GOA PUBLIC SERVICE COMMISSION | COMPUTER BASED RECRUITMENT TEST

Practice Set 11

English (Comprehension), English Grammar, General Knowledge and Current Affairs of India and Goa, Logical Reasoning, and Core. 60 questions, 60 marks, 75 minutes. Answer key and explanations at the end.

What this is. A practice paper in the pattern of the Homoeopathic Physician syllabus (Advt. 06/2026): Comprehension 10, Grammar 5, General Knowledge 10, Logical Reasoning 10 and Core 25. The questions in sections I, II and IV are taken from GPSC CBRT papers of 2023 to 2026, including the medical papers (Medical Officer 2024 and 2025, Pharmacology, Pharmaceutics, Pharmaceutical Chemist, Physiotherapy, Dentist, Ophthalmologist); each explanation names the paper. Section III (GK) is written for a CBRT on 1 November 2026, following the pattern of GPSC's GK papers from 2018 to September 2026: mostly current affairs of August to October 2026, with Goa, important days and some static GK. Where GPSC's printed key was wrong, the corrected answer is given. A few grammar items marked 'GPSC-style practice item' were written to fill the section. The core section is original, set to the ten core topics of the syllabus. In the real paper the core questions come first; here they come last, in syllabus order.

Section	Questions	Marks
English (Comprehension)	1 to 10	10
English Grammar	11 to 15	5
General Knowledge / Current Affairs of India and Goa	16 to 25	10
Logical Reasoning	26 to 35	10
Core: Full syllabus (Topics 1 to 10)	36 to 60	25
Total	**60**	**60**

Each question carries one mark and has five options; option E is always "None of the above", as in the real test. No marks are deducted for a wrong answer. The CBRT for the post of Homoeopathic Physician (Advt. 06 of 2026) is 60 marks in 75 minutes: these four sections plus a 25-mark core section. The qualifying marks are 30 of 60 for General, EWS and ex-servicemen, 27 for OBC, PwD and CFF, and 24 for SC and ST.

SECTION I | 10 MARKS

English (Comprehension)

Passage 1. Read the passage and answer questions 1 to 5.

The global pivot toward Electric Vehicles (EVs) is touted as the definitive solution to the climate crisis. While the absence of tailpipe emissions is a tangible benefit, a "cradle-to-grave" analysis reveals a more nuanced reality. The production of EV batteries is resource-intensive, relying on the extraction of lithium, cobalt, and nickel—processes often marred by ecological destruction and human rights abuses in mining regions. Moreover, an EV is only as clean as the grid that charges it; driving an electric car in a coal-dependent economy merely shifts the pollution source from the highway to the power plant. Therefore, EVs are not a silver bullet but a transitional technology. True sustainability requires a simultaneous decarbonization of the energy grid and the development of circular economies for battery recycling.

1. A "cradle-to-grave" analysis refers to:

A. The total environmental impact from raw-material extraction to disposal.
B. The journey from showroom to scrapyard.
C. The safety rating for children.
D. The lifespan of the driver.
E. None of the above

2. "An EV is only as clean as the grid that charges it" means:

A. Charging stations must be kept clean.
B. If the electricity comes from fossil fuels, the EV still pollutes indirectly.
C. EVs must be washed often.
D. EVs cannot use nuclear power.
E. None of the above

3. The author describes EVs as:

A. A silver bullet for climate change.
B. A dangerous technology to be banned.
C. A transitional technology, not a complete solution.
D. A scam by mining companies.
E. None of the above

4. What ethical concern about EV batteries is mentioned?

A. Their production involves human rights abuses in mining regions.
B. They are too heavy.
C. They explode often.
D. They cannot be recycled.
E. None of the above

5. The tone of the passage can best be described as:

A. Sarcastic
B. Nostalgic
C. Enthusiastic advocacy
D. Critical realism
E. None of the above

Passage 2. Read the passage and answer questions 6 to 10.

Pollution in the contemporary world has emerged not merely as an environmental concern but as a reflection of flawed development priorities. Rapid industrialization and unplanned urban expansion have increased the discharge of harmful substances into air, water, and soil. Unlike visible disasters, pollution often progresses silently, accumulating over time before its consequences become evident. Air pollution contributes to chronic respiratory illnesses, while polluted water systems disrupt ecosystems and human health alike. Economic growth frequently takes precedence over ecological protection, weakening regulatory enforcement. Although environmental laws exist, they are often undermined by political pressures and corporate interests. Technological innovations offer temporary relief but rarely address the underlying causes of excessive production and consumption. Public participation in pollution control remains limited, as responsibility is largely shifted to authorities. Consequently, pollution persists as a systemic issue requiring structural, behavioral, and institutional transformation.

6. The passage primarily argues that pollution is best understood as

A. a result of insufficient laws
B. a temporary side effect of modernization
C. an unavoidable outcome of industrial growth
D. a systemic problem rooted in development patterns
E. None of the above

7. What does the phrase "progresses silently" suggest about pollution?

A. It goes unnoticed until damage accumulates
B. It is easy to control early
C. It affects only some people
D. It spreads evenly
E. None of the above

8. According to the passage, environmental laws fail mainly because

A. they are outdated
B. people do not know them
C. enforcement is weakened by political and corporate interests
D. they lack international support
E. None of the above

9. The author’s criticism of technological solutions implies that

A. pollution has deeper social and economic causes
B. technology is too expensive
C. technology cannot reduce pollution
D. technology is useless
E. None of the above

10. The overall tone of the passage can best be described as

A. optimistic and solution-oriented
B. analytical and critical
C. emotional and alarmist
D. descriptive and factual
E. None of the above

SECTION II | 5 MARKS

English Grammar

11. Choose the correct sentence:

A. He spoke as if he were the owner of the house.
B. He spoke as if he is the owner of the house.
C. He spoke as if he being the owner of the house.
D. He spoke as if he will be the owner of the house.
E. None of the above

12. Spot the error: “Unless you do not submit the form, you cannot sit the exam.”

A. Unless
B. do not
C. submit the form
D. cannot sit
E. None of the above

13. Select the correct indirect speech: He said, “Let us wait for the doctor.”

A. He told to wait for the doctor.
B. He suggested that let them wait for the doctor.
C. He suggested that they should wait for the doctor.
D. He said that let us wait for the doctor.
E. None of the above

14. Choose the correct tense: “The train _____ before we reached the station.”

A. left
B. has left
C. was leaving
D. had left
E. None of the above

15. Identify the conjunction relationship: “Walk carefully, lest you should fall.”

A. Reason
B. Purpose
C. Contrast
D. Time
E. None of the above

SECTION III | 10 MARKS

General Knowledge / Current Affairs of India and Goa

16. India's first indigenous non-GM high-expansion popcorn maize hybrid was developed by:

A. ICAR-Indian Institute of Maize Research
B. IARI, New Delhi
C. ICRISAT
D. Punjab Agricultural University
E. None of the above

17. The second National Campaign on Entrepreneurship under DAY-NRLM (Aug–Nov 2026) aims to train:

A. 5 lakh SHG women
B. 10 lakh farmers
C. 50,000 artisans
D. 1 lakh rural youth
E. None of the above

18. Harsh Singh won a gold medal at the Glasgow 2026 Commonwealth Games in:

A. Weightlifting
B. Wrestling
C. Judo
D. Boxing
E. None of the above

19. Shreyas Iyer reached a career-best rank in October 2026 in the ICC Men's T20I batting rankings. What rank?

A. 3rd
B. 7th
C. 10th
D. 1st
E. None of the above

20. August Kranti Diwas (8 August) marks Gandhi's 'Do or Die' call for the:

A. Civil Disobedience Movement
B. Champaran Satyagraha
C. Khilafat Movement
D. Quit India Movement
E. None of the above

21. Konkani was made the official language of Goa by the:

A. States Reorganisation Act, 1956
B. 71st Constitutional Amendment, 1992
C. Goa, Daman and Diu Official Language Act, 1987
D. Goa Statehood Act, 1987
E. None of the above

22. 'Malabar' is a naval exercise among India and the navies of:

A. USA, Japan and Australia
B. Sri Lanka and Maldives
C. UK, France and Germany
D. Russia and China
E. None of the above

23. The Vikram-1 rocket is developed by which Indian private company?

A. Pixxel
B. Skyroot Aerospace
C. Agnikul Cosmos
D. Dhruva Space
E. None of the above

24. The Nobel Prize in Chemistry 2026 went to Henri Kagan and Kenso Soai for work on:

A. quantum dots
B. protein structure prediction
C. lithium-ion batteries
D. asymmetric organic synthesis
E. None of the above

25. Kaziranga National Park, famous for the one-horned rhinoceros, is in:

A. West Bengal
B. Assam
C. Arunachal Pradesh
D. Meghalaya
E. None of the above

SECTION IV | 10 MARKS

Logical Reasoning

26. Find the next number in the series: 2, 6, 12, 20, 30, 42, ?

A. 56
B. 52
C. 54
D. 58
E. None of the above

27. In the word PANCHAYAT, how many letters lie between the first A and the last A?

A. 4
B. 5
C. 6
D. 7
E. None of the above

28. In a certain code MONDAY is 6, TUESDAY is 7 and WEDNESDAY is 9. What is SATURDAY in that code?

A. 6
B. 7
C. 8
D. 9
E. None of the above

29. Find the odd one out.

A. Collector
B. Mamlatdar
C. Talathi
D. Sarpanch
E. None of the above

30. A woman introduces a man as the son of her mother's brother. How is the man related to the woman?

A. Nephew
B. Cousin
C. Uncle
D. Brother
E. None of the above

31. Sita's house faces south. She leaves by the back door, walks 50 m straight ahead, turns right and walks 30 m. In which direction is she walking now?

A. East
B. West
C. North
D. South
E. None of the above

32. Statement: "The company's profits have increased since the new advertising campaign." Which judgment is sound?

A. The rise is solely due to the campaign
B. The rise is unrelated to the campaign
C. The campaign may have contributed to the rise
D. The company should stop advertising
E. None of the above

33. Numbers: 325 618 378 461 782 562 213. If the 1st and 3rd digits of each are interchanged, what is the sum of the product of the 1st and 3rd digits of the lowest number and that of the highest number?

A. 24
B. 30
C. 22
D. 28
E. None of the above

34. agnoscrenia = poisonous spider; delanocrenia = poisonous snake; agnosdeery = brown spider. Which word could mean "black widow spider"?

A. deeryclostagnos
B. agnosdelano
C. agnosvitriblunin
D. trymuttiagnos
E. None of the above

35. The diagonal of a rectangle is 25 cm and one side is 24 cm. Find its area.

A. 120 cm²
B. 140 cm²
C. 168 cm²
D. 420 cm²
E. None of the above

SECTION V | 25 MARKS

Core: Full syllabus (Topics 1 to 10)

36. The observation that symptoms disappear from above downward, from within outward and in the reverse order of their appearance is known as:

A. Hering's law of cure
B. the Arndt-Schulz law
C. Kent's second prescription
D. the law of simplex
E. None of the above

37. According to §16, the vital force can be affected only by:

A. mechanical influences
B. chemical influences
C. material causes
D. dynamic, spirit-like influences
E. None of the above

38. The return of old symptoms after a remedy is, according to Kent:

A. a good sign that the disease is being cured
B. a sign the remedy was wrong
C. a reason to antidote
D. a reason to change the remedy at once
E. None of the above

39. Which miasm did Hahnemann call the oldest, most universal and the mother of countless chronic diseases (§80)?

A. Sycosis
B. Syphilis
C. Psora
D. The tubercular diathesis
E. None of the above

40. Ferrum phosphoricum is chiefly used in:

A. chronic suppuration
B. paralysis
C. tumours
D. the first stage of inflammations and fevers, before exudation
E. None of the above

41. Varicose veins, bone affections and complaints that are better from cold and worse from heat, in a syphilitic constitution, suggest:

A. Calcarea fluor
B. Fluoric acid
C. Aurum met
D. Silicea
E. None of the above

42. Sour-smelling diarrhoea with green, frothy stools like the scum of a frog pond, in milk-intolerant infants, suggests:

A. Chamomilla
B. Magnesia carbonica
C. Podophyllum
D. Aethusa
E. None of the above

43. Bacillinum, a tubercular nosode, is especially used for:

A. acute sprains
B. gonorrhoeal history
C. patients with a tubercular history and recurrent chest infections or ringworm
D. scabies
E. None of the above

44. Remedies such as X-ray, Magnetis polus and Sol are drawn from which source?

A. Nosodes
B. Imponderabilia
C. Sarcodes
D. Mineral kingdom
E. None of the above

45. The abbreviation 'p.r.n.' on a prescription means:

A. twice daily
B. when required
C. before meals
D. immediately
E. None of the above

46. The 'Complete Repertory' was compiled by:

A. Frederik Schroyens
B. J. T. Kent
C. Roger van Zandvoort
D. S. R. Phatak
E. None of the above

47. C. M. Boger's approach to repertorisation gave special importance to:

A. only mental symptoms
B. clinical diagnosis alone
C. keynotes alone
D. pathological generals
E. None of the above

48. Secretin stimulates the pancreas to secrete juice rich in:

A. bicarbonate
B. enzymes
C. insulin
D. bile salts
E. None of the above

49. Cortisol is secreted by the adrenal cortex zone called:

A. zona glomerulosa
B. zona reticularis
C. zona fasciculata
D. medulla
E. None of the above

50. Lines of Zahn indicate:

A. a post-mortem clot
B. fat embolism
C. an infarct
D. a thrombus formed in flowing blood (ante-mortem)
E. None of the above

51. Kala-azar is transmitted by the:

A. Anopheles mosquito
B. tsetse fly
C. tick
D. sandfly (Phlebotomus)
E. None of the above

52. In a patient with Graves' disease, the thyroid profile shows (GPSC Medical Officer, 2024):

A. high TSH
B. low free T4
C. low T3
D. low TSH
E. None of the above

53. The Koebner phenomenon (lesions appearing at sites of injury) is typical of:

A. urticaria
B. scabies
C. psoriasis
D. tinea
E. None of the above

54. Urticaria with burning, stinging wheals, worse from heat and better from cold applications, calls for:

A. Apis mellifica
B. Rhus toxicodendron
C. Dulcamara
D. Sulphur
E. None of the above

55. Oligomenorrhoea, hirsutism, acne and multiple small ovarian follicles on ultrasound suggest:

A. Endometriosis
B. Fibroid uterus
C. Polycystic ovarian disease (PCOD)
D. Pelvic inflammatory disease
E. None of the above

56. Lower abdominal pain, fever, purulent vaginal discharge and cervical motion tenderness suggest:

A. Pelvic inflammatory disease
B. Primary dysmenorrhoea
C. Ovarian cyst
D. Normal menstruation
E. None of the above

57. For blunt injuries, bruises and a sore, bruised feeling after a fall, the first remedy is:

A. Hypericum
B. Calendula
C. Arnica montana
D. Ledum palustre
E. None of the above

58. Punctured wounds that feel cold to touch yet are better from cold applications call for:

A. Arnica montana
B. Ledum palustre
C. Calendula
D. Symphytum
E. None of the above

59. The main objective of Tele-MANAS is (GPSC Medical Officer, 2025):

A. teleconsultation for skin diseases
B. 24/7 free tele-mental-health services across India
C. AI radiology reporting
D. online CME for doctors
E. None of the above

60. The core principle of the Alma-Ata Declaration (1978) is (GPSC Medical Officer, 2025):

A. tertiary hospital expansion
B. Health for All through primary health care
C. privatisation of health
D. free medicines worldwide
E. None of the above

Explanations

English (Comprehension)

1 **A** **The total environmental impact from raw-material extraction to disposal.**
Vocabulary in context: a whole-life-cycle assessment. Passage: GPSC CBRT (Scientific Officer), Mar 2026.

2 **B** **If the electricity comes from fossil fuels, the EV still pollutes indirectly.**
Detail: pollution shifts 'from the highway to the power plant'. Passage: GPSC CBRT (Scientific Officer), Mar 2026.

3 **C** **A transitional technology, not a complete solution.**
Detail: 'not a silver bullet but a transitional technology'. Passage: GPSC CBRT (Scientific Officer), Mar 2026.

4 **A** **Their production involves human rights abuses in mining regions.**
Detail: the third sentence. Passage: GPSC CBRT (Scientific Officer), Mar 2026.

5 **D** **Critical realism**
Tone: accepts the benefit but corrects the hype. Passage: GPSC CBRT (Scientific Officer), Mar 2026.

6 **D** **a systemic problem rooted in development patterns**
Main idea: 'a reflection of flawed development priorities' and 'a systemic issue'. Passage: GPSC CBRT (Assistant District Educational Inspector / Teacher), Jan 2026.

7 **A** **It goes unnoticed until damage accumulates**
Vocabulary in context: 'accumulating over time before its consequences become evident'. Passage: GPSC CBRT (Assistant District Educational Inspector / Teacher), Jan 2026.

English (Comprehension)

8	**C**	**enforcement is weakened by political and corporate interests** Detail: the sixth sentence. Passage: GPSC CBRT (Assistant District Educational Inspector / Teacher), Jan 2026.
9	**A**	**pollution has deeper social and economic causes** Inference: technology 'rarely address[es] the underlying causes'. Passage: GPSC CBRT (Assistant District Educational Inspector / Teacher), Jan 2026.
10	**B**	**analytical and critical** Tone: it analyses causes and criticises priorities. Passage: GPSC CBRT (Assistant District Educational Inspector / Teacher), Jan 2026.

English Grammar

11	**A**	**He spoke as if he were the owner of the house.** 'As if / as though' for an unreal situation takes the past subjunctive 'were'. GPSC-style practice item, modelled on the 2026 grammar blocks.
12	**B**	**do not** 'Unless' already means 'if not'; drop 'do not'. GPSC-style practice item, modelled on the 2026 grammar blocks.
13	**C**	**He suggested that they should wait for the doctor.** 'Let us' becomes 'suggested/proposed that they should'. GPSC-style practice item, modelled on the 2026 grammar blocks.
14	**D**	**had left** The earlier of two past actions takes the past perfect. GPSC-style practice item, modelled on the 2026 grammar blocks.
15	**B**	**Purpose** 'Lest … should' expresses a negative purpose (so that … not). GPSC-style practice item, modelled on the 2026 grammar blocks.

General Knowledge / Current Affairs of India and Goa

16	**A**	**ICAR-Indian Institute of Maize Research** Launched by the Vice-President in August 2026.
17	**A**	**5 lakh SHG women** Aug 2026.
18	**C**	**Judo** Asmita Dey also won judo gold. Aug 2026.
19	**B**	**7th** Oct 2026.
20	**D**	**Quit India Movement** 2026 was its 84th anniversary.
21	**C**	**Goa, Daman and Diu Official Language Act, 1987** The 71st Amendment (1992) added Konkani to the Eighth Schedule.

General Knowledge / Current Affairs of India and Goa

22 **A** **USA, Japan and Australia**
The Quad navies.

23 **B** **Skyroot Aerospace**
Skyroot is India's first space unicorn.

24 **D** **asymmetric organic synthesis**
Oct 2026.

25 **B** **Assam**
A UNESCO World Heritage Site.

Logical Reasoning

26 **A** **56**
The terms are 1x2, 2x3, 3x4 and so on. The next is 7 x 8 = 56.

27 **B** **5**
The first A is the 2nd letter and the last A is the 8th. Between them are N, C, H, A, Y: five letters.

28 **C** **8**
Each word is coded by the number of letters in it. SATURDAY has 8.

29 **D** **Sarpanch**
The first three are appointed revenue officials. A Sarpanch is an elected head of a Panchayat.

30 **B** **Cousin**
Her mother's brother is her uncle, and his son is her cousin.

31 **A** **East**
The back of the house faces north. She walks north, and a right turn takes her east.

32 **C** **The campaign may have contributed to the rise**
Timing alone shows a possible link, not sole cause. GPSC CBRT, Mar 2025.

33 **D** **28**
New numbers: 523 816 873 164 287 265 312. Lowest 164 → 1 × 4 = 4; highest 873 → 8 × 3 = 24; total 28. GPSC CBRT, Mar 2025.

34 **C** **agnosvitriblunin**
agnos = spider and comes first; the new word must start with agnos and use no known word. GPSC CBRT, Sep 2025.

35 **C** **168 cm²**
Other side √(625 − 576) = 7; area 24 × 7 = 168. GPSC CBRT, Sep 2025.

Core: Full syllabus (Topics 1 to 10)

36 **A** **Hering's law of cure**
Topic 1, Organon and Philosophy. Constantine Hering described this direction of cure.

Core: Full syllabus (Topics 1 to 10)

37 **D** **dynamic, spirit-like influences**
Topic 1, Organon and Philosophy. §16: being spirit-like, it can be deranged and restored only by dynamic influences.

38 **A** **a good sign that the disease is being cured**
Topic 1, Organon and Philosophy. Old symptoms reappearing means the cure is following the right direction; the remedy is left to act.

39 **C** **Psora**
Topic 1, Organon and Philosophy. §80: psora is the oldest, most universal and most pernicious chronic miasmatic disease.

40 **D** **the first stage of inflammations and fevers, before exudation**
Topic 2, Materia Medica. Ferrum phos: early inflammatory stage, haemorrhagic tendency.

41 **B** **Fluoric acid**
Topic 2, Materia Medica. Fluoric acid: warm-blooded, varicosities, bone decay.

42 **B** **Magnesia carbonica**
Topic 2, Materia Medica. Magnesia carb: sourness of the whole body.

43 **C** **patients with a tubercular history and recurrent chest infections or ringworm**
Topic 2, Materia Medica. Burnett introduced Bacillinum.

44 **B** **Imponderabilia**
Topic 3, Pharmacy. Imponderabilia are 'weightless' energies: X-ray, magnetism, sunlight, electricity.

45 **B** **when required**
Topic 3, Pharmacy. Pro re nata.

46 **C** **Roger van Zandvoort**
Topic 4, Repertory. Schroyens compiled Synthesis.

47 **D** **pathological generals**
Topic 4, Repertory. Boger used pathological generals and causation.

48 **A** **bicarbonate**
Topic 5, Anatomy and Physiology. Cholecystokinin stimulates enzyme secretion and gallbladder contraction.

49 **C** **zona fasciculata**
Topic 5, Anatomy and Physiology. Glomerulosa = aldosterone; reticularis = androgens.

50 **D** **a thrombus formed in flowing blood (ante-mortem)**
Topic 6, Pathology, Microbiology and Diagnostics. Alternating platelet–fibrin and red-cell layers.

51 **D** **sandfly (Phlebotomus)**
Topic 6, Pathology, Microbiology and Diagnostics. Leishmania donovani; LD bodies in splenic aspirate.

52 **D** **low TSH**
Topic 7, Practice of Medicine. Suppressed TSH with raised T3 and T4.

Core: Full syllabus (Topics 1 to 10)

53	**C**	**psoriasis** Topic 7, Practice of Medicine. Also seen in lichen planus and vitiligo.
54	**A**	**Apis mellifica** Topic 7, Practice of Medicine. Apis: oedematous, stinging wheals, thirstless, better from cold.
55	**C**	**Polycystic ovarian disease (PCOD)** Topic 8, Obstetrics, Gynaecology and Paediatrics. Rotterdam criteria: two of anovulation, hyperandrogenism, polycystic ovaries.
56	**A**	**Pelvic inflammatory disease** Topic 8, Obstetrics, Gynaecology and Paediatrics. PID is an ascending infection; it risks infertility and ectopic pregnancy.
57	**C**	**Arnica montana** Topic 9, Surgery, ENT, Eye and First Aid. Arnica is the trauma remedy for blunt injury and shock.
58	**B**	**Ledum palustre** Topic 9, Surgery, ENT, Eye and First Aid. Ledum: puncture wounds, insect bites; cold yet better by cold.
59	**B**	**24/7 free tele-mental-health services across India** Topic 10, Community and Forensic Medicine, Ethics. National Tele Mental Health Programme, launched in 2022.
60	**B**	**Health for All through primary health care** Topic 10, Community and Forensic Medicine, Ethics. Primary health care as the key.
