GOA PUBLIC SERVICE COMMISSION | COMPUTER BASED RECRUITMENT TEST

Practice Set 4

English (Comprehension), English Grammar, General Knowledge and Current Affairs of India and Goa, Logical Reasoning, and Core. 60 questions, 60 marks, 75 minutes. Answer key and explanations at the end.

What this is. A practice paper in the pattern of the Homoeopathic Physician syllabus (Advt. 06/2026): Comprehension 10, Grammar 5, General Knowledge 10, Logical Reasoning 10 and Core 25. The questions in sections I, II and IV are taken from GPSC CBRT papers of 2023 to 2026, including the medical papers (Medical Officer 2024 and 2025, Pharmacology, Pharmaceutics, Pharmaceutical Chemist, Physiotherapy, Dentist, Ophthalmologist); each explanation names the paper. Section III (GK) is written for a CBRT on 1 November 2026, following the pattern of GPSC's GK papers from 2018 to September 2026: mostly current affairs of August to October 2026, with Goa, important days and some static GK. Where GPSC's printed key was wrong, the corrected answer is given. A few grammar items marked 'GPSC-style practice item' were written to fill the section. The core section is original, set to the ten core topics of the syllabus. In the real paper the core questions come first; here they come last, in syllabus order.

Section	Questions	Marks
English (Comprehension)	1 to 10	10
English Grammar	11 to 15	5
General Knowledge / Current Affairs of India and Goa	16 to 25	10
Logical Reasoning	26 to 35	10
Core: Practice of Medicine and Homoeopathic Therapeutics	36 to 60	25
Total	**60**	**60**

Each question carries one mark and has five options; option E is always "None of the above", as in the real test. No marks are deducted for a wrong answer. The CBRT for the post of Homoeopathic Physician (Advt. 06 of 2026) is 60 marks in 75 minutes: these four sections plus a 25-mark core section. The qualifying marks are 30 of 60 for General, EWS and ex-servicemen, 27 for OBC, PwD and CFF, and 24 for SC and ST.

SECTION I | 10 MARKS

English (Comprehension)

Passage 1. Read the passage and answer questions 1 to 5.

The traditional linear economic model—predicated on an extractive "take-make-waste" philosophy—has driven global ecosystems to the brink of a waste crisis, choked by plastic pollution and hazardous electronic waste. For decades, municipal waste management relied on a "downstream" approach, focusing on expanding landfills and building energy-intensive incinerators. These methods merely conceal or transform garbage rather than eliminating its volume, releasing toxic leachates and greenhouse gases back into the environment. Transitioning to a circular economy requires an absolute "upstream" transformation, where products are intentionally engineered from inception for durability, modular disassembly, and complete material recovery. This shift demands strict Extended Producer Responsibility (EPR) regulations that legally bind corporations to internalize the end-of-life environmental costs of their goods. Furthermore, upgrading the waste sector requires formalizing and protecting the informal recycling networks that handle waste collection in developing countries. Ultimately, a circular economy is not a simple community recycling initiative; it requires a complete decoupling of industrial economic growth from finite resource consumption.

1. The primary flaw the author identifies in the "downstream" approach to waste is that it:

A. Conceals or transforms waste rather than reducing its volume.
B. Forces economies to stop making electronic goods.
C. Depends too much on EPR regulations.
D. Relies too heavily on informal recyclers.
E. None of the above

2. A "circular economy", as described in the passage, fundamentally requires:

A. Expanding landfill capacity.
B. Engineering products from the start for durability, easy disassembly and recycling.
C. Shifting all recovery costs to consumers.
D. Moving all manufacturing to waste-to-energy incinerators.
E. None of the above

3. What does Extended Producer Responsibility (EPR) legally require corporations to do?

A. Pay the state to manage informal waste workers.
B. Maximise production to lower prices.
C. Stop all modular manufacturing.
D. Bear the end-of-life environmental costs of their products.
E. None of the above

4. The passage says waste reform in developing countries must include:

A. Banning landfills before alternatives exist.
B. Eliminating informal recycling networks.
C. Formalizing and protecting informal waste workers.
D. Returning to the take-make-waste model.
E. None of the above

5. The ultimate goal of a circular economy, according to the final sentence, is to:

A. Ensure economic growth no longer depends on consuming finite resources.
B. Turn recycling into state monopolies.
C. Make corporations immune to regulation.
D. Lower the cost of incinerators.
E. None of the above

Passage 2. Read the passage and answer questions 6 to 10.

Despite the rapid proliferation of artificial intelligence across industries, there remains considerable skepticism about its capacity to emulate human creativity. While AI can synthesize vast data and mimic stylistic nuances, its output often lacks the unpredictability and emotional depth characteristic of genuine artistic innovation. Recent experiments in machine-generated literature and art have produced technically proficient results, yet critics argue these works are fundamentally derivative, echoing established patterns from human creators rather than originating new paradigms. Nevertheless, advocates insist that AI expands the boundaries of creativity, facilitating novel collaborations between humans and machines. Researchers point to hybrid projects that leverage algorithmic input as a catalyst for breakthroughs, suggesting a future where AI serves less as a replacement and more as an enhancer of human ingenuity. As the debate intensifies, questions persist on what constitutes truly original art and whether creative intuition can ever be programmed. Ultimately, the integration of AI into creative fields demands a reassessment not just of technology’s capabilities but also of our definitions of artistry.

6. According to the passage, why do critics regard AI-generated art as "fundamentally derivative"?

A. It replicates existing human patterns instead of creating new ones
B. It often plagiarizes existing works
C. It ignores stylistic nuances
D. It lacks technical proficiency
E. None of the above

7. What role do AI advocates claim for artificial intelligence in the creative process?

A. Undermining originality
B. Replacing human creators
C. Enhancing human creativity through collaboration
D. Restricting artistic boundaries
E. None of the above

8. The passage suggests that machine-generated literature has been criticized mainly for its:

A. reliance on human-created paradigms
B. lack of technical competence
C. inability to handle data
D. unpredictability
E. None of the above

9. According to the passage, what does the ongoing debate about AI and artistry imply for the future?

A. Creative intuition is easily programmed
B. Definitions of artistry may need to be re-evaluated
C. Human ingenuity will become obsolete
D. AI will surpass human artists
E. None of the above

10. Which of the following best captures the author’s perspective on AI’s potential in creativity?

A. AI's role is mainly technical and limited
B. AI is an existential threat to art
C. AI inevitably diminishes emotional depth
D. AI may serve more as an enhancer than as a replacement
E. None of the above

SECTION II | 5 MARKS

English Grammar

11. Choose the correct sentence:

A. Seldom did I have met so honest an officer.
B. Seldom have I met so honest an officer.
C. Seldom have met I so honest an officer.
D. Seldom I have met so honest an officer.
E. None of the above

12. Identify the error: “I am knowing the new doctor since last year.”

A. am knowing
B. the new doctor
C. since
D. last year
E. None of the above

13. Choose the correct passive construction: “Open the window.”

A. Let the window is opened.
B. The window be opened.
C. The window should opened.
D. Let the window be opened.
E. None of the above

14. Choose the correct modal: “He looks pale; he _____ be unwell.”

A. must
B. need
C. dare
D. ought
E. None of the above

15. Identify the function of the underlined phrase: “He worked hard in order to succeed.”

A. Adverb of purpose
B. Adjective phrase
C. Adverb of time
D. Noun phrase
E. None of the above

SECTION III | 10 MARKS

General Knowledge / Current Affairs of India and Goa

16. PM Narendra Modi's Independence Day address in 2026 was his ___ consecutive speech from the Red Fort.

A. 11th
B. 12th
C. 13th
D. 14th
E. None of the above

17. The National Social Assistance Programme was approved for 2026-27 to 2030-31 with an outlay of:

A. ₹25,000 crore
B. ₹1.2 lakh crore
C. ₹10,000 crore
D. ₹53,428 crore
E. None of the above

18. Who heads the GST Council?

A. The Union Finance Minister
B. The RBI Governor
C. The Prime Minister
D. The Revenue Secretary
E. None of the above

19. Who won the Golden Glove at the 2026 FIFA World Cup?

A. Unai Simón
B. Gianluigi Donnarumma
C. Thibaut Courtois
D. Emiliano Martínez
E. None of the above

20. World Sight Day is observed on:

A. 14 November
B. the second Thursday of October
C. 10 October
D. the first Monday of October
E. None of the above

21. Goa University was established in:

A. 1975
B. 1985
C. 1992
D. 1961
E. None of the above

22. 'Tarang Shakti' is a multinational exercise hosted by the:

A. Indian Coast Guard
B. Indian Navy
C. Indian Air Force
D. Indian Army
E. None of the above

23. In 2026 India overtook which country to become the world's second-largest solar growth market, adding 37 GW?

A. United States
B. Japan
C. Germany
D. China
E. None of the above

24. The 48th session of UNESCO's World Heritage Committee (2026), which inscribed 25 new sites, was held in:

A. Riyadh, Saudi Arabia
B. Busan, South Korea
C. New Delhi, India
D. Paris, France
E. None of the above

25. Abelardo de la Espriella was sworn in as President of which country in August 2026?

A. Peru
B. Venezuela
C. Argentina
D. Colombia
E. None of the above

SECTION IV | 10 MARKS

Logical Reasoning

26. Find the next number in the series: 2, 5, 10, 17, 26, ?

A. 37
B. 35
C. 36
D. 38
E. None of the above

27. If TABLE is written as UBCMF in a certain code, how is CHAIR written?

A. DIBJR
B. DIBJS
C. BGZHQ
D. DJBJS
E. None of the above

28. Find the odd one out.

A. Rice
B. Wheat
C. Maize
D. Cotton
E. None of the above

29. Pointing to a boy, Sunita said, 'He is the son of my husband's only sister.' How is the boy related to Sunita?

A. Son
B. Brother
C. Nephew
D. Cousin
E. None of the above

30. One morning just after sunrise, Vikram stood facing a pole. The shadow of the pole fell exactly to his right. Which direction was he facing?

A. North
B. East
C. West
D. South
E. None of the above

31. Six friends A, B, C, D, E and F sit in a row facing north. C is at the extreme left. A is third from the right end. B is to the immediate right of A. D sits next to both C and E. Who is at the extreme right?

A. B
B. E
C. F
D. D
E. None of the above

32. Ayesha's father was 38 when she was born; her mother was 36 when her brother, four years younger than Ayesha, was born. What is the difference between the parents' ages?

A. 2 years
B. 4 years
C. 6 years
D. 8 years
E. None of the above

33. If 15 men complete a work in 24 days, how many men will complete the same work in 10 days?

A. 30
B. 36
C. 45
D. 50
E. None of the above

34. A train 130 m long at 45 km/h crosses a bridge in 30 seconds. How long is the bridge?

A. 200 m
B. 225 m
C. 245 m
D. 250 m
E. None of the above

35. Sequence: 2, 10, 60, 420, 3360, ?

A. 25,200
B. 26,880
C. 30,240
D. 32,760
E. None of the above

SECTION V | 25 MARKS

Core: Practice of Medicine and Homoeopathic Therapeutics

36. Under current Indian and international guidelines, hypertension in an adult is diagnosed at a clinic BP of at least:

A. 120/80 mmHg
B. 130/85 mmHg
C. 140/90 mmHg
D. 160/100 mmHg
E. None of the above

37. Central chest pain on exertion, relieved by rest within a few minutes, is typical of:

A. Myocardial infarction
B. Pericarditis
C. Stable angina pectoris
D. Pulmonary embolism
E. None of the above

38. The most specific cardiac biomarker for myocardial infarction is:

A. LDH
B. SGOT
C. Troponin
D. CK total
E. None of the above

39. Wheeze that varies over time and is reversible with bronchodilators is typical of:

A. COPD
B. Bronchiectasis
C. Lobar pneumonia
D. Bronchial asthma
E. None of the above

40. The single most important cause of COPD is:

A. Air pollution
B. Asthma
C. Tuberculosis
D. Tobacco smoking
E. None of the above

41. Sudden weakness of one side of the body with facial deviation most likely indicates:

A. Myasthenia gravis
B. Stroke
C. Bell's palsy
D. Guillain–Barré syndrome
E. None of the above

42. A generalised tonic-clonic seizure lasting more than 5 minutes is treated as:

A. Status epilepticus
B. Simple syncope
C. Absence seizure
D. Febrile convulsion
E. None of the above

43. Burning epigastric pain relieved by food is classically associated with:

A. Gastric ulcer
B. Gallstones
C. Duodenal ulcer
D. Pancreatitis
E. None of the above

44. The bacterium linked to most peptic ulcers is:

A. Helicobacter pylori
B. E. coli
C. Clostridium difficile
D. Campylobacter
E. None of the above

45. Heartburn and acid regurgitation, worse on lying down after meals, suggest:

A. Irritable bowel syndrome
B. Cholecystitis
C. GERD
D. Appendicitis
E. None of the above

46. Recurrent abdominal pain relieved by defecation, with altered stool frequency and no organic disease, suggests:

A. Irritable bowel syndrome
B. Ulcerative colitis
C. Colorectal cancer
D. Amoebic dysentery
E. None of the above

47. The commonest cause of cirrhosis worldwide includes chronic viral hepatitis and:

A. Alcohol
B. Gallstones
C. Peptic ulcer
D. Hypothyroidism
E. None of the above

48. Pain in the right upper abdomen with tenderness that stops inspiration on palpation (Murphy's sign) indicates:

A. Appendicitis
B. Acute cholecystitis
C. Renal colic
D. Pancreatitis
E. None of the above

49. Diabetes mellitus is diagnosed when fasting plasma glucose is at least:

A. 100 mg/dL
B. 110 mg/dL
C. 126 mg/dL
D. 200 mg/dL
E. None of the above

50. Weight gain, cold intolerance, constipation and dry skin suggest:

A. Hyperthyroidism
B. Addison's disease
C. Diabetes insipidus
D. Hypothyroidism
E. None of the above

51. Acute gout most often first affects the:

A. Metatarsophalangeal joint of the great toe
B. Knee
C. Wrist
D. Hip
E. None of the above

52. Night blindness is an early symptom of deficiency of:

A. Vitamin B1
B. Vitamin A
C. Vitamin C
D. Vitamin D
E. None of the above

53. Silvery-white scaly plaques on the extensor surfaces of elbows and knees suggest:

A. Eczema
B. Urticaria
C. Psoriasis
D. Scabies
E. None of the above

54. Itchy, transient wheals that disappear within 24 hours are characteristic of:

A. Urticaria
B. Psoriasis
C. Lichen planus
D. Tinea
E. None of the above

55. Koplik's spots on the buccal mucosa appear before the rash in:

A. Chickenpox
B. Rubella
C. Measles
D. Mumps
E. None of the above

56. Hot, red face, throbbing headache, dilated pupils and sudden high fever without thirst suggest:

A. Belladonna
B. Bryonia
C. Gelsemium
D. Pulsatilla
E. None of the above

57. Influenza with drowsiness, dullness, heavy eyelids, trembling and thirstlessness calls for:

A. Arsenicum album
B. Gelsemium
C. Bryonia
D. Rhus tox
E. None of the above

58. Fever with severe 'bone-breaking' aching pains, as in dengue or influenza, points to:

A. Chamomilla
B. Ignatia
C. Eupatorium perfoliatum
D. Apis
E. None of the above

59. Urticaria with stinging, burning wheals relieved by cold applications calls for:

A. Rhus tox
B. Apis mellifica
C. Sulphur
D. Dulcamara
E. None of the above

60. Asthma with suffocation from the slightest motion, relieved by being fanned, and a craving for fresh air suggests:

A. Arsenicum album
B. Ipecac
C. Antimonium tart
D. Carbo vegetabilis
E. None of the above

Explanations

English (Comprehension)

1 **A** **Conceals or transforms waste rather than reducing its volume.**
Detail: 'merely conceal or transform garbage rather than eliminating its volume'. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

2 **B** **Engineering products from the start for durability, easy disassembly and recycling.**
Detail: the 'upstream' transformation in the fourth sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

3 **D** **Bear the end-of-life environmental costs of their products.**
Detail: 'internalize the end-of-life environmental costs of their goods'. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

4 **C** **Formalizing and protecting informal waste workers.**
Detail: the sixth sentence. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

5 **A** **Ensure economic growth no longer depends on consuming finite resources.**
Main idea: 'decoupling of industrial economic growth from finite resource consumption'. Passage: GPSC pre-screening test (Junior Scale Officer), Jun 2026.

6 **A** **It replicates existing human patterns instead of creating new ones**
Vocabulary in context: 'derivative' = 'echoing established patterns … rather than originating new paradigms'. Passage: GPSC CBRT (Medical Officer), Sep 2025.

English (Comprehension)

7	**C**	**Enhancing human creativity through collaboration** Detail: AI 'facilitating novel collaborations between humans and machines'. Passage: GPSC CBRT (Medical Officer), Sep 2025.
8	**A**	**reliance on human-created paradigms** Inference: the results were 'technically proficient' but derivative. Passage: GPSC CBRT (Medical Officer), Sep 2025.
9	**B**	**Definitions of artistry may need to be re-evaluated** Detail: the last sentence calls for a reassessment of 'our definitions of artistry'. Passage: GPSC CBRT (Medical Officer), Sep 2025.
10	**D**	**AI may serve more as an enhancer than as a replacement** Author's view: balanced; the qualified option ('may ... more as') beats the extreme ones. Passage: GPSC CBRT (Medical Officer), Sep 2025.

English Grammar

11	**B**	**Seldom have I met so honest an officer.** Negative adverbs (seldom, never, rarely) at the start take auxiliary + subject. GPSC-style practice item, modelled on the 2026 grammar blocks.
12	**A**	**am knowing** 'Know' is a stative verb, and 'since' needs the present perfect: 'I have known'. GPSC-style practice item, modelled on the 2026 grammar blocks.
13	**D**	**Let the window be opened.** Imperative passive: Let + object + be + past participle. GPSC-style practice item, modelled on the 2026 grammar blocks.
14	**A**	**must** 'Must' for a confident deduction. GPSC-style practice item, modelled on the 2026 grammar blocks.
15	**A**	**Adverb of purpose** 'In order to succeed' tells why he worked hard. GPSC-style practice item, modelled on the 2026 grammar blocks.

General Knowledge / Current Affairs of India and Goa

16	**C**	**13th** Second only to Jawaharlal Nehru's 17. Aug 2026.
17	**D**	**₹53,428 crore** NSAP gives pensions to the elderly, widows and the disabled. Oct 2026.
18	**A**	**The Union Finance Minister** State finance ministers are members. Article 279A.
19	**A**	**Unai Simón** Spain won the World Cup. July 2026.

General Knowledge / Current Affairs of India and Goa

20	**B**	**the second Thursday of October** It fell on 8 October in 2026.
21	**B**	**1985** At Taleigao Plateau.
22	**C**	**Indian Air Force** Sep 2026.
23	**A**	**United States** Aug 2026.
24	**B**	**Busan, South Korea** Aug 2026.
25	**D**	**Colombia** He succeeded Gustavo Petro. Aug 2026.

Logical Reasoning

26	**A**	**37** The terms are 1, 2, 3, 4, 5 squared plus 1. The next is 6 squared plus 1 = 37.
27	**B**	**DIBJS** Each letter moves one place forward: C-D, H-I, A-B, I-J, R-S.
28	**D**	**Cotton** Rice, wheat and maize are cereal grains. Cotton is a fibre crop.
29	**C**	**Nephew** The son of her husband's sister is her nephew.
30	**D**	**South** After sunrise shadows fall to the west. If west is to his right, he is facing south.
31	**C**	**F** C is first, A fourth and B fifth. D must be second with E third, which leaves the sixth seat for F.
32	**C**	**6 years** When Ayesha was born her mother was 36 − 4 = 32 and her father 38: a gap of 6 years. GPSC CBRT, Sep 2025.
33	**B**	**36** 15 × 24 = 360 man-days; 360 ÷ 10 = 36 men. GPSC CBRT, Sep 2025.
34	**C**	**245 m** 45 km/h = 12.5 m/s; 12.5 × 30 = 375 m covered; 375 − 130 = 245 m. GPSC CBRT, Sep 2025.
35	**C**	**30,240** × 5, × 6, × 7, × 8, so × 9: 30,240. GPSC CBRT, Sep 2026.

Core: Practice of Medicine and Homoeopathic Therapeutics

36	**C**	**140/90 mmHg** Confirmed on repeated readings.
37	**C**	**Stable angina pectoris** MI pain lasts longer than 20 minutes and is not relieved by rest.
38	**C**	**Troponin** Cardiac troponin I or T.
39	**D**	**Bronchial asthma** COPD airflow limitation is not fully reversible.
40	**D**	**Tobacco smoking** Biomass smoke is the next cause in India.
41	**B**	**Stroke** Hemiplegia of sudden onset.
42	**A**	**Status epilepticus** A medical emergency.
43	**C**	**Duodenal ulcer** Gastric ulcer pain tends to worsen after food.
44	**A**	**Helicobacter pylori** Eradication prevents recurrence.
45	**C**	**GERD** Gastro-oesophageal reflux disease.
46	**A**	**Irritable bowel syndrome** Rome criteria for IBS.
47	**A**	**Alcohol** Non-alcoholic fatty liver disease is increasingly common.
48	**B**	**Acute cholecystitis** Murphy's sign.
49	**C**	**126 mg/dL** Or HbA1c of 6.5% or more, or random glucose of 200 mg/dL or more with symptoms.
50	**D**	**Hypothyroidism** Low metabolic rate.
51	**A**	**Metatarsophalangeal joint of the great toe** Podagra.
52	**B**	**Vitamin A** Bitot's spots are also seen.
53	**C**	**Psoriasis** Auspitz sign on scraping.

Core: Practice of Medicine and Homoeopathic Therapeutics		
54	**A**	**Urticaria** Hives.
55	**C**	**Measles** Pathognomonic of measles.
56	**A**	**Belladonna** Belladonna's sudden, intense congestion.
57	**B**	**Gelsemium** Gelsemium's paralytic weakness.
58	**C**	**Eupatorium perfoliatum** Eupatorium is the classic remedy for bone-breaking pains.
59	**B**	**Apis mellifica** Apis: oedema, stinging and better from cold.
60	**D**	**Carbo vegetabilis** Carbo veg's air hunger: 'wants to be fanned'.
