GOA PUBLIC SERVICE COMMISSION | COMPUTER BASED RECRUITMENT TEST

Practice Set 16

English (Comprehension), English Grammar, General Knowledge and Current Affairs of India and Goa, Logical Reasoning, and Core. 60 questions, 60 marks, 75 minutes. Answer key and explanations at the end.

What this is. A practice paper in the pattern of the Homoeopathic Physician syllabus (Advt. 06/2026): Comprehension 10, Grammar 5, General Knowledge 10, Logical Reasoning 10 and Core 25. The questions in sections I, II and IV are taken from GPSC CBRT papers of 2023 to 2026, including the medical papers (Medical Officer 2024 and 2025, Pharmacology, Pharmaceutics, Pharmaceutical Chemist, Physiotherapy, Dentist, Ophthalmologist); each explanation names the paper. Section III (GK) is written for a CBRT on 1 November 2026, following the pattern of GPSC's GK papers from 2018 to September 2026: mostly current affairs of August to October 2026, with Goa, important days and some static GK. Where GPSC's printed key was wrong, the corrected answer is given. A few grammar items marked 'GPSC-style practice item' were written to fill the section. The core section is original, set to the ten core topics of the syllabus. In the real paper the core questions come first; here they come last, in syllabus order.

Section	Questions	Marks
English (Comprehension)	1 to 10	10
English Grammar	11 to 15	5
General Knowledge / Current Affairs of India and Goa	16 to 25	10
Logical Reasoning	26 to 35	10
Core: Full syllabus (Topics 1 to 10)	36 to 60	25
Total	**60**	**60**

Each question carries one mark and has five options; option E is always "None of the above", as in the real test. No marks are deducted for a wrong answer. The CBRT for the post of Homoeopathic Physician (Advt. 06 of 2026) is 60 marks in 75 minutes: these four sections plus a 25-mark core section. The qualifying marks are 30 of 60 for General, EWS and ex-servicemen, 27 for OBC, PwD and CFF, and 24 for SC and ST.

SECTION I | 10 MARKS

English (Comprehension)

Passage 1. Read the passage and answer questions 1 to 5.

The rapid growth of India’s digital economy, anchored by the Unified Payments Interface (UPI) and cheap mobile data, has turned the nation into a global blueprint for digital financial inclusion. By building a public digital infrastructure, the state has democratized electronic payments, allowing street vendors and major corporations alike to operate on the exact same interoperable network. This digital pivot has formalized large sectors of the informal economy, expanded fintech innovation, and streamlined direct benefit transfers, cutting out corruption. However, this sudden transition introduces severe economic vulnerabilities, notably an alarming escalation in sophisticated cyber-fraud and digital phishing operations targeting newly connected, digitally illiterate populations. Furthermore, the rapid growth of fintech lenders using predatory automated algorithms risks driving low-income borrowers into deep debt traps through high-interest short-term loans. The long-term stability of India's digital marketplace depends on implementing strong data protection laws, enforcing strict algorithm auditing for fintech firms, and launching massive public digital literacy campaigns.

1. India's public digital infrastructure is credited with transforming the economy by

A. shutting down informal street vending to protect large corporations
B. democratizing electronic payments across both informal and corporate sectors
C. forcing all fintech innovations under state-owned monopolies
D. eliminating the need for data protection laws
E. None of the above

2. According to the text, a direct benefit of formalising the informal economy through digital tools is

A. the complete eradication of automated lending algorithms
B. streamlining direct benefit transfers and reducing corruption
C. eliminating the need for digital literacy campaigns
D. reducing the market share of major payment providers
E. None of the above

3. The author warns that newly connected, digitally illiterate populations are particularly vulnerable to

A. strict data protection enforcement by the state
B. sophisticated cyber-fraud and digital phishing
C. removal of short-term fintech credit
D. network blackouts caused by UPI
E. None of the above

4. A major risk of automated fintech lending algorithms, per the passage, is that they can

A. block low-income borrowers from electronic payments
B. drop interest rates so low that banks fail
C. drive low-income borrowers into debt traps through predatory short-term loans
D. crash the UPI architecture
E. None of the above

5. The author concludes that the lasting success of India's digital marketplace requires

A. phasing out UPI and returning to cash
B. letting fintech firms self-regulate
C. strong data laws, algorithm audits and mass digital literacy campaigns
D. restricting digital access to educated urban users
E. None of the above

Passage 2. Read the passage and answer questions 6 to 10.

The escalating global water security crisis is often misdiagnosed as a simple challenge of climate-induced scarcity, when it is heavily compounded by systemic mismanagement and misallocated resources. Globally, critical freshwater aquifers are being rapidly depleted by industrial-scale agriculture, driven by inefficient flood irrigation and state-subsidized groundwater extraction. This policy-driven depletion is worsened by widespread industrial pollution and untreated municipal sewage, which turns vital river systems into toxic channels and shrinks the global supply of potable water. Legacy water governance models remain stubbornly centralized, focusing on massive, capital-intensive dams and long-distance water transfer projects that disrupt river ecology and displace marginalized communities. Mitigating this existential threat requires decentralized water governance, centering on localized rainwater harvesting, wastewater recycling, and watershed rejuvenation. Furthermore, agriculture must pivot toward micro-irrigation and crop diversification away from water-intensive cash crops in arid regions. True water security requires treating water not as a commodified, infinite economic input, but as a finite, shared ecological asset that must be protected.

6. The author says the water crisis is “misdiagnosed” when it is blamed entirely on

A. inefficient flood irrigation
B. the absence of large dams
C. climate-induced scarcity, ignoring systemic mismanagement
D. decentralised community governance
E. None of the above

7. According to the text, a major policy-driven factor speeding up aquifer depletion is

A. crop diversification away from cash crops
B. state-subsidised groundwater extraction and inefficient flood irrigation
C. nationalising wastewater recycling
D. mandatory micro-irrigation
E. None of the above

8. The passage criticises legacy water governance for prioritising

A. decentralised rainwater harvesting
B. treating aquifers as protected assets
C. large, expensive dams and transfer projects that damage river ecology
D. micro-irrigation subsidies that exclude small farmers
E. None of the above

9. To achieve water security, the author says agriculture must

A. pump more groundwater with power subsidies
B. move to micro-irrigation and away from water-heavy crops in dry zones
C. rely only on centralised dams
D. shift entirely to water-intensive cash crops
E. None of the above

10. The final sentence asks society to view water as

A. an infinite input to be commodified
B. a secondary resource for industry to manage
C. an unmanageable asset because of climate
D. a finite, shared ecological asset that must be protected
E. None of the above

SECTION II | 5 MARKS

English Grammar

11. Identify the clause type: “Whatever he says does not matter.”

A. Adjective clause
B. Noun clause
C. Adverb clause
D. Relative clause
E. None of the above

12. Change into indirect speech: He said, “I am busy today.”

A. He said that he was busy that day.
B. He said that I am busy today.
C. He said that he is busy today.
D. He said that he had been busy today.
E. None of the above

13. Identify the correct sentence:

A. He is taller than me am.
B. He is taller than I am.
C. He is taller than I am tall.
D. He taller than me.
E. None of the above

14. Find the error: “The results of the survey was surprising.”

A. results
B. of
C. was
D. surprising
E. None of the above

15. Choose the correct article: “He is ____ honest man.”

A. a
B. an
C. the
D. no article
E. None of the above

SECTION III | 10 MARKS

General Knowledge / Current Affairs of India and Goa

16. The 'Districts as Export Hubs' initiative expanded in September 2026 to cover more than:

A. 300 districts
B. 500 districts
C. 770 districts
D. 1,000 districts
E. None of the above

17. The Vice-President of India is the ex-officio Chairman of the Rajya Sabha under Article:

A. 63
B. 64
C. 89
D. 79
E. None of the above

18. Anandkumar Velkumar won silver in the men's 1,000-m sprint at the 2026 World Games of which sport, held in Paraguay?

A. Skating
B. Canoeing
C. Cycling
D. Rowing
E. None of the above

19. Indian Air Force Day is observed on:

A. 26 July
B. 8 October
C. 15 January
D. 4 December
E. None of the above

20. The government grant announced at the Goa Chess Academy launch (2026) supports a chess tournament named after:

A. Jack Sequeira
B. Dayanand Bandodkar
C. Rammanohar Lohia
D. Manohar Parrikar
E. None of the above

21. INS Nipun, the second Nistar-class diving support vessel, was commissioned in September 2026 at:

A. Karwar
B. Visakhapatnam
C. Mumbai
D. Kochi
E. None of the above

22. The seventh Global Fintech Fest was held in 2026 in:

A. Bengaluru
B. Mumbai
C. GIFT City
D. New Delhi
E. None of the above

23. In 2026 the Ministry of AYUSH signed an MoU with which body for AI-driven innovation in traditional medicine?

A. IndiaAI
B. NASSCOM
C. ICMR
D. C-DAC
E. None of the above

24. Who was crowned Miss Universe India 2026?

A. Kazia Liz Mejo
B. Harnaaz Sandhu
C. Manika Vishwakarma
D. Rhea Singha
E. None of the above

25. The chemical symbol for sodium is:

A. S
B. Sd
C. So
D. Na
E. None of the above

SECTION IV | 10 MARKS

Logical Reasoning

26. Today is Monday. After 61 days it will be:

A. Wednesday
B. Saturday
C. Tuesday
D. Thursday
E. None of the above

27. Two trains run in opposite directions with speeds 2 : 1. The first passes a standing man in 5 s, the second in 8 s. How long do they take to cross each other?

A. 6 sec
B. 3 sec
C. 5 sec
D. 9 sec
E. None of the above

28. Who is the fastest of Rani, Supriya and Amita (all different)? I. Rani and Supriya take 5 days; Supriya and Amita take 10 days. II. Rani and Amita take 30/7 days.

A. I alone is sufficient
B. II alone is sufficient
C. Either alone
D. Both are needed
E. None of the above

29. Ten years ago Sitamma was three times Radha's age. In ten years she will be twice Radha's age. What is the ratio of their present ages?

A. 7:3
B. 3:1
C. 2:1
D. 1:4
E. None of the above

30. Identify the next term: A1Z, B3Y, D6X, G10W, K15V, …

A. P21U
B. O21U
C. P22T
D. O22T
E. None of the above

31. Raju walks 20 m west, turns left and walks 20 m, turns left and walks 20 m, turns left again and walks 20 m. Which direction is he facing?

A. North
B. South
C. East
D. West
E. None of the above

32. If REASON is coded 5 and BELIEVED 7, what is the code for GOVERNMENT?

A. 6
B. 8
C. 9
D. 10
E. None of the above

33. In a row of boys, Seby is 20th from the left and Alan 22nd from the right. When they swap, 18 boys are to the right of Alan. How many boys are in the row?

A. 38
B. 39
C. 42
D. 40
E. None of the above

34. Ichthyology : Fishes :: Pedology : ?

A. Shells
B. Names
C. Soil
D. Moon
E. None of the above

35. Find the number in place of ?: 1, 7, 37, 187, 937, ?

A. 4687
B. 1823
C. 5687
D. 5000
E. None of the above

SECTION V | 25 MARKS

Core: Full syllabus (Topics 1 to 10)

36. According to Hahnemann, emotional diseases of recent origin produced and kept up by the mind (§226) may be cured by:

A. high-potency remedies only
B. psychological means such as confidence, friendly advice and reasoning
C. surgery
D. isopathy
E. None of the above

37. In chronic diseases (§259–261) Hahnemann advised the patient to avoid:

A. all food
B. exercise
C. fresh air
D. medicinal substances in food and drink, such as strong coffee, spices and perfumes
E. None of the above

38. Kent's second prescription may be any of the following EXCEPT:

A. a repetition of the first remedy
B. an antidote
C. a mixture of several remedies given together
D. a complementary remedy
E. None of the above

39. Complaints from exposure to damp cold, especially when hot days are followed by cold nights, call for:

A. Bryonia
B. Aconite
C. Dulcamara
D. Belladonna
E. None of the above

40. Prolapse of the uterus with bearing-down sensation as if everything would come out, crossing the legs for relief, with indifference to family, indicates:

A. Sepia
B. Pulsatilla
C. Lilium tigrinum
D. Platina
E. None of the above

41. Hurried, busy feeling, bearing-down pelvic pains, and the need to keep busy to suppress sexual feelings point to:

A. Lilium tigrinum
B. Sepia
C. Platina
D. Murex
E. None of the above

42. Cramps in calves and toes, epileptic spasms, and complaints relieved by drinking cold water point to:

A. Cuprum metallicum
B. Calcarea carb
C. Causticum
D. Magnesia phos
E. None of the above

43. Which of these is prepared from a diseased tissue or product (a nosode)?

A. Thyroidinum
B. Tuberculinum
C. Lac caninum
D. Sepia
E. None of the above

44. In homoeopathic pharmacy, the 'drug strength' of a mother tincture describes:

A. the potency number
B. the alcohol percentage only
C. the weight of the bottle
D. the proportion of the crude drug in the mother tincture
E. None of the above

45. Which repertory method gives most importance to the patient's general modalities and concomitants rather than mental symptoms?

A. Kent's method
B. Elimination method only
C. Boenninghausen's method
D. Keynote method
E. None of the above

46. In Kent's Repertory, a general aggravation from cold air is looked up in the chapter:

A. Mind
B. Skin
C. Generalities
D. Respiration
E. None of the above

47. A patient understands speech but cannot speak fluently after a stroke. The lesion is in:

A. Wernicke's area, superior temporal gyrus
B. Broca's area, inferior frontal gyrus
C. the occipital lobe
D. the cerebellum
E. None of the above

48. Erythropoietin is produced mainly by the:

A. Liver
B. Bone marrow
C. Spleen
D. Kidneys
E. None of the above

49. Rheumatic fever is a complication of infection with:

A. Staphylococcus aureus
B. Group A beta-haemolytic streptococcus
C. Pneumococcus
D. Pseudomonas
E. None of the above

50. Microcytic hypochromic anaemia is most often due to:

A. Iron deficiency
B. Vitamin B12 deficiency
C. Folate deficiency
D. Haemolysis
E. None of the above

51. Heat intolerance, weight loss with good appetite, tremor and exophthalmos suggest:

A. Hypothyroidism
B. Cushing's syndrome
C. Graves' disease (hyperthyroidism)
D. Addison's disease
E. None of the above

52. The main dietary advice for a patient with gout is to reduce intake of:

A. water
B. purine-rich foods such as organ meats and alcohol
C. fresh vegetables
D. milk
E. None of the above

53. Palpitation, headache and a bursting sensation in the head from exposure to the sun suggest:

A. Natrum mur
B. Bryonia
C. Ignatia
D. Glonoinum
E. None of the above

54. The average duration of a normal pregnancy from the first day of the last menstrual period is:

A. 240 days
B. 280 days
C. 300 days
D. 320 days
E. None of the above

55. Severe acute malnutrition in a child of 6–59 months is identified by a mid-upper arm circumference below:

A. 13.5 cm
B. 15 cm
C. 11.5 cm
D. 9 cm
E. None of the above

56. The first aid for a person with a suspected spinal injury is to:

A. keep the spine still and move only with proper support
B. sit the person up
C. give a strong drink
D. bend the neck forward to open the airway
E. None of the above

57. Inflammation of the paranasal sinuses with facial pain and nasal discharge is called:

A. Tonsillitis
B. Sinusitis
C. Otitis media
D. Rhinitis medicamentosa
E. None of the above

58. Genus epidemicus is used in outbreak control to:

A. find a common remedy for most cases in an epidemic
B. name the epidemic organism
C. select a vaccine
D. measure incidence
E. None of the above

59. The crude birth rate is expressed per:

A. 1,000 women aged 15–49
B. 100,000 population
C. 1,000 live births
D. 1,000 mid-year population
E. None of the above

60. A post-mortem examination ordered by the police or magistrate in a suspicious death is called a:

A. clinical autopsy
B. medicolegal autopsy
C. academic autopsy
D. verbal autopsy
E. None of the above

Explanations

English (Comprehension)

1 **B** **democratizing electronic payments across both informal and corporate sectors**
Street vendors and corporations use “the exact same interoperable network”. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

2 **B** **streamlining direct benefit transfers and reducing corruption**
Stated in the third sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

3 **B** **sophisticated cyber-fraud and digital phishing**
Stated in the fourth sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

4 **C** **drive low-income borrowers into debt traps through predatory short-term loans**
Stated in the fifth sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

5 **C** **strong data laws, algorithm audits and mass digital literacy campaigns**
The last sentence lists all three. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

6 **C** **climate-induced scarcity, ignoring systemic mismanagement**
First sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

7 **B** **state-subsidised groundwater extraction and inefficient flood irrigation**
Second sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

English (Comprehension)

8	**C**	**large, expensive dams and transfer projects that damage river ecology** Fourth sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.
9	**B**	**move to micro-irrigation and away from water-heavy crops in dry zones** Sixth sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.
10	**D**	**a finite, shared ecological asset that must be protected** Last sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

English Grammar

11	**B**	**Noun clause** The clause is the subject of 'does not matter', so it is a noun clause. GPSC CBRT, Mar 2026.
12	**A**	**He said that he was busy that day.** Present becomes past; 'today' becomes 'that day'. GPSC-style practice item.
13	**B**	**He is taller than I am.** 'Than I am': subject pronoun with the verb. GPSC CBRT, Mar 2026.
14	**C**	**was** The subject is 'results' (plural): 'were'. GPSC CBRT, Mar 2026.
15	**B**	**an** 'Honest' begins with a vowel sound (silent h). GPSC-style practice item.

General Knowledge / Current Affairs of India and Goa

16	**C**	**770 districts** Sep 2026.
17	**B**	**64** C. P. Radhakrishnan is the 15th Vice-President.
18	**A**	**Skating** World Skating Games. Oct 2026.
19	**B**	**8 October** The IAF was founded on 8 October 1932.
20	**D**	**Manohar Parrikar** ₹20 lakh for the Manohar Parrikar Chess Tournament.
21	**C**	**Mumbai** Sep 2026.
22	**B**	**Mumbai** Sep 2026.
23	**A**	**IndiaAI** Aug 2026.

General Knowledge / Current Affairs of India and Goa

24 **A** **Kazia Liz Mejo**
Aug 2026.

25 **D** **Na**
From the Latin 'natrium'.

Logical Reasoning

26 **B** **Saturday**
61 = 8 weeks + 5 days; Monday + 5 = Saturday. GPSC CBRT, Feb 2024.

27 **A** **6 sec**
Lengths 10v and 8v; relative speed 3v; 18v ÷ 3v = 6 s. GPSC CBRT, Feb 2024.

28 **A** **I alone is sufficient**
From I, r − a = 1/10, so Rani beats Amita. Since s + a = 1/10, s is below 1/10 while r is above it, so Rani is fastest. GPSC CBRT, Feb 2024.

29 **A** **7:3**
S − 10 = 3(R − 10), S + 10 = 2(R + 10), so R = 30 and S = 70. GPSC CBRT, Feb 2024.

30 **A** **P21U**
Letters +1, +2, +3, +4, +5 → P; numbers +2, +3, +4, +5, +6 → 21; last letters run back to U. GPSC CBRT, Jun 2025.

31 **A** **North**
West → left = South → left = East → left = North. GPSC CBRT, Jun 2025.

32 **C** **9**
Code = number of letters − 1: GOVERNMENT has 10, so 9. GPSC CBRT, Jun 2025.

33 **A** **38**
After the swap Alan is 20th from the left with 18 to his right: 20 + 18 = 38. GPSC CBRT, Jun 2025.

34 **C** **Soil**
Pedology is the study of soil. GPSC CBRT, Jun 2025.

35 **A** **4687**
× 5 + 2 each time: 937 × 5 + 2 = 4687. GPSC CBRT, Jun 2025.

Core: Full syllabus (Topics 1 to 10)

36 **B** **psychological means such as confidence, friendly advice and reasoning**
Topic 1, Organon and Philosophy. Psychotherapeutic measures, with a suitable antipsoric regimen afterwards.

37 **D** **medicinal substances in food and drink, such as strong coffee, spices and perfumes**
Topic 1, Organon and Philosophy. They disturb the action of the remedy.

Core: Full syllabus (Topics 1 to 10)

38 **C** **a mixture of several remedies given together**
Topic 1, Organon and Philosophy. Kent listed repetition, antidote, complementary remedy and change of plan; mixtures go against the simplex principle.

39 **C** **Dulcamara**
Topic 2, Materia Medica. Dulcamara: diarrhoea, rheumatism and skin complaints from damp cold.

40 **A** **Sepia**
Topic 2, Materia Medica. Sepia: bearing down, indifference to loved ones.

41 **A** **Lilium tigrinum**
Topic 2, Materia Medica. Lilium: hurry, wild feeling, uterine prolapse with cardiac symptoms.

42 **A** **Cuprum metallicum**
Topic 2, Materia Medica. Cuprum: violent cramps, cold water relieves the cough.

43 **B** **Tuberculinum**
Topic 3, Pharmacy. Thyroidinum is a sarcode; Lac caninum and Sepia are animal sources.

44 **D** **the proportion of the crude drug in the mother tincture**
Topic 3, Pharmacy. Usually 1/10 for most tinctures under the new method.

45 **C** **Boenninghausen's method**
Topic 4, Repertory. Boenninghausen's method relies on generalised modalities and concomitants.

46 **C** **Generalities**
Topic 4, Repertory. Modalities affecting the whole patient are in Generalities.

47 **B** **Broca's area, inferior frontal gyrus**
Topic 5, Anatomy and Physiology. Broca's (areas 44, 45) = motor speech; Wernicke's lesion gives fluent but meaningless speech.

48 **D** **Kidneys**
Topic 5, Anatomy and Physiology. In response to hypoxia.

49 **B** **Group A beta-haemolytic streptococcus**
Topic 6, Pathology, Microbiology and Diagnostics. Usually after a streptococcal sore throat.

50 **A** **Iron deficiency**
Topic 6, Pathology, Microbiology and Diagnostics. Commonest anaemia in India.

51 **C** **Graves' disease (hyperthyroidism)**
Topic 7, Practice of Medicine. Thyroid overactivity.

52 **B** **purine-rich foods such as organ meats and alcohol**
Topic 7, Practice of Medicine. Purines raise uric acid.

53 **D** **Glonoinum**
Topic 7, Practice of Medicine. Glonoine: sunstroke, surging of blood to the head.

Core: Full syllabus (Topics 1 to 10)

54	**B**	**280 days** Topic 8, Obstetrics, Gynaecology and Paediatrics. 40 weeks.
55	**C**	**11.5 cm** Topic 8, Obstetrics, Gynaecology and Paediatrics. Or bilateral pitting oedema, or weight-for-height below −3 SD.
56	**A**	**keep the spine still and move only with proper support** Topic 9, Surgery, ENT, Eye and First Aid. Use jaw thrust instead of head tilt if needed.
57	**B**	**Sinusitis** Topic 9, Surgery, ENT, Eye and First Aid. Maxillary sinus is most often involved.
58	**A**	**find a common remedy for most cases in an epidemic** Topic 10, Community and Forensic Medicine, Ethics. Found by studying the symptoms of several cases.
59	**D**	**1,000 mid-year population** Topic 10, Community and Forensic Medicine, Ethics. Live births in a year per 1,000 mid-year population.
60	**B**	**medicolegal autopsy** Topic 10, Community and Forensic Medicine, Ethics. Done under the BNSS (formerly CrPC) to establish cause and manner of death.
