvogl's hydrogenoid constitution.
43	**B**	**1 in 10^12** Topic 3, Pharmacy. Each C step is 1:100, so six steps give 10^-12.
44	**A**	**the same vial is used throughout, emptied and refilled with fresh vehicle at each step** Topic 3, Pharmacy. Korsakov's single-vial method; Hahnemannian uses a fresh vial for each step.
45	**B**	**a Bible concordance, by key words** Six volumes, indexed by significant words.
46	**B**	**Mind, Generalities, and Sleep, Dreams and Sexuality** Topic 4, Repertory. Three volumes of general symptoms.
47	**B**	**Collecting ducts** It inserts aquaporins and concentrates urine.
48	**C**	**zona fasciculata** Topic 5, Anatomy and Physiology. Glomerulosa = aldosterone; reticularis = androgens.
49	**D**	**arterial occlusion** Topic 6, Pathology, Microbiology and Diagnostics. Wet gangrene involves venous congestion and infection.
50	**B**	**Multiple myeloma and tuberculosis** Topic 6, Pathology, Microbiology and Diagnostics. ESR rises with raised globulins and fibrinogen; it falls in polycythaemia and sickle cell disease.
51	**D**	**0.70** Topic 7, Practice of Medicine. GOLD criterion; the obstruction is not fully reversible.
52	**A**	**Berberis vulgaris** Topic 7, Practice of Medicine. Berberis: radiating pains, bubbling sensation.

Core: Full syllabus (Topics 1 to 10)

53	**B**	**Natrum sulphuricum** Topic 7, Practice of Medicine. Natrum sulph: hydrogenoid constitution.
54	**A**	**6 months** Topic 8, Obstetrics, Gynaecology and Paediatrics. Lower central incisors.
55	**C**	**chest indrawing** Topic 8, Obstetrics, Gynaecology and Paediatrics. IMNCI pneumonia signs.
56	**C**	**Acute appendicitis** Topic 9, Surgery, ENT, Eye and First Aid. One-third of the way from the anterior superior iliac spine to the umbilicus.
57	**A**	**Osteoarthritis** Topic 9, Surgery, ENT, Eye and First Aid. Degenerative joint disease.
58	**D**	**not valid; consent of the parent or guardian is required** Topic 10, Community and Forensic Medicine, Ethics. A child under 12 cannot give valid consent for acts done for his or her benefit.
59	**A**	**detect trends in diseases through selected reporting sites** Topic 10, Community and Forensic Medicine, Ethics. Used for HIV and others.
60	**A**	**most cases of a disease being hidden (subclinical or undiagnosed) below the visible clinical cases** Topic 10, Community and Forensic Medicine, Ethics. Screening reveals the hidden part.
